SECURITY AND PRIVACY

Safe Shopping Guarantee
Your security and privacy are of utmost importance to us. When you place an online order with Noble Knight Games, our secure server software encrypts the information you submit, ensuring that your transaction is private and protected. Your personal information cannot be read as it travels to our ordering system. If you still do not wish to submit your credit card information online, you may phone in your credit card number.

Privacy Pledge
We keep your personal information private and secure. We use this information
to process your order and to keep you updated on your order. We will never sell, trade or give away your personal information. Everything you submit remains private and confidential.

TRADING AND SELLING YOUR GAMES

Noble Knight Games buys hundreds, sometimes thousands, of games each week, including novels, RPG's, boardgames, wargames, miniatures, even dice. We treat our customers fairly and will not just cherry pick your collection. If you have games for sale or trade and would like an estimate, please e-mail a list of titles along with a general note on condition to nobleknight@nobleknight.com. Please note any missing components, writing, excessive wear and whether you prefer cash or store credit.

Trading

Store credit is always more then cash value. After submitting your list you will receive an estimate in store credit that can be spent like cash on our website. Once the games are received and inspected, the store credit will be put in your online account and you may select your titles using the online shopping cart system. Store credit is good on in stock selections only. You can view your current store credit in the "Review Previous Orders" section of My Account.

Selling

Shortly after submitting your list of games for sale you will receive a cash estimate. We will pay the shipping costs if you are in the USA (unless otherwise noted) if you follow the shipping guidelines. Payments are mailed out promptly via check within 1 week of receiving and inspection.

GRADING SYSTEM (CONDITION CODES)

Every item in our inventory has been inspected, very strictly graded, and bagged for its protection.

*SW – Shrink Wrapped. Still in the original factory shrink wrap, with condition visible through shrink noted. For example, "SW (NM)" means shrink wrapped in near-mint condition.
*NM – Near Mint. Like new with only the slightest wear, many times indistinguishable from a Mint item. Close to perfect, very collectible.
*EX – Excellent. Lightly used, but almost like new. May show very small spine creases or slight corner wear. Absolutely no tears and no marks, a collectible condition.
*VG – Very Good. Used. May have medium sized creases, scuff marks, very small stain, etc. Complete, very useable.
*Fair – Very well used, but complete and useable. May have flaws such as tears, pen
marks or highlighting, large creases, stains, marks, a loose map, etc.
*Poor* - Extremely well used and has major flaws, which may be too numerous to mention.
Item is complete unless noted.

*Boxed items are listed as "code/code" where the first code represents the box, and the second code describes the contents. When only one condition is listed, then the box and contents are in the same condition.
*A "plus" sign indicates that an item is close to the next highest condition. Example, EX+ is an item between Excellent and Near Mint condition. A "minus" sign indicates the opposite.
*Major defects and/or missing components are noted separately.
*Boardgame counters are punched, unless noted. Due to the nature of loose counters, if a game is unplayable it may be returned for a refund of the purchase price (minus shipping).
*In most cases, boxed games and box sets do not come with dice.
*The cardboard backing of miniature packs is not graded. If excessively worn, they will be marked as "card worn."
*Flat trays for SPI games are not graded, and have the usual problems. If excessively worn, they will be marked as "tray worn."
