GS MAINS BOOKS FOR IAS

The IAS Mains syllabus has completely changed from 2013 onwards. Now there are four General Studies (GS) papers of 250 marks each. Now, out of 1750 marks in written papers, GS papers alone account for 1000 marks or 57% of the written total. When such high importance is given to General Studies, you need to prepare all the four papers quite well to score good marks in Mains. This post lists the recommended books for GS mains paper along with a short explanation on why you should read a particular book.

Note: You can find [Recommended Books for Prelims here](#)

Books for GS Paper 1

(Indian Heritage and Culture, History and Geography of the World and Society)

History Books

- [India's Struggle for Independence](#) by Bipin Chandra
- [Facets of Indian Culture](#) by Kalpana Rajaram (Spectrum)
- [A New Look At Modern Indian History](#) by BL Grover
- [India Since Independence](#) by Bipin Chandra
- [A History of the Modern World: An Outline](#) by Ranjan Chakravarti

India's Struggle for Independence and New Look at Modern Indian History cover the period from 19th century to India's independence. Both books are required since the former presents the entire period in the proper perspective and narrative while BL Grover's book lists the various acts and reforms during the British period in point-wise format which is easier to grasp and reproduce in the Mains paper. I recommend you get both the books.

Facets of Indian Culture is a short but precise book on Indian culture and heritage topics. Answers to 2, 3 and 5 mark questions on this topic can be easily located in this book.

India Since Independence covers the period from 1947 to present times and is authored by Bipin Chandra, renowned author on Modern Indian History.

A History of the Modern World deals with World History topics including French and Industrial revolutions, World Wars and accompanying political changes in the world.

Geography Books

- [Certificate Physical and Human Geography](#) by Goh Cheng Leong
- [Indian and World Geography](#) by Majid Hussain
- [NCERTs](#) of class XIth and XIIth

Goh Cheng Leon's book is a must-read book for Physical Geography for Mains as well as Prelims. You can expect questions testing your knowledge of Geography basics from this book.

Indian and World Geography by Majid Hussain is another recommended book for economic geography and World geography topics.

Book on Development, Participation, Secularism, Women Issues

- [India: Development and Participation](#) by Amartya Sen and Jean Dreze

This is the best book I can recommend for authoritative understanding of the above issue. Since questions relating to development and its costs will be more analytical than factual, Amartya Sen's book will help you develop the critical understanding to tackle this tricky topic.

Books for GS Paper 2

(Governance, Constitution, Polity, Social Justice and International Relations)

- [Our Constitution](#) by Subhash Kashyap
- [Our Parliament](#) by Subhash Kashyap
- [Governance in India](#) by M Laxmikanth
- [International Relations](#) in the 21st Century by Pushpesh Pant

Our Constitution is the recommended book on Indian Polity for Mains as well as Prelims. Its explanatory as well as analytical writing style is well suited for Mains.

Our Parliament is also authored by Subhash Kashyap and explains all the parliamentary processes, committees and procedures in detail.

Governance in India by Laxmikanth is a good book to get an overview of the administrative setup in India. It has detailed chapters on civil services as well as apart from state and union governments, legislative bodies etc.

International Relations by Pushpesh Pant is a recommended book to understand India's relations with the international community, its foreign policy, various regional organizations and changing dynamics in South Asia.

Books for GS Paper 3

(Technology, Economic Development, Bio diversity, Environment, Security and

Disaster Management)

- [Indian Economy](#) by Ramesh Singh
- [Indian Economy Performance and Policies](#)-Uma Kapila
- Economic Survey
- [Environment & Ecology: Biodiversity, Climate Change and Disaster Management](#) by Majid Hussain
- [Science & Technology for Civil Services Examinations](#)-TMH

Indian Economy by Ramesh Singh is a must-read book for Mains as well as Prelims to understand the basic economic concepts. Before you delve into analytical concepts, you should know the fundamentals of Indian economy and related economic terms; this book does this job really well.

Uma Kapila's book focusses on the current economic issues and is updated almost every year. Very good book for analysis of current economic issues and tackling related questions in the GS paper.

Economic Survey of India released by the Finance Ministry every year before the budget presentation is a must-read book for Mains as well as Prelims. Questions directly related to the economic survey have been asked in the Mains GS papers in the past and you just cannot ignore this vital book without losing precious marks.

Environment and Ecology by Majid Hussain is a one-stop book for all issues related to environment and ecology including disaster management in India; for both Mains as well as Prelims. Highly recommended book.

Science and Technology by TMH will help you to tackle S&T questions in the GS Paper 4 as the book is updated with the latest developments in the field of S&T that is of relevance from civil services exam perspective.

Books for GS Paper 4

(Ethics, Integrity, and Aptitude)

- [Ethics, Integrity and Aptitude for Civil Services Main Examination](#) by Subba Rao

GS Paper 4 focusses on ethics and integrity in civil services and your aptitude for it. Questions in this topic are far from straight forward and will test your resolve to serve the country without fear or favour or consideration for personal profit. Subba Rao's book not only helps in understanding of ethics and integrity concepts but contains several case studies to prepare you for questions based on this topic.

Further Reading

Apart from these recommended books for GS Mains for IAS, you should also read news articles and editorials from newspapers like Indian Express and The Hindu. Also you should stay updated with the latest development in the field of Science and technology, Ecological issues, International Relations, Polity, Economic developments through online and offline news sources.

If there are other books you feel can help cover the GS Mains syllabus, do let everyone know in the comments below.

Hello, Sir.

I am beginner and i am very serious about my career.... The books which you have mentioned is quite useful...i just started preparing for Civil Service, How much would it require to prepare and to appear for exams. I have set a target for 2 years. I have not determined but i have to make sure i crack it at the right time. I have chosen Geography and Sociology as my Optional. Heard that Geography is TOUGH? Is that so? What about Political compared with Geography. Please guide me sir.

Thank u..

Hi Sir. thanx for such nice info.... plz advise if D. D basu in polity is ok for polity or should i skip to Subhash Kashyap. And if Pratiyogita darpan magazine is fine with mains point of view...

Reply

kislay - September 2, 2011

hallo jyoti didi,
d.d. basu is an indespensable book for the analytical study for the constitution of india,esp. for the optional paper Pub. Ad.'s point of view and G.S.'s mains ,too. as far as Dr. subhash's book

is concerned ,it is more conceptual than analytical w.r.t. D.D. Basu's one. now it depends on you from which perspective you are studying the topic.but aggregately, Dr. Subhash's book is more than sufficient for preparation of the topic CONSTITUTION OF INDIA for C.S.E..

Pratoyogita Darpan is very nice magazine but a bit voluminous.so i request you to go for Civil services chronical due to its section-wise & concise presentation of the contents as required by CSE's syllabus.

with best wishes

sir ,i am very much confused about the pattern of upsc exam ...please help...

what i understood after going through internet is-there will be a prelim exam which consist of four papers (250) marks each,after qualifying these the candidate is allowed to take mains exam ,in which we have to select one optional paper..is it right sir?? kindly help

what is the diff between gs prelims and gs mains??
waiting for your kind help
