- Kits are custom crafted to provide that sporty touch, and blend with vehicle interior
- A clearcoat finish is added to achieve a highly polished look for lasting beauty
- 3M performance adhesive used
- Precision cut, one-piece design
- Backing has pull tab for ease of removal
- Flexibility designed into the piece through aerospace technology and materials
- Surface must be cleaned with special purpose cleaner then followed by an alcohol wipe and adhesion promoter to prepare surface for installation (included within kit)

Single Components

iPod Adapter

Suggested Retail Labor Time: **150**

Passat shown

Part No.	Description	Application
1K0 051 444	iPod Adapter	Jetta GTI Golf R32 98 ► 06

This iPod adapter is intended to be connected to VW Original Radio/Radio Navigation Systems with a CD changer control system, and uses the same wiring connector positions as a CD Changer, Aux Jack, or USB Connector. It will fit both older 1-DIN devices and new generation devices with a Quadlock connection.

Single input system.

If you fit this iPod Adapter to a standard VW Radio as a Dealer Installed Accessory, or as a Factory installed option, the CD Changer, Aux Jack, or USB connector will be non-functioning. It is not possible to connect and operate two audio devices.

Multi input system.

Vehicles with Radio Navigation System equipped with CD Changers, Aux Jack or USB Connectors are not impacted by the installation of this iPod adapter.

The integrated radio CD/DVD player is NOT affected by the addition of the 1K0 051 444 iPod adapter.

See Accessory Circular #059-08-06 for answers to Frequently Asked Questions about the use and applications of the iPod Adapter.

Not for City Golf/Jetta

GTI Shown

Not applicable for vehicles with front valance or headlight washer system.

Designed for the protection of those finished front end surfaces most susceptible to damage from flying road debris. For user convenience, engine compartment opens without detachment of cover. Constructed for fitting to the vehicle with combinations of padded hi-flex metal tabs, coated hooks and elastics especially suitable for DIY installation, without drilling. Outline is provided for access opening front license plate. Vehicle logo-type embroidered in silver thread.

Made from premium grade materials to ensure optimum useful service life:

- High gloss vinyl of 14 oz./sq. yd. weight, UV and mildew resistant, with backing of 8 oz./sq. yd. polyester foss
- High tensile strength polyester binding used on all seams and edges
- All fasteners (tabs, hooks, elastics) enveloped and surface protected with non-corrosive covered/sheathing

Jetta Shown

⚠ Note: Requires regular maintenance. Read installation and care instructions carefully.

See Accessory Circular **#022-08-06 UCF** for additional information

- Premium grade material to ensure optimum useful service life

Car Cover

Part No.	Description	Application
	Car Cover – Stormshield™ 3 layers, screened logo complete with storage bag	
ZVW 400 104		Jetta Sedan 99.5 ► 05 City Jetta 07
ZVW 400 102		Jetta Wagon 02 ► 06
ZVW 400 103		Golf 99.5 ► 06 GTI City Golf 07

Stormshield is made by taking polyester woven material, spraying molten acrylic foam, and electro-flock microscopic cotton fibers onto it, producing a "peach fuzz" after cooling. It is a breathable three layer material which offers excellent UV protection. The special soft inner layer pampers the most delicate paint finish. The material is lightweight and compact for ease of use and storage.

- High degree of moisture repellency and breathability
- Long life ultraviolet (UV) resistance
- Resistance to dust, acid rain, tree sap and other airborne particulate matter
- Light weight for easy installation and removal
- Custom mirror pockets and Plastipane rear license plate window
- Double stitch seams for strength and long life
- Elasticized hems for fit and stability and tie-down grommets

Important Notes

Do not use a cover on a vehicle which has been repainted within the last 6 months.

If your vehicle has delicate paint, such as lacquer, exercise caution. Some repainted vehicles are not painted properly and may blister.

If there is excessive wind and your cover is flapping against your vehicle, remove the cover.

Do not cover a vehicle while it is being towed.

If a haze appears on your windows after covering your vehicle, it is caused by airborne pollution. Wash your cover.

Troubleshooting

The main problems people encounter with their cover is residual thread or lint left on the vehicle after covering it.

This is just excess material left over from the manufacturing process, and will stop after the first two weeks of use.

See Accessory Circular #**027-08-06 UCF** for additional information

ZVW 400 110 Cover Cable and Lock set

The nonscratching plastic coated cable slides through the special sewn-in grommets, and the lock keeps the cover secured to the vehicle.

Roof Carrier System - Carrier Bars

Part No.	Description	Application
1J5 071 126 A	Carrier Bars, basic, set of 2 cross bars complete with mounting hardware and instructions 4 door	Jetta 99.5 ▶ 05 Golf 99.5 ▶ 06 GTI City Golf* 07 ▶ City Jetta*

Alloy Wheels

A note about our wheel and summer performance tire assemblies: Our high performance wheel and tire assemblies as well as some of the tires required for our larger diameter accessory alloy wheels are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If the car is driven under those circumstances, the vehicle should be equipped with all-season or winter tires which offer better traction under those conditions. We suggest you use the recommended winter or all season tire specified for the vehicle or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim, or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For further information on all these topics, please consult the vehicles owner's manual or call your facing Parts Distribution Center.

All silencers and connecting pipes are manufactured from high grade stainless steel together with aluminized high grade metals components. Internals are constructed from high grade "304" stainless steel. Silencing material is made from INOX high grade steel wool, reinforced with rockwool and heat resistant glass fiber sound reduction material. Components are spray coated with corrosion resistant finish. All silencers are fitted with high grade stainless steel chrome-nickel resonated tail pipe ends. Tail pipe ends are offered either in single or double outlets, which come in 20 different designs, some of which feature 90mm dual outlets.

NOTE: NOT APPLICABLE FOR GTI VR6 MODELS

Each kit comes complete with everything needed to install the pre-heater. Please be sure to read the kit's instructions completely before installation. After the kit is installed in the customer's car, be sure to fill out the necessary paperwork and give the relevant paperwork to your customer.

We would also like to explain how to get individual replacement parts for the pre-heater kits. In the Accessory Circular **#040 08 06** Block Pre-heater Application and Parts Guide, we have listed all of the individual parts that make up the collective engine pre-heater kits. Should you need a particular spare part, please look on this chart to find the part(s) that you need. Once you know the part(s) needed, compose an e-mail and send it to vwaccessories@vw.com with the part number(s) from the specific kit(s) you need, as well as your name and your dealer code. We will send you the requested parts via 2nd day Air. If you wish to get the part sent by overnight delivery, please include your FedEx® account number along with your parts request. Please allow us four (4) working days from the receipt of your e-mail for the processing and shipping of the package.

Roof Box Spare Parts

Part No.	Description	Application
000 071 737 OB	Roof Box Replacement Rail Set	DAVOS Roof Box All

- Rail set for Roof Box **000 071 300A**
- Includes parts to fit onto two roof bars

Note: To replace the Davos Box **000 071 300 A** lock cylinder, order service part **000 071 734 A**

000 071 270	Mounting Kit	DAVOS Roof Box All
-------------	--------------	--------------------

- For securing DAVOS sport and luggage container when fitted on a roof bar set
- Use with Roof Box **000 071 300A**

Roof Box Carrier Attachment

Part No.	Description	Application
000 071 200G UKR	Roof Box Carrier Attachment Size: 84" L x 34.4" W x 16.9" H Weight: 44lbs.	Fits All Carriers with T-slot profile

Constructed using high impact, UV resistant ABS plastic with ridged base channeling to make a durable yet very lightweight box. The eye-catching design and styling features a lowered front and rear, with the base and the spoiler on the lid designed to enhance aerodynamic properties.

The one-key locking system features a user-friendly, padded key and readable decal. The locking system has a built-in safety feature which means the key can only be removed when box is fully closed. Three lock down points on each side of box - one central lock for each side.

- 18 sq. feet of storage space, enough room for snowboards, skis (modern shorter shape-skis only), watersport equipment, luggage and camping gear
- Dual-side opening allows you to access gear from either side of your vehicle
- Struts help lift the lid open and shut with ease
- Aerodynamic shape reduces wind drag and noise
- Quick Grip hardware mounts to crossbars quickly and easily
- One Key System (locks included) with two matching locks and two oversized padded keys
- Finished in Metallic Silver or Metallic Black (687B)
- Limited Lifetime Warranty provided by the manufacturer (Thule)
