- No sponsoring, No Recruiting No Traffic or Marketing Required (Recommended optional but not essential!)

Wealth4All is a Marketing Network that provides banner advertising to help people promote their primary and secondary businesses. Sales commissions are provided to members who refer other members that purchase products. Unlike 100% of all HYIP programs which are unsustainable, Wealth4All offers cutting edge training and advertising products to its members who will be able to continue to avail of its many products and services indefinitely.

I'm finally getting paid from an honest trustworthy program *wealth4all*, whose owners are doing what they said they would do, and that is to pay EVERY 10 Days like Clockwork!

The following is an earning chart taken from a forum showing the passive income earning potential for an account starting with ten TAPs (\$10 admin fee and \$160 for 10 taps – \$170 total), and then withdrawing the 50% made available to you to withdraw each cycle and then using the other 50% toward auto-repurchase of new TAPs:
