## 7 REASONS WHY You Shouldn't Buy Printing Online

- 1. You don't know what you're getting until you've got it.** Purchasing printed products online means you're taking a risk at what your final product is going to look like. Moneysaver Printshop has samples ready for you to view, and paper swatches to help you determine what would work best for your project. No surprises, except for how easy it can be!

**2. You get what you pay for.** 500 business cards for \$7.99 sounds like a great deal, but if it sounds too good to be true, it probably is. What they're not telling you is your cards will be printed on 110 lb. cardstock – a thin, flexible index weight paper. Premium business cards – ones that you're proud to hand out to your customers – should be printed on quality paper, not economy paper.

**3. Your cards look like everyone else's.** Templates make it simple and easy to design a card quickly, but they are generic. Moneysaver Printshop staffs graphic designers that are ready to custom design your next project, and often times the design work is included in the price of the product.

**4. Surprise! Your order comes with extra fees!** If paying \$8 for a box of business cards still sounds good to you, consider this – you'll pay at least that much in the shipping and handling. Moneysaver Printshop offers free local delivery to businesses. And free is always a good thing, right?

**5. Customer Service** Spending money locally comes with the added benefit of seeing your graphic designer in person, and being able to view hard copies of proofs. Pop into the shop and talk directly to the people who work for you!

**6. Long Turnaround** Buying online means added wait time. Ordering from Moneysaver Printshop means you'll have your product ready in a fraction of that time.

**7. Supporting the Valley economy.** The Lewis-Clark Valley is a great place to live, and also a great place to spend your money! Stimulate the local economy by spending it here. More money spent at local businesses means better shopping choices for you.

Still not convinced? Give us call and we can talk more about how we can go the extra mile for you.

OTHER PETS

ATTENTION ADVERTISERS- DON'T fall for this scam!! We want to make our advertisers and readers aware of a scam that has been happening across the US, as well as in our area. A person calls and wants to purchase the item the advertiser has for sale, sometimes the call is relayed as if the person is hearing impaired. Scammer promises to send payment (a cashier's check, money order or check) for the purchase price, plus an additional amount to cover the cost of shipping the item (usually to a location on the east coast, sometimes outside the U.S.). The checks are fake, the seller is actually only getting a piece of paper, not a real check. Scammer asks the seller to pay to ship the item, using the extra money included in the fake check. If the seller falls for this scam, the scammer will get the advertised item free, and the seller will end up paying to ship the item to the scammer (since the check was fake). So the seller will lose the advertised item and the money to ship it to the scammer. Don't fall for this scam!! If you are contacted in this manner, and feel it may be a scammer, contact your local Police Department.
