ADVERTISING DIRECTOR Liz Ranes

PRODUCTION MANAGER Richard F. Budzynski Jr.

CIRCULATION DIRECTOR Tom Dean

The SURPLUS RECORD (ISSN0039-615X) is published monthly. Copyright © 2015 Surplus Record, Inc. in U.S. Patent Office. Postage paid at Berne, IN. Printed in U.S.A. Distributed by controlled, monthly and quarterly rotated circulation to more than 143,000 rated firms throughout the U.S.A., Canada, Latin America, Europe, Asia, and other world areas. Monthly circulation of 60,000 copies is guaranteed. U.S.A. subscription prices: $43.00 per year. $65.00 two years. $80.00 three years. Foreign subscription rates on request.

Surplus Record, an exclusive publishing entity, is not affiliated directly or indirectly in any manner or means with any association, corporation or individual buying and/or selling machinery and equipment.

WE WANT YOUR...

- AC and DC MOTORS - ALL SIZES
- TRANSFORMERS 1ph & 3ph - ALL SIZES
- WE SHIP ANYWHERE FROM OUR HUGE INVENTORY AND YOUR SATISFACTION IS ALWAYS GUARANTEED

AC Motors
- 3-Phase • Single-Phase • Premium-Efficiency
- Metric • Inverter Duty • Vector Duty
- Baldor, Marathon, Lincoln, Universal, US, Teco, ABB, and many other manufacturers

DC Motors
- Baldor, Reliance, ABB, US, GE, and others

Power Transmission
- Gear Motors (AC & DC) • Gear Reducers
- Variable Speed
- Baldor (Grant), Doris, Koellman, Grove, Foote-Jones

Drives
- AC: Inverter Duty • Vector Duty • Variable Speed
- Eddy Current • DC: SCR Variable Speed
- Mechanical Variable Speed
- Baldor, Saftronics, Carotron, Dynamatic, Control Techniques, Reliance, and many others

Transformers
- 3-Phase, Single-Phase • Dry and Oil
- Full Voltage Range • Rex, Federal Pacific, Cooper, Dongan, Jefferson, and others

Plus
- Gear Motors • Reducers • Transformers • Controls
- Variable Speed Drives • Generators • Phase Converters
- Motor Starters • Motor Covers • Motor Bases • Starters
- Power Factor Correction • Emergency Service Available Including Expert Repairs and Rewinding on All Makes of Electric Motors.

THE SURPLUS RECORD TABLE OF CONTENTS

The alphabetical listing below is a *partial* list of equipment listed individually or grouped under prime industrial functions.

Air Compressors & Accessories 38
Air Compressors, Centrifugal 38
Air Compressors, Dryers, Desiccant 40
Air Compressors, Reciprocating 43
Air Compressors, Rotary 43
Air Compressors, Tank Mounted 50
Air Conditioning & Water Chiller Equipment 51
Assembly Machines 51
Automatic Bar Machines 51
Automatic Screw Machines & Chuckers 51
Balancing Machines 54
Balers 54
Banding Lines/Coil Packaging Lines 55
Bar Feeds 55
Benders 56
Benders, CNC 97
Bevelling Machines 58
Blowers & Fans 59
Boiler Accessories 375
Boilers, Firetube 375
Boilers, Watertube 380
Boring Mills, Horizontal 60
Boring Mills, Vertical 63
Brakes, Apron 66
Brakes, CNC 104
Brakes, Press 67
Broach Sharpeners 74
Broaching Machines 74
Bus Duct 75
Bus Plugs 385
Capacitors 387
Casting Machines, Continuous 76
Centering Machines 76
Chemical, Petroleum, Gas & Processing Equipment 77
Chillers 78
Chip Wringers 96
Circuit Breakers, Air 387
Circuit Breakers, Gas 416
Circuit Breakers, Molded Case 421
Circuit Breakers, Oil 432
Circuit Breakers, Vacuum 433
CNC Machinery & Equipment 96
Coating Equipment 150
Coil Handling Equipment 150
Comparators, Optical 161
Compressors, Process Gas 163
Construction & Mining Equipment 163
Converters, Phase 434
Conveyors 78
Coolant Filtering Systems 107
Couplings, Adjustable Speed 434
Cranes & Equipment 167
Cut Off Machines 174
Cut-To-Length Lines 152
Cylinders, Air & Hydraulic 175
Deburring Machines 176
Degreasers 176
Die Handling Equipment 177
Disintegrators 177
Distribution Centers (Panels), Switchboards 434
Draw Benches 177
Drill Heads 177
Drilling & Tapping Machines, Automatic 177
Drills, Heavy Duty Multiple Spindle 178
Drills, Heavy Duty Single Spindle 179
Drills, Horizontal 179
Drills, Indexing Tables, Production 179
Drills, Radial 180
Drills, Turret 182
Drives, A.C., Variable Frequency / Variable Speed 434
Drives, D.C., Variable Speed 437
Dumpers, Including Drum Dumpers 182
Dust Collectors 182
Dynamometers 437
Edging Lines 184
Electrical Discharge Machines 108
Engine Parts 437
Engines, Diesel 164
Engines, Natural Gas 439
Engraving Machines 184
Environmental Testing and Remediation Equipment 184
Expanders 185
Eyeletters 185
Fabricators 185
Filtration Systems 185
Finishing Machines 185
Flame Cutters 109
Flangers 186
Food Processing Equipment 186
Forging Machinery & Equipment 186
Forklift Trucks 188
Foundry Equipment 189
Frequency Changers 192
Furnaces & Ovens 192
Fuses 439
Gear Chamferers 201
Gear Cutter Sharpeners 201
Gear Deburrers 202
Gear Generators 202
Gear Grinders 109
Gear Hobbers 203
Gear Increasers 441
Gear Lappers 205
Gear Reducers 441
Gear Shapers/Shavers 205
Gear Testers 206
Generators, A.C. 448
Generators, D.C. 469
Generators, Hydro-Electric 470
Generators, MG Sets, D.C. 470
Grinders, Centerless 110
Grinders, Cylindrical 110
Grinders, Disc 213
Grinders, Internal 111
Grinders, Surface 112
Grinders, Tool & Cutter 112
Headers 224
Heaters 224
Hoists, Monorail & Trolley, for Cranes 171
Hones, Vertical 225
Hydraulic Power Units 226
Induction Heating & Melting Units 226
Inspection Units 227
Ironworkers 227
Jig Borers 112
Jig Mills 113
Keyseaters 229

www.SurplusRecord.com

Laboratory & Research Equipment 229
Lappers 230
Lasers, CNC 113
Lathes 231
Lathes, Engine 128
Lathes, Precision & Second Operation 240
Lathes, Turret 128
Levelers 242
Lifts 243
Lightning Arresters 471
Locomotive Parts 243
Locomotives, Diesel & Electric 244
Machining Centers, CNC 129
Magnetic Separators 244
Magnets, Lifting 244
Marking Machines 244
Material Handling Equipment 244
Measuring Machines 144
Millers, Horizontal 144
Millers, Plain 246
Millers, Planer 144
Millers, Production 247
Millers, Universal 248
Millers, Vertical 144
Milling & Centering Machines 250
Motor Control Centers 471
Motor Controls And Starters 473
Motor Starter Contactors Only 478
Motors, A.C., Adjustable Speed 481
Motors, A.C., Brake 484
Motors, A.C., Gear 484
Motors, A.C., Multi-Speed 486
Motors, A.C., Pump 489
Motors, A.C., Slip Ring 489
Motors, A.C., Slip Ring, Crane, Hoist & Mill 493
Motors, A.C., Squirrel Cage 497
Motors, A.C., Synchronous 609
Motors, A.C., Vertical 613
Motors, D.C., Constant & Variable Speed 632
Motors, D.C., Crane & Mill 629
Motors, D.C., Gear 632
Motors, D.C., Variable Speed w/Power Supply 632
Motors, Variable Speed Drives 665
Nibblers 250
Notching Machines (Notchers) 250
Nut Formers 251
Packaging Equipment 251
Paint & Powder Systems & Equipment 252
Planers 254
Plants, Manufacturing & Power 254
Plants, Process 255
Plasma/Flame Cutters, CNC 145
Plastic & Rubber Equipment 256
Plating Equipment 260
Pointers (Including Forging Pointers) 260
Polishers (Including Buffing Jacks) 260
Power Supplies 260
Presses, Cut-off 261
Presses, Die Tryout & Spotting 262
Presses, Double Action 262
Presses, Extrusion 262
Presses, Eyelet & Transfer, Metalworking 262
Presses, Gap Frame 263
Presses, High Speed & Automatic 265
Presses, Hydraulic 259
Presses, Laminating 276
Presses, Molding 277
Presses, O.B.I. 281
Presses, Powdered Metal 286
Presses, Straight Side 287
Profilers 147
Programmable Logic Controllers (PLC'S) 666
Pumps 87
Punches 309
Punches, CNC 147
Railroad Cars/Equipment 310
Reclosures 666
Rivet Spinners 311
Riveters 311
Robots, Industrial 313
Rollers, Thread 314
Rollformers 340
Rolling Mills 317
Rolls 318
Rolls, Plate Bending 320
Routers 322
Sanders 322
Saws, Band 323
Saws, Cold, Friction and Carbide 328
Scales 330
Scrap Choppers 330
Scrap Yard Machinery & Equipment 330
Shapers 331
Sheet Metal & HVAC Machinery 339
Slitters 341
Slitting Lines 155
Slotters 342
Spline Rollers 342
Storage Equipment 343
Straighteners 155
Stretch Forming Machines 343
Swaging Machines 344
Sweepers/Scrubbers 344
Switches 666
Tappers 345
Testing Equipment 345
Threaders 346
Tooling & Accessories 347
Transfer Machines 354
Transformers, Constant Current 672
Transformers, Electric Furnace 201
Transformers, Single Phase 674
Transformers, Three Phase 677
Tube End Finishing & Forming Machines 354
Tube Machinery 355
Tube Mills 357
Tumbling Barrels 192
Turbines, Steam w/Generator 730
Turbines, Steam w/out Generator 730
Vacuum Chambers 358
Valves 358
Vibratory Finishers 359
Voltage Regulators 732
Washing Machines 254
Water Jet Cutting 150
Water Treatment Equipment 361
Welding Machinery & Equipment 362
Welding Manipulators, Positioners & Turning Rolls 365
Wire Machinery 150
Woodworking Machinery 374

Factors Driving Our 2015 Manufacturing Outlook

There are many reasons to ring in the new year with a toast to strong domestic manufacturing performance – and seemingly positive trends heading into 2015 – that took shape in the second half of 2014. As we go to press, the recent performance of the manufacturing PMI (going back to June 2014) has shown the most consistent and strongest 6 months in many years. Throughout the 6-month period, the average score of 57.6 between June and November 2014 shows commendable industrial growth relative to any other period of over the past decade. While some economists believe the rate of manufacturing growth is slowing headed into 2015, there are other converging trends that support a continued manufacturing renaissance in the US.

Manufacturing investment plans for 2015 are also looking positive. For example, according to a recent Industry Week survey of over 400 manufacturers, a material percentage of companies are planning on increasing investment in 2015. According to the study, 60% of respondents will increase their investment in total capacity over 2014 levels (compared with only 6% of manufacturers that plan to lower it). Twenty-six percent plan to increase their use of outsourcing and contract manufacturing, and the same percentage intend to increase their shop floor space at current facilities (e.g., facility expansion). Nineteen percent plan to increase their total number of facilities overall (and 15% plan to increase facilities in the US).

Taken together, recent PMI trends and survey data suggests a buoyant US manufacturing sector that is entering the next calendar year on a more healthy footing than just about any in recent memory. Yet other trends are also worth paying attention to as we plan for 2015.

These include the opportunities and risks that a strong US dollar present. While making US exports more expensive in other parts of the world, a strong dollar also brings the potential to further drive down already low commodity prices, potentially offsetting export price risk. However, while lower commodity prices are certainly a positive for many manufacturers, those industrial companies with exposure to the mining sector – and their lower-tier supply chains – face growth risks in an environment of downward commodity price pressure.

Lower oil prices (which recently hit levels not seen since 2010) also portend lower manufacturing and logistics costs heading into 2015 for companies that did not enter into long-term contracts earlier in 2014. A recent Bloomberg editorial on the topic suggests that, "the good comes from the boost that lower oil prices provide to consumers and manufacturers in oil-importing economies. It is the equivalent of a significant tax cut at an opportune time, especially for Western consumers … the overall global effect will be to boost consumption and lower manufacturing costs in countries that have been struggling to overcome prolonged malaise in growth and jobs."

A recent Accenture report (published when oil prices were 10% higher than they were at the time of publication) further suggests that "most (but not all) industries benefit from lower energy prices and the follow-on impact on logistics costs … One analysis put the global cost savings at $1.8 billion per day based on current global output and the potential stimulative benefits could reach $1.1 trillion globally as other commodities fall in sympathy."

In short, reduced oil and energy prices are a very important industrial driver heading into 2015. If Brent crude continues to trade at less than $70 per barrel, it will be a strong indicator that manufacturing costs will continue to remain low relative to 1H2013 and earlier levels. And, low costs (provided consumer demand remains strong at the end of the supply chain) are generally a positive indicator of manufacturing trending in positive territory.

Of course there are many other considerations heading into 2015 that could impact manufacturing's trajectory. From political stability (or a lack thereof) in Central and Eastern Europe to Chinese demand to interest rates to lending costs for non-investment grade companies (read most manufacturers), a single factor or collective set of elements could come together to shift what currently appears to be a positive outlook for the US industrial sector.

Jason Busch and Lisa Reisman are Editors at Large.

Grass Roots Whispers

Jim Truesdell

Business Community Divided on Call for Net Neutrality

Small business owners find themselves amongst strange bedfellows as various constituencies take sides in the growing debate over net neutrality. Entrepreneurs and family business operators fear that unregulated cyberspace will leave them with the short end of the stick as larger and better funded national companies and chain stores purchase priority treatment from broadband providers, allowing the big companies to step to the front of the line in getting their message and products out to the consumer. Some small businesses find President Obama's recent call for reclassifying Internet usage to be strangely appealing. This would make Internet providers de facto utilities with equal access provided to all. They find themselves siding with the community of activists, academics, and liberals who call for more government regulation in this area as a means of providing freedom of equality of Internet access and use. It is that very freedom and equality, they argue, that drives new development and growth of online sales and marketing.

On the other side of this divide are bigger companies, many of the Internet providers themselves, and free market proponents who believe creativity and innovation and (as a consequence) more jobs will be provided by letting the chips fall where they may. They say there is nothing inherently wrong in letting broadband companies provide different levels of access, speed, and service to those who desire it. If people think they can make more money then they should be free to invest their dollars and focus their technology and marketing efforts to do just that.

A surprising number of small business owners seem not to be tapped into this debate at all. Perhaps they are so busy in tending to day-to-day operations details that they have not stepped back to look at the bigger picture. Perhaps older-generation business owners are just not plugged into the rapidly changing marketplace to the extent their younger employees and customers might be.

In the MBA classes I teach at Saint Louis University, the typical student age is 22 to 35. These up-and-coming managers are very aware of the net neutrality issue and, overwhelmingly, they side with the romantic notion of freeeom and equality on the Internet. Though they are mostly opposed to excessive government regulation, they

About the Author — Jim Truesdell is president of Brauer Supply Company, a machinery, heating, and industrial distributor headquartered in St. Louis. He is assistant professor in the MBA program of Saint Louis University and is the author of Total Quality Management: Reports from the Front Line.

Business Community Divided on Call for Net Neutrality

(concluded from previous page)

seem prepared to accept such regulation in the name of preserving the Internet freedom which they have grown up with and which is almost a religious mantra for their generation. They see it as a free speech issue. It is an interesting juxtaposition and, indeed, somewhat of a contradiction.

The term "net neutrality" was apparently coined about a decade ago by Columbia Law School Professor Tim Wu. He promoted the idea that a maximally useful public information network would aspire to treat all content, sites, and platforms equally. As consumers who pay for access to the Internet we should have the right to have all ideas and information brought to us in an equal format. Our Internet provider should not be censoring what we can or cannot see by providing it at different speeds or ease of access. This principle should apply to censorship of ideas or philosophies or financial choices made by the provider who receives extra remuneration from those paying to push their message to the forefront.

Following President Obama's early November proposals to treat the Internet like a regulated utility (supporting the idea of regulated neutrality on the net) there was some pretty strong reaction in opposition to this from large companies and their trade associations, as well as some broad band providers. One example is AT&T which announced it would stop investing in high-speed Internet connections in over 100 U.S. cities until they saw which way this matter was going. CEO Randall Stephenson stated that his company could not invest large sums of money in this without knowing under what rules those investments would be governed. An editorial in the Wall Street Journal likened Obama's proposals to his imposition of government controls over healthcare and other industries, predicting that it would be a danger to the U.S. economy and global freedom.

Small businesses have a stake in this debate which may resonate far into the future. Small business continues to generate sales and employment which is a significant portion of the U.S. economy. A balance will have to be set between freedom from government regulation and fair access for the little guy in competition with the big market players. The first step for entrepreneurs and family enterprise operators is to get their own technology and Internet marketing outreach into the game like their mega-size competitors. At the same time they need to pay attention to the net neutrality debate. As we speak, politicians may be irrevocably setting the rules under which we will operate for decades to come! ■

WE ARE BRINGING YOU GREAT EQUIPMENT AT AFFORDABLE PRICES!

CNC HYDRAULIC PRESS BRAKES

125 Ton x 10′ - Call for low price! • 2 Axis CNC back gauge
155 Ton x 10′ - Call for low price! • Inching, single cycle & continuous operation
155 Ton x 12′ - Call for low price! • Ram deflection adjustment
200 Ton x 12′ - Call for low price! • Punch and 8 way die

Many Other Sizes Available - Call U.S. for Details or Visit: www.usindustrial.com

New and Refurbished EDMs - WHY BUY USED?

For about the same amount of money, you can get a quality refurbished EDM including on-site training and 6 month warranty.

NEW EDMs by CHMER EDM Wire • Sinker • Small Hole

Refurbished EDMs: Agie, Brother, Charmilles, Japax, Sodick and more
New EDM Tooling and Software, Consumables and Repair Parts

USED & REBUILT BLAST EQUIPMENT
"WORLD'S LARGEST REBUILDER"

TUMBLAST AND BARRELS
1 Wheelabrator 20" x 27" Tumblasts
1 Wheelabrator 36" x 42" rubber belt, rebuilt
1 Pangborn 6GNR, rubber belt, rebuilt, 1 year warranty
1 Pangborn 12 cu. ft. 12GNR, rubber belt, with loader, - excellent condition
1 Wheelabrator 7 Super, rebuilt
1 Wheelabrator 14 Super II, manganese flights
1 Wheelabrator 22' Super II Tumblast, remf'd, - new mang. flights, links, mill shafts, etc., new condition
1 Wheelabrator 28' Super II, mang flights, remf'd, - excellent condition
1 Wheelabrator 34 Super III, manganese flights - remf'd, 1 year warranty

TABLES
1 Pangborn 6LK, Rebuilt, 1 year warranty
1 Wheelabrator 96" swing table, 52" work height, - completely rebuilt, new condition
1 Wheelabrator #1 Multi-table, (10) 8" dia. tables
1 Wheelabrator #1A Multi-table, 2-Wheels, (8) 19" dia. - tables, indexing, independ. abrasiv., sweeps, new condition

TABLES (continued)
1 Wheelabrator #1A Multi-table, 26" Tables
1 Wheelabrator #1A Multi-table, side-mount wheels, 1988
1 Wheelabrator #2 Multi-table, seven 30" Tables

EQUIPMENT SPECIALS
1 Wheelabrator - BCP 2-Wheel, 30 HP Spinner Hanger, 48"x72", - 2,096 total hours, 43" dia. x 48" H wk. envelope
1 Wheelabrator 2-Wheel, 15 HP DownBlast Belt Conveyor, 18"H x 26" W, '00
1 Wheelabrator/BCP 4-Wheel, 10 HP wheels, Structural Cleaner, - wk cap. 12-1/2 x 12-1/2, ent. & exit conv., excellent condition
1 Wheelabrator 4-Wheel 40 HP Rod, Bar & Shape Cleaner
1 Wheelabrator 4-Wheel 40 HP In-Line Bar Stock unit - up to 6" dia. rounds & w/do shapes & flats
1 Goff Spinner Hanger, Model 24 x 60, excellent condition
1 Wheelabrator 2-Wheel Model 205 Spinner Hanger, - wk. env. 15" dia. x 40" H, rebuilt

ITC INDUCTION TECHNOLOGY CORPORATION

INDUCTION MELTING AND HEATING EQUIPMENT

We design, manufacture, repair, and rebuild induction power supplies, coils, furnaces, water-cooled power cables, and water cooling and recirculation systems. Since 1979

- **30Kw**, **9600 Hz**, Inductotherm, Solid State Power Supply, Reconditioned
- **50Kw, 3kHz** ITC MVP Solid State Power Supply, 1250 V Output Cap. includes: - H_2O pump module and 10 ton, Russell Dry-Air-Cooled Fluid Cooler
- **50 kW, 3kHz** VIP PT-30 w/100lb. hydr. tilt furnace. Reconditioned & Guaranteed
- **120Kw, 3kHz**, Inductotherm, VIP MKIV w/(2) Furnace Switches, Reconditioned
- **175Kw**, **3kHz**, Inductotherm, VIP Power Trak, Rebuilt-Like-New
- Russell Dry Air Water Cooler & **5 HP** Water Pump Station, - Will Cool Induction System **up to 75 kW** Induction Power
- **10 HP**, Recold Pumping Station: dual water pumps, 300 GPM - w/ control center.
- **All Equipment Tested and Guaranteed**
- **Parts and Service Available on Everything We Sell**

Many systems available! Call with your requirements
