Businesses today face the need to diversify their products, and extend their markets.
Baffney's Business Contacts in SA is a medium that can help enterprises to achieve this.
The directory has for many years afforded entrepreneurs the opportunity to expose their products and services to an economy way beyond their normal customer base, for this reason the Chamber participates in the publication, providing our members with broader national exposure. We trust that this edition, like the previous ones, will play a meaningful role in expanding the markets, the horizons, and the profits of participating businesses.

Laurence Saville, President
