The above minion responded to my posts on Palin & Obama w/YouTube clip of Metallica w/the title **“Masters Of The Puppets”** displayed across top of clip, and this comment **“sorry to be so obvious, had to be done”** Translation: we know who you are, and cannot allow you to continue to post this stuff, it violates our orders as **“gatekeepers/controlled assets”** — subsequently I was **“BANNED”** and all links to my blog contained w/in posts were frozen. **Question: Who’s team are Jason Lucas & Alex Shamash on?**

ITK7: Godlike Productions (GLP) BANS posters for typing **“C2Media”**, **“Lop.com”**, **“Stanford Research Institute”**, **“SRI”** and especially **“Tavistock”** in any posts! Some checking with some **Friends of Mine** got big laughs and revealed Godlike Prods. is one of the many **“controlled opposition”** sites functioning as **“gatekeepers”** for global cabal...

ITK7: These two clowns must be *sharing a brain*, to leave their butts hanging out like this — the utter stupidity of attempting to suppress info re: *Tavistock Behavioral Research Institute and it's sister org Stanford Research Institute (SRI)*... it's like trying to collect the sand on the beach, it's on Wikipedia, and their antics are all over the web!

Jason Lucas & Alex Shamash “Controlled Opposition” wunderkinds

**** copy sample post below, go to GLP
log on/ paste – these two Mensa Society rejects will ban you instantly for info stored on
practically every server in the world...***

Hello Jason/Trinity – love your site, I’m not an anonymous coward, but read in PC World that you and partner Alex Shamash were formerly principals in “Trinity Acquisitions Inc” and “Secure Software” – Is it true C2Media, LOP.com & “Fla Internet Marketing Inc” are your current spyware/malware companies used for “data mining” or spying on people? I’m new to this NWO stuff... do your posts cover Tavistock Behavioral Research Institute and (SRI) Stanford Research Institute?

Thanks in advance for setting the record straight.

SITREP: Jason Lucas/Alex Shamash are contract agents for Military Industrial Complex who (1) previously were principals in “Secure Software” and “Trinity Aquisitions Inc” are currently in joint ownership of “Fla Internet Marketing Inc” – a data mining business (2) GLP is masquerading as a place for people who are fed up w/global mgt team, to share info, when in reality Jason (a.k.a. Trinity) is **compiling lists, turned over to Dept. of Defense (DoD) and at some point, will be classified as “undesirables” and “enemy combatants”** (3) Jason Lucas & Alex Shamash own “spyware” companies” (4) C2Media is a CIA-front org w/offices in IL, CO, TX, VA, NY, WA, OR, CA and Canada (5) Jason is a middleware software designer working w/DoD, Joint Forces Command (JFCom) on system that will **co-ordinate movements of Monarch Prog Multiples, using Virtual 3D imagery, Remote Neural Monitoring via EEG Evoked Potentials, utilizing all three NSA platforms (SIGINT, COMINT, HUMINT)** The military apparatus displayed within TENA training manuals/visuals is a thinly veiled cover for army of Monarch Multiples – MK’s **they are the weapons in their arsenal**. This will give Military Industrial Complex **ability to broadcast directly into audio/visual cortex of the brain** – basically a huge megaphone heard simultaneously. RFID (Verichip) implanted Monarch Units, as well as civilians, will feel the effect of “having a song stuck in your head” Signals will originate from NSA, transfer to **GWEN towers, strategically placed throughout CONUS**. **MKs have enhanced audio/visual capabilities – this system will allow on-line, real-time retrieval of images stored in audio/visual cortex, as well as transmitting coded intel to individual or groups of MK’s – the days of physically reporting for de-briefings are being phased out. Easiest way to decode TENA is to substitute MK’s for weaponry.**

***Now a special treat for the gang over at GLP and all those who “walk between the raindrops”
Tavistock Behavioral Research Institute (“TBRI”)
30 Tabernacle Street, London EC2A 4UE; email:***

Tel: +44(0)20 7417 0407 ; Fax: +44(0)20 7417 0566

ITK7: Jason Lucas, Alex Shamash, Congress, Dept. of Defense (DoD), U.S. Joint Forces Command, MI6, CIA, NSA and the rest of the “spook” community don’t want you to know about MK-Ultra Monarch Mind Control Prog and its “**brainchild**” — hiding behind the false banner of “national security”...

Tavistock has been all over the web for years, despite several name changes, the goal of its founders remains the same — *condition the masses (useless eaters) to accept servitude* — “*a slave is easier to control, if he doesn’t know he’s a slave*” In 1920, Tavistock Institute of Medical Psychology (TIMP) was founded, renamed Tavistock Clinic, Tavistock Institute of Human Relations, currently known as Tavistock Behavioral Research Institute. This was only a “*formal*” coming out. Rothschild Dynasty funded Sigmund Freud (about 1909 -1912) and a team of Nazi mind scientists, set them up in a lavish estate to conduct “*mind science*” research. Under the guise of “*providing assistance to wives of SS members*”, *SS Himmler used these as breeding camps*. Orphanages were set up as holding pens, children were shipped to Germany for “*Germanization*” or “*re-education*” — read: subjected to horrific torture sessions in order to cause “*mind splitting*” (*DID -MPD*) in their twisted efforts to create army of human robots. *The generic description of “experiments” is deceptive, as it masks the “purpose” of the (SRA) satanic ritual abuse — those who could not withstand the torture, were ritually sacrificed under the Occult-Nazi death symbol — the swastika...*

Origins: Rothschild Dynasty financed **John D. Rockefeller** in the oil industry, they planned to control — taught him ruthless business model for Standard Oil “*competition is a sin*”— through treachery and deceit became **Exxon-Mobil** (1911 Supreme Court mandated break up was a sham...”you want us to break up the co.? oh this is awful” (*wink-wink*) — each co. grew independently, when re-assembled, single entity was worth much more. Rothchild’s had almost two centuries of money manipulation when Rocky came along, and viewed him as a young upstart (easy to control) Rothschild used Rocky as cover for “*formal*” coming out of Tavistock. The grant from Rocky, was Rothschild stake in their mind science plot to have earth’s citizens serve them as perpetual monarchy... it’s worked exceedingly well. The formalization began w/these doctors (not going to name all) **Elliott Jaques, Henry Dicks, Leonard Browne, Ronald Hargreaves, John Rawlings Rees** (Dir. In 1932 became **founder of World Federation for Mental Health** in 1948) **Mary Luff, Wilfred Bion and Tommy**

Wilson as Chrmm — others joined later **John D. Sutherland, John Bowlby, Eric Trist, Fred Emery.** Tavistock joined **Kurt Lewin** and his Research Center for Group Dynamics (RCGD) at Univ. of Michigan, published an international journal, “**Human Relations**” relating theory to practice – 1st vol. “**Overcoming Resistance to Change,**” & “**A Comparison of the Aims of the Hitler Youth and the Boy Scouts of America.**” Tavistock Institute used Lewin’s techniques to arrange “**therapeutic communities.**” [we call them “**12 step programs**” the first of the 12 steps calls for the following declaration: “**We admit we are powerless over our addiction**” to alcohol [drugs, gambling, sex] — that our lives have become unmanageable” — **the sheer insanity of waking up everyday making negative affirmations about oneself and having this reinforced in group settings!** Any first year psychology major knows repetition is how the mind is conditioned, it’s how you train your children...Ed.] In 1932 Lewin came to U.S. for concentration in child psychology. **During WW2 he was an agent U.S. Office of Strategic Services (OSS) psychological warfare Division — which became CIA PsyOps...**

Rees developed “**Tavistock Method**” which **induces and controls stress via “psychologically controlled environments**” in order to make people give up firmly held beliefs under “peer pressure.” **Wilfrid Bion** pioneered “**Group Dynamics**”

In April 11, 1933, **Rockefeller Foundation** Pres. Max Mason assured trustees that in their program, “**the Social Sciences**” will concern themselves w/rationalization of social control — **the control of human behavior**” [or **MIND CONTROL**] This declaration led to a Rockefeller grant that resulted in the birth of the “Tavistock Institute of Human Relations” in Rothschild controlled City of London in 1947. (see Empire States: Geostrategic Power Centers Pt. 1) **This was 1yr after National Security Agency (NSA) was created, to provide the secrecy needed for these evil mind scientists under the banner of “national security”.**

In 1935, Harvard psychologist (1930-1967) **Gordon Allport** co-authored The Psychology Of Radio with Hadley Cantril. In 1940, Cantril wrote The Invasion From Mars: A Study In The Psychology Of Panic regarding radio broadcast of **H.G. Wells’ The War Of The Worlds [masterful fear-based trauma, mind control Op, so successful, it caused mass hysteria/panic in the streets, as Americans believed country was under attack by Martian invaders — today it’s fear of Islamic fundamentalism, tactics don’t change...it’s a formula]**

FREE audio download here

Fred Emery in (HUMAN RELATIONS, Vol. 12, No. 3, August 1959) “**Working Hypotheses on the Psychology of Television**” ...”The psychological after-effects of television are of considerable interest to the would-be social engineer.”

These are the monsters that created our heroes in sports, entertainment, political realms — (“**TBRI**”) **created the Beatles, Rock-N-Roll (most of the Satanic “acid rock” groups) Elvis, Michael Jackson, (ERA) Women’s Movement, Gloria Steinem (CIA asset) Civil Rights Movement (MLK asset), environmental movement, video game craze, cell phones (to get us used to carrying our own personal GPS devices) phony War On Drugs, global warming hysteria w/the inane recycling, Hip Hop, phony War On Terrorism, Madonna, Britney, “Obama Girl”(inducing emotional bonding w/obvious target group) Sarah L. Palin Disney-like fantasy narrative and on, and on...**

These are the people who decide what toys your children play with, color cars you drive (70's brown, 80's black, 90's silver), how your corporate office (trauma box/cubicle) will be designed, shows/movies/vids you'll watch, songs we sing, clothes we wear, what will be legal and illegal, **which drugs will be produced/sold, what quantity/potency, to whom and who will be prosecuted for sale/use.** They dictate what's printed in magazines — **every major societal movement you can think of was hatched in the City of London — there are no such things as “spontaneous uprisings”** ...and if, by chance they are...swift infiltration is executed — **witness Tea Party Queen...**

Tavistock Behavioral Research Institute is “the brain” of the abominable MK-Ultra Monarch Program. The worlds' most brilliant **social engineers, neurosurgeons, behavioral scientists, psychologists, psychiatrists, social workers, professors, leaders of major religions, politicians** have received “mind control” training (“TBRI”) in Rothschild controlled City of London or one of (“TBRI”) sister orgs i.e. **Stanford Research Institute (SRI) in California...**

(“TBRI”) has the resources of Rothschild/Rockefeller Dynasties at it's disposal, enabling it to operate w/ impunity, seducing the world's most brilliant minds to develop sinister methods to control earth's citizens (subjects) to basically suffer in silence...**they are “experts” in the field of mind science, and determine the standards/practices for mental health on the planet,** through control of world mental health institutions, universities, hospitals, trade journals w/virtually unlimited funding and complete political support.

What we are and what we should be is “free”to make choices in this life or any other.

I have been a poster on GLP for about three years running. Recently banned again for the last time as it seems.

My experience at GLP has been pretty good over all.

Think most of what is there is horse pucky but I still find it entertaining at best and interesting at the very least.

I,like the rest of you have read all the pros and cons about GLP.

But ,in spite of all the bad,it would still be “my choice”to post there or not.

I have never been banned for any of the reasons stated or could I tell you (why) I was banned in the first place.Such things concerning me personally still remain a mystery.And I am offered no explanation as to the reasons why.

All I know is that now I have been banned permanently as it seems for it has been three months now and the worst it ever was was two weeks.

I have no regrets or ill feelings toward GLP
(whoever or whatever)the web site is or isn't I still miss posting there.

I don't feel so simple minded as to believe all the “mind control” and secret ops crap.Even if it were true it seems like money and time pissed away for the sake of the simpleminded people that it would effect if any!

After all the site does belong to someone or a group of someones and it is there's to rule and grovern as they see fit.

I did become attached and miss it somewhat....

But thats life.....

It truly was a great place for “battle”.....

There is always more than meets the eye to anything.

And two sides to every story.....

May the peace of God be with us all.

If you want to know who exactly either works directly for GLP or is a paid for GLP look no further than this thread (<http://www.godlikeproductions.com/forum1/message1127974/pg1>).

They call themselves the Moran workforce and jokingly refer to themselves as such. Its a VERY big organization/project, much bigger than you think...

Hello;

Latest sad news on Dr. David Duke and his war with JewTube:

<http://incogman.net/09/2010/jews-censor-david-dukes-youtube-channel/free-speech-photo/>

And HERE IS THE ENEMY WHO DID IT CELEBRATING IN CRASS ARROGANCE, The “Jewish Internet Defense Force/JIDF=Mossad=ADL:

<http://www.thejidf.org/2010/09/we-finally-took-out-antisemiticracist.html>

The title of the article:

SUCCESS! We Finally Took Out the Antisemitic/Racist David Duke YouTube Channel!

They boast:

“Of course, David Duke’s YouTube channel is only one of the THOUSANDS of channels we have been directly responsible for removing.”

This is their Site Page on how to Stalk People at YouTube=JewTube=ADL=Mossad=B’nai Brith=Sabbatean Satanist Talmud/Kaballah worshipping Sanhedrin:

<http://www.thejidf.org/2008/02/problematic-youtube-channels-and-videos.html>

Here’s 750+ YouTube Accounts they falsely stalk as “Nazi” YT Accounts:

<http://www.thejidf.org/2009/06/list-of-750-nazi-channels-on-youtube.html>

They boast on the Site insulting Dr. Duke:

“As we’ve proven time and time again, the JIDF is the most active and effective force against online Jew hatred and terrorism. We don’t just expose the issues. We don’t just write press releases to kvetch about them. We encourage our network of over 270,000+ strong to report this trash.”

Here’s where JIDF Stalking began with letter by filthy Rabbi:

<http://www.thejidf.org/2010/04/rabbis-letter-to-youtube-regarding.html>

Title:

Rabbi’s Letter to YouTube Regarding David Duke’s Antisemitic YouTube Account

Here’s a few lying quotes by the hypocrite Rabbi in his filthy letter to YouTube to Slander and Defame the Character of Dr. David Duke which is Felony and he would have to commit Felony Perjury in Court Lying under Oath to slide this one by:

“Dear YouTube Administration,

I am writing to you again and asking for the suspension of the account of anti-Semite and racist David Duke, “drdduke”. This is not the first time I have contacted YouTube about this hate propagandist and former KKK grand

wizard. All of my previous emails requesting this have gone unanswered, and thus far no action has been taken by YouTube and Google to remove this hate monger from our community. ”

This is another article about this stalking Rabbi on the JIDF Site:

This was funny tonight to see this finally pop up... I wondered when You were going to detonate over the wise-asses on this section...

You know, Ride, when people point the finger at someone they have 4 of their own fingers pointing back at them and it really sucks to take out a blame-thrower to burn other people instead of being Responsible to One's Self in open Self-Honesty...

It's like the whole 12 Step Program of AA/NA/Etc. hangs on the 1st Step that says:

"We admitted we were powerless over alcohol/drugs/emotions _____, that our lives had become unmanageable."

So it's like a Magicke Mirror where One looks in the Mirror at One's Self instead of pointing the finger and takin' out the blame-thrower to burn Others. Hinges on Self-Honesty because what we ALL Own about Ourselves will change for the Best, and what we ALL diss-own about Ourselves will also change... for the worst.

And most sheeple live in denial which is an acrostic for:

Don't

Am

Lying.

Sad but True, Ride.

So, it looks like trinity lifted all bans. Word on the street is that GLP was/is imploding and Jason Lucas and the gang decided to let the cat live outside the bag given that anymore covering-up would just harm them more than anything else. They are completely exposed and will soon shut down in my opinion. If you google GLP, first few answers are that GLP is conclusively disinfo psy-op.... It was fun while it lasted Jason, your done.

I got money for someone who has skill at setting up a real time internet voting service. What I can't figure out is how to secure the vote, technologically. Even digital finger prints could be faked by government. But I do feel this is would put control back into the hands of the people and they would use the voting service to kick the bums out, period. And their skills, too.

You know, I've sat in the distance watching this comment section take off growing like a loco-weed of all the articles on this Blog, and I never knew about that phony shill site GLP... (is that like "GuLP" You feel in Your throat when You're about to puke?)...

So I had to go there to see what everyone was so uptight about... wow... creepy... kinda' New Agey... reminded me of the 80's when New Agey took off with multi-generational Satanic "Stars" into it preaching their white light Satanic Occult s**t like Shirley MacLaine and them all getting off like bad sex going into ritual trances like a real VouDoun or Santaria Ritual so they can "channel" and leave the driver's seat of their minds or bodies astrally projecting out so they can be physically possessed by demonic lying entities thinking that's some "Ascended Master" s**t talking in creepy voices physically possessed like that skank Ramtha-in-the-A\$\$ JZ Knight...

SO my reply to ALL New Agers preaching their infected lies is this and to those at GuLP seeking converts...

Go buy a crystal dildo and go f**k Yourselfs so You all can get off good and go channel an Orgazm and that will be nicer and safer than the New Age nicey-nice phony crap that's just white light Satanism Dualism of the Tree of Knowledge of BOTH Good and Evil... like nicey-nice New-Age Masquerade Misanthrope Shills like Icke/Maxwell-Pine/Tsarion/Acharya-Murdock... what a Racket... Conspiracy with New Age Religion for huge shekels of moola as their Reward for lying to You ALL about Conspiracy as I say they ALL like post-modern TV Preachers like 33rd Degree Masons Kenneth Copeland, Pat Robertson, Robert Schuller, Oral sex Roberts (what kinda' Mom names their son 'Oral'???)

Amazing how this conversation has evolved... I see comments pop up in emails all the time and find some curious... what happened to the “Noah” character? I did see You’re going to continue though so that’s groovy. Hang Tough Ride. We’re seconds to Midnight and part of Your Mission and Call is to be a Watchman on the Wall, like it or not. Get the Word out while You can before they shut this whole Web down.

On a more pleasant note even the Bible says when it hits the fan, that the “Elites” will hide in the rocks of the mountains, ie. Underground Bases like under Denver Airport and they will run but NOT be able to hide and they ALL will be nailed there and cry out in distress and NO escape... they will be eaten up by illnesses and disease, they who take the Mark of 666 Dude. And even Death will leave them a Fate worse than Death as relief from what they’ll get soon enough...

I personally am kinda’ happy when one of them dies and see it as Planet Earth Ecology minus one more “Elite” asshole.

The Question to You and me ALL, is what kind of Footprints will WE ALL leave when it’s our Time to leave for the Great Equalizer of ALL Life on Earth, the Charnel Field?

Will it be flowers and Life growing in the Footprints we leave on Earth, OR will it be burnt hoofprints like the “Elites” leave behind where NO Life can grow that defiles the Earth right down to Bad Energy Zones in twisted Ley Line areas where the Energies gather like a cesspool and no flow in rot and disease?

Almost like the old Cat Stevens’ song, “Oh very Young, what will You leave us this time?”

Don’t surrender. Hang In There. We’re in the last mile...

Don't judge them with all the conclusion you have, maybe Trinity is keeping his life very private, Trinity is fighting the very thing we love, freedom of speech, the lawsuit (TPTB) want to shut down his website for the copyright issues

Remember, GLP is a place where they got the news before MSM report it

Show some respect, I changed my mind not to judge any more

It all about respect someone's private life

I hope you understand how I feel, we should be angry at BP and the government, not GLP

Noah, I'm confused as to your motivation, as some of your previous comments contained factual information confirmed by my own research as well as many others. **Jason Lucas (a.k.a. Trinity) has been secretly collecting IP addresses for years, turning them over to Intel community, working w/elements of U.S. military to have people classified as "enemy combatants"** -- I along w/ some of commenters here are on those "lists" and do not take that lightly. Noah, this is the complete opposite of "*freedom of speech*" and "*respecting privacy rights*"; and although you may not wish to "*judge him*" (whether he's done this willingly or by coercion) he's potentially placed people's lives in danger, and should be held accountable — this is serious Noah. If you have some additional Intel to share that perhaps would cause us to see his actions in a different light, please share...

If you still want your comments removed, I will...but your request to do so will remain, as an explanation of their disappearance...

I can't agree, the law suit is probably staged, and even if it wasn't, glp is clearly stealing content in whole, and not only stealing it, but criticizing it to death as well, so it is doubly bad for the content writers, they are ripped off, and then trashed.

Imagine composers having their music played on his sight and they get nothing or this while Trinity makes mega bucks on it. It just ain't right. And they have hundreds of songs on their site for free, too.

GLP also uses the content of its posters for free as well, these fools actually pay GLP to use their content for free! Try to fathom that! All to make Trinity rich and then Trinity just runs around banning everyone who disagrees with him.

So there is absolutely no free speech on GLP, just Trinity speech, and we have no idea who this crazy freak is. Trinity is most likely a money grubbing, content stealing asshole. I hope Reuters dismantles his ass in court. I am now going to help Reuters.

07/23/2010 at 10:03 PM

Again, Noah, I ask you, what is the difference between Trinity banning people for comments he doesn't like and a petty dictator saying "off with their heads!"?

Trinity and every petty dictator are cut from the same cloth. They have their petty fiefdoms, and boy if you cross them, out comes their sword.

Trinity is just the Illuminati in miniature, fuck 'em.

I pray to goodness every night that someone will start a glp competitor site with no banning, some editing of obvious crap, and a “throw out the bums” emphasis.

Also we need a 24/7 polling and voting website so the people can see the huge difference between what they want and they are getting.

Then we need to get organized and strike for our demands. So they are forced to listen to the people and not the corporations like BP. We can't pay them millions to listen, so we must force them, then.

Now, I was aware and my pc was acting freakishly slow and I assumed it was the malware. I just bought a \$70 antivirus program, maybe, a week ago? Then I made only a few posts about how no credible news gets posted, all good news was ripped from rense mainly, and the weird, dumb, too personal posts are tmi. Hey guys, great thread.

I left GLP cold turkey after I was banned. I was on the Restore America thread and there were people who kept getting banned for ridiculous reasons, astonished I couldn't believe them. So I posted a very normal link they said banned them just to prove they were telling the truth and lo and behold I got banned.

I couldn't believe it. I contacted them telling them what happened and that I thought it was unfair that a user can be banned w/out realizing why. That they should post a list a key words or a warning that certain terms or links are not allowed so users can be informed they did something against their (strange) policy.

I was greeted basically w/ immaturity and venom from their staff. Scratching my head, I couldn't believe it. I thought to myself, this site must be run by 13 year olds ...

I had been viciously attacked by a user in the thread I was corresponding where he called me every vulgar name imaginable and completely out of no where. So putting two and two together, I picked up and left. I wasn't going to waste my time over there.

Knowing business, I also filed a complaint to google ads against the site.

In my experience w/ GLP, I just knew there was something very, very, wrong w/ that site.

I encourage everyone who reads this note, never to go over there.

(Disclaimer: This is my own person view point after studying COINTELPRO and disinformation tactics put out by the US government and the Cass Sunstein Conspiracy Theory Memo.)

Terror-O-Bloggers – Members of the AboveTopSecret and or GLP Blogging Forum who have participated in disinformation/cointelpro tactics either as a paid blogger to provide the material support of terrorism directed at the US Citizens to promote a political ideology or for monetary gain.

These same Terror-O-Bloggers still push the Left vs Right Political Paradigm or supress other important information, attack religious beliefs or anyone that disagrees with their viewpoint instead of debating the facts or the video evidence.

These bloggers directly attack individuals instead of information.

People need to be aware of these tactics. Learn how to spot DISINFORMATION AND COINTELPRO operations. The media and internet news will change for you. I would suggest you join AboveTopSecret(dot)com and read their posts for yourself. This is not a left vs right issue but whats right in your conscios. Not what the MEDIA tells you is right.

If you disagree with these people they will only attack instead of debating the facts. Some are better then others but all are very suspicious if they have a conscios.

Some of these bloggers are very professional while others need to answer some serious questions about their motives.

28. Jackson Curtis

07/10/2010 at 2:30 AM

Thanks for the post on this. This is a little rambly.

A while back I started getting suspicious of GLP and ATS because of stories they promoted and the blogging patterns of the first 1-5 posts on the threads. If it was about NASA, Obama, UFO's or Israel the agents were out in full force. There were several members that did not seem right to me after I was attacked by the MOD springer for making the statement Obama wants to set up a dictatorship on the ATS website

So I began monitoring the bloggers on both sites. I looked for evidence and patterns of COINTELPRO and started tracking blogger names through google to see the patterns.

I found over 120 Govt agents on the ATS website (some could just be paid bloggers but I doubt it) and about 15 on GLP. The anonymous coward option didn't allow me to track the bloggers around the net so I started noticing a pattern with the MOD Trinity.

This MOD Trinity was all over the place, he seemed to play both sides of the issue and would post one thread after

another on hit stories. Someone would ask where he got the information and he said he can't remember.

So as I monitored trinity, on the GLP website the night before the healthcare vote. Actually 24 hours and the MOD Trinity posted a white house talking points about healthcare violence before the white house released the statement. So what right? Well it was almost word for word. Like the guy copy and pasted it from a MEMO. 24 hours before it was even released!

I confronted trinity and he banned me. So I started tracking him even heavier which brought me into the whole TAVISSTOCK thing. So me and others started testing GLP and sure enough, they were altering posts to cover up tavistock and GLP involvement in the CIA. And actually ATS does the same thing but I think you slipped past the filter for the time being.

And then you had Trinity's threads about the BP Terrorism Oil Well Disaster, he was pumping propanda out left and right. The guy blew he cover.

I am going to give you a couple bloggers to watch out for on the sites.

ATS

OldDragger –Possible Govt Employee

Sprinter –Possible Govt Employee Possible Ex or current CIA

Southern Guardian – Possible Govt Employee Possible Ex or current CIA

GLP

Trinity

These sites are very dangerous but I would encourage you to go and confront the bloggers on these sites. Don't attack them personally, attack their arguments and watch their patterns.

Also inform them that Trinity, GLP and , Springer/Above Top Secret, LLC have violated and participated in the following:

1. Violations of the Rico Act. Using organized crime, extortion and or murder to promote a political ideology through US Media outlets.
2. Violations of the Patriot Act. Providing the material support of terrorism through US Media outlets to promote a political ideology or for monetary gain.
3. Violations of the Patriot Act. Using terrorism through US Media outlets to promote a political ideology or for monetary gain.
4. TREASON. The attempted overthrow of the US government through media outlets

One last thing....If you scroll to the bottom of the GLP website where the disclaimer is. You will notice a word called 'Social Justice.' This is code word for communist.

If anyone could confront Trinity on the streets on VIDEO CAMERA with these accusations I would really appreciate it. If we could ever find his face.

I add to this a serious Podcast Interview with Ken O’Keefe who survived the Israeli attack on the Freedom/Peace Flotilla unarmed on USA Memorial Day. Truth NO Shill. You ALL deserve to hear Truth minus corrupt Agendas. This despite the horror of this event and massacre had hope for Heroic Souls like many of You.

Please listen to this and pass it on:

<http://theuglytruth.podbean.com/2010/06/16/the-ugly-truth-podcast-june-17-2010/>

Further a site on the Palin propaganda Game:

<http://mindcontrolandpropaganda.wordpress.com/2010/03/28/sarah-palin-propagandist-extraordinaire/>

We are all in a War that we did NOT start. It has gone on a very long time before Your birth and You ALL were like I, born into a Slavery not seeing the bars of captivity. Seduced to enjoy it in decay morally and Spiritually. The Time is short and we are ALL literal seconds to Midnight and the WWII Event like it or not. Out of it (Ordo ab Chao) ONLY can come the NWO the "Elites" have wanted so bad for millennia by their filth ancestors...

Start in Your backyard and fight a good fight. It has to start Grassroots first.

The Podcast reminded me of where I am and need to be in Life listening to Mr. O'Keefe's words. I salute his courage in the face of death and torture and being made a victim of criminal sociopaths who are paving the way for the 666 Game coming sooner than most realize or want to cop to.

(NO, I am NOT a Church-banger)

I will close with a Quote by a Native American Chief who was asked why he warred against the USA Gov. and Military despite being so outnumbered and outgunned while he fought on to save his People from slavery, humiliation, degradation, rape and theft... he said this and it IS my Life 24/7... consider it for YOU:

"It is better to die standing than live on one's knees."

Peace out.

PS ~ Afghanistan now grows 93% of World's Opium and it's not just Street Dope BUT Big Pharma is in on this corrupt filth too Bigtime.

More people die of Prescription Dope than Street Dope every year. Most patients have NO idea their Doctors are getting huge kickbacks from Big Pharma for Prescribing their Dope that often isn't tested like Vioxx/Valium/Methamphetamine/Opiates/Barbituates/Psych Meds which have killed millions... not to mention Rumsfeld as CEO got Poison Aspartame/Sugar Substitute passed illegally by FDA then in 80's.

And Methamphetamine and Benzodiazepines like Valium were developed in ISRAEL by MOSSAD for Mind Control... as former Chemist/Consultant I can also tell You also that "Crack" Cocaine has been stepped on chemically with agents that make the "high" way different than "Rock Cocaine" Hydrochloride which is liquid before it is exposed to air to crystallize; and "Crack" comes to places in a paste form like Elmer's Glue before it hits Street to be stepped on by Dope Dealers. The ASTM Tests Atomic Absorption and Mass-Spectroscopy will bear what I have said here and they read out Chemical and Elemental constituents in readouts.

The biggest "Crack" import point in the 80's was Mena, Arkansas under the Satanist Clintons and they are Blood Relations to Satanist Traitor Bush Clan. They left a lot of dead bodies in the wake of that before Iran-Contra which was shut down so they weren't exposed in the Dope Show.

The biggest Exporter of MDMA/Ecstasy/"X" is ISRAEL who doubtless helped develop it by MOSSAD off MDA Saffrole based Dope.

■ **peppercorn**

06/17/2010 at 5:43 AM

So what does the new MDMA do to its users? Mollify them?

And why have the banned natural stuff like DMT? Are people seeing through the veil with it?

■ **R.R.**

06/17/2010 at 9:00 AM

That's a loaded question.

The Erowid Vault is great Info about ALL Psychoactive Drugs/Plants/Mushrooms out there.

For MDMA, it comes from precursor MDA from Safrole making it semi-synthetic, not fully artificial like say Methamphetamine:

<http://www.erowid.org/>

<http://www.erowid.org/chemicals/mdma/mdma.shtml>

<http://en.wikipedia.org/wiki/Safrole>

“Safrole, also known as shikimol, is a colorless or slightly yellow oily liquid. It is typically extracted from the root-bark or the fruit of sassafras plants in the form of sassafras oil, or synthesized from other related methylenedioxy compounds.

“It is the principal component of brown camphor oil, and is found in small amounts in a wide variety of plants, where it functions as a natural pesticide. Ocotea cymbarum oil made from Ocotea pretiosa, a plant growing in Brazil, and sassafras oil made from Sassafras albidum, a tree growing in eastern North America, are the main natural sources for safrole. It has a characteristic “candy-shop” aroma.

It is a precursor in the synthesis of the insecticide synergist piperonyl butoxide and the recreational drug MDMA (“Ecstasy.”)

<http://www.mdma.net/>

Here’s a FAQ that can be helpful:

<http://www.ecstasy.org/qanda/index.html>

MDA & MDMA are NOT Psychedelics, but are Empathogens; and they have been used in Psychology for Good like LSD which is Legal in parts of Europe for Therapy like DMT.

<http://www.empathogens.com/>

Alkaloids and so on have been long used Sacramentally... even in the Middle East as seen by Dr. John M. Allegro’s:

“The Sacred Mushroom & The Cross”

This goes back in time and though Allegro misses it in sections, he hit the use of Psychedelics by the Occult Sanhedrin in Jesus’ times tied to the Babylonian Occult Mysteries like Egypt.

Or:

“Soma: Divine Mushroom of Immortality.” (1968.)

-by- Wasson, R. Gordon.

Allegro was one of the serious Theologians who researched the Dead Sea Scrolls and was taken out of it by corruption seen in this book:

“The Dead Sea Scrolls Deception”

(1991, ISBN 0-671-73454-7) is a non-fiction book by authors Michael Baigent and Richard Leigh. This book in 1991 also exposed the Vatican Head of the Office of the Inquisition and his corruption named Cardinal Joseph Ratzinger/Pope Benedict XVI=16th Card of the Major Arcana of the Tarot the Blasted Tower (911?)

However, Baigent and Leigh were co-authors of Gnostic “Holy Blood, Holy Grail.” Still worth reading and not throwing out the baby with the bathwater so to speak.

As to author Michael Baigent:

http://en.wikipedia.org/wiki/Michael_Baigent

“A Freemason and a Grand Officer of the United Grand Lodge of England, he has been editor of Freemasonry Today since April 2001, which he has used as a platform for a more liberal approach to Freemasonry.”

He is one very serious High Mason featured in the UK and on covers of Masonic Magazines.

And oui, he's been places like Balmoral in the UK in the Masque like say “Eyes Wide Shut” or “The Eternal (2004)” fictional Vampiress movie about Countess Erzsébet Bathory in the Masquerade scene in Venice, Italy where a lot of the Black Nobility Bloodlines are rooted in History.

Understand that Shills use a Lake of Truth to hide an Ounce of Poison.

They are often Courtiers of the Elites as post-modern Misanthropes.

The Reason of making Psychoactive Substances is multi-faceted but one main Reason is they do open Spirit/Mind/Being and Consciousness even though one has to write off the illusions that come from its use. They can trigger Psychic Talents too... and “Elites” fear this...

The “Elites” prefer to see countless Slaves addicted to Dope that shuts the Spirit/Mind/Being off and is highly physically addictive like Crack-Cocaine/Heroin/Meth. Simple.

You forgot the most profitable Scam since time began... RELIGION.

All of the above came from the old Mystery Cults in real human history...

Sports to make Military and entertain and select moron thugs for service; Theatre/Entertainment for Ritual and to dull the masses and satiate their decadence or seduce them into it... booze/drugs/sex... Politics, Cops to enforce the Rulers... dirty intrigues, poisoning, bribes/blackmail... ALL from RELIGION.

History has shown that thug 1984 Big Brother tactics are a Last Resort and don't last long and will produce dissent and fall apart fast and hard like Nazi Germany/Fascist Italy/"Imperial" Japan in WWII prime examples...

BUT...

The seductive Brave New World with repeat NLP propaganda with flattery with Ritual/Soma=Dope-Booze with Sex and Luxury with grandiose Decadence glorified makes Slaves who love their Slavery and will self-police Dissidents who ruin their Party...

Welcome to Amerikkka and Europe... even "Alternative News" is a perverse form of Entertainment as much as Mass Media now having been infiltrated badly by the Shills listed here...

The Brave New World is NOT new... Rome was able to hold Power this way until it collapsed form within after long Centuries in Rule as Empire. It was NOT Enemies without that brought Rome down but corruption and decay within... decadent lives... and so it was with Greece before them and their pederasty and corrupt decay like Rome... false splendour indeed.

And this is what the Shills are hiding is they ALWAYS preach 1984 thug s**t but hide the seductive Brave New World approach to Totalitarianism they themselves Love as Misanthropes as Moliere wrote well of in the 1600's...

Check out this thread by "MDR" on glp. It's so right on. The thread title is, "How to spot the true agents/shills on a forum..we are at war, have you noticed?."

"First off ...research and tally the amount of threads they post and the number of replies they make to their own and others threads. When they are in the "Office" they are working. Its a full time job. Their actions on a forum are not consistant with those of a recreational poster.They come in bursts and groups. Some of the professionals on this board, and i will refrain from naming names at this time, have a tremendous amount of material that they are posting and replying to. The amount of time needed to research the topics (many do have their research supplied) , plus the time on site, both posting and moderating their targets, is a lot of work and a full time position. Yes there are psychopaths, compulsives, and general nutjobs, as well as homebound or artfully employed people who might be on the site alot, but their patterns are different. They too can post a serious amount of information and monitor replies but most of it is specific to one area of interest. Agents have broad topics to attempt to control inside of an arena, rarely are they specialized, budgets dont allow for that...yet..... So how do you find them? Start by looking at who is most active.... Then compare it to what information you have about them and work from there..... Happy hunting to you all and in the near future lets compare notes.There is a war for your mind being waged. It is being fought by you from your keyboard.... You have made a decision and entered the arena.... it is the modern battlefield..be prepared for what lurks here and be smart..... remember that everything you look at, everything you say, everything you type, is available to many elements. None of them are "good" Be Smart and stay safe MDR" Hopefully, this thread won't get deleted...

“The thing you will notice about GLP is that skills get changed from time to time. Once people catch on to who they are they lose their affectiveness and then there is mass bannings to provide cover for all skill changes. In the last operation they got rid of people like Guns and God some goat guy and others. In came Texgalfor lies, Scrum, 19teenpedophile and the like.”

So true. I remember the mass banning debacle of late 2009. What a major F-up that was! And on queue rolled in pretty boy Scrum and voluptuous vixen TexGal to carry on the torch. Do they think we're idiots? They must! No more. Their magick is failing them.

You ask a loaded Question... there are a good number of Families among the “Elites”... and some Royal Families are minor and not even in Europe or the U.K. and take no part on the filth as now.

Please understand all Royals are not all bad. I respect Friend & Liege Prince Hans Adam II of Lichtenstein, only 63 square miles in size for refusing outright to surrender his tiny Nation's Independence and Sovereignty to be a European Union Member Nation like the 27 who either Sold Out or were blackmailed and forced into it like Ireland. Liechtenstein is like the "Mouse that Roared" novel in a way.

Also, in shifting times, a fair number of minor Royal Families left Europe and the U.K. to other Countries to settle, particularly in the U.K. when the House Hanover took over in 1714 and mass migration in the 1800's under tyrant Hanover German Victoria and her hubby of Germanic Saxe-Coburg-Gotha, Edward.

Many Families left seeing them as Usurpers which they were/ARE, and refused outright to Marry into their Lines to Legitimize their Titles... so they had to change their name to "Windsor" in the early 20th Century and they married a True Brit in Diana Spencer to use her a breeding-stock then they murdered her at the 13th Pillar in Paris that sits under a phallic Obelisk on the land above that area in the middle of a 5-point Star. That area was a cavernous Diana Cult area in ancient Gaul.

Some of my own Family is rooted in Plantagenet-York into Tudor on, and a small minor Scottish Clan around long before Robert the Bruce and Stuart. My Family left the U.K. in part in 1604 on one side and in the 1800's to escape Hanover Victoria and Saxe-Coburg-Gotha Edward. I grew up traveling from the USA to Europe in part. One of my Great-Great Grandfathers was a Colonel in the Civil War in the North Union and later in Politique and was a High Freemason and knew Pike and Mazzini and a 33rd Degree is but a possible Minerval in the Illuminati end of things... food chains... he quit it all when he saw what it was all about... and the seductions... and terminal end...

The "Elites" are NOT true Predators... they are but Parasites like ticks/mosquitos/lampreys... and like these Parasites in Nature, they infect their Host with their disease. The Deception that they want People to think is they are big bad Predators... but they're just Parasites in Reality and have private fears and paranoia and much delusion... they mock and laugh at People as "peasants" and the Truth is they are just PISSANTS living in Denial which is an Acrostic for:

Don't
Even
kNow
I
Am
Lying

Not all the Royals Minor were/are out doing Satanic filth like the Usurpers "Windsor"/Etc. at Balmoral or Chateau Amerois in Belgium/Castle of the Dark Mother whose Ritual Area is like a domed ceiling in a planetarium with lights in astrological shapes as the "Thousand Points of Light" that Bush Sr. boasted of before the USA in his filthy 1988 speech and that set off a lot of alarms to many who know that World that he openly boasted of that place where the Pink Ballet is known of there...

In 2008 in June, Brown and Mandelson illegally against Parliament signed the EU's Lisbon Treaty which IS the Constitution of the EU and the blue goatskin (Baphomet) bound Document was taken next to Queen ELizabeth II to sign behind closed doors and she gave Royal Assent to it in essence selling out the U.K. and ALL the Commonwealth Colonies under British Admiralty Maritime Corporate Law like the USA, Canada, New Zealand, Australia/Etc. And the Implications are that the EU can send NATO Troops to ALL those locations to enforce their Laws like the USA with over 600 FEMA Camps waiting for Martial Law and some are staffed by foreign NATO already there. This act of betrayal also showed without doubt that they are NOT "figureheads" in the U.K. but Rule behind scenes and people all upset at Blair and Brown need to look instead at the Black Nobility who pull their strings as the pathetic puppets they are and fall-guys well paid to be that no different than Bush Jr. and his ilk... look behind them to who pulls their strings.

NOW... "Queen" ELizabeth II is NOT the Head of the House of Saxe-Coburg-Gotha either despite her Authority... that man is Prince Andreas who well might be the "Pindar" character that even Icke=Shill wrote of in one of his books... I'll leave that one for You to think well on...

http://en.wikipedia.org/wiki/Andreas,_Prince_of_Saxe-Coburg_and_Gotha

<http://www.sachsen-coburg-gotha.de/>

http://www.sachsen-coburg-gotha.de/?Das_Herzogshaus:Die_Familie_heute:Prinz_Andreas

Quote:

"Later in the book (Biggest Secret), Icke says that "Pindar, the 'Marquis de Libeaux' travels in a white limousine (A 'code-white' is a code understood by judges, police, the military etc and it means: look the other way or do not prosecute this person)." On page 453 of the same book, Icke states that " ... the Queen makes cruel remarks about lesser initiates, but is afraid of the man code-named 'Pindar' (the Marquis de Libeaux) who is higher than her in Satanic rank. Pindar, apparently, bears a resemblance to Prince Charles. Arizona Wilder says that Pindar is Charles' real father."

Go look at Prince Andreas WHO is the REAL Head of the House Saxe-Coburg-Gotha... NOT ELizabeth II who really is NOT even a Tudor/Plantagenet as Elizabeth I was long ago.

Elizabeth II is the first monarch to be styled sovereign of Australia. In 1953 the Australian Parliament passed two bills. The first was the Royal Style and Titles Act 1953. This added the word 'Australia' to the Queen's titles. (A British bill of the same name had fixed the title 'Queen of the United Kingdom and of Her other Realms and Territories in 1952). In 1973 a further Act removed 'Defender of the Faith' from her Australian title. [26] In 1958 Elizabeth amended the letters patent of Victoria which constituted the office of Governor-General.

Until then Australian constitutional documents were signed by the monarch and counter-signed by a British

minister of state. But now such documents were to be counter-signed by the Prime Minister of Australia. Further, they were to be sealed with the Royal Great Seal of the Commonwealth of Australia. Victoria's letters patent had ordered a Great Seal for Australia in 1900, but it was never made. On 19 October 1955 Elizabeth, advised by Prime Minister Robert Menzies, issued a warrant for the Seal.

The Royal Powers Act 1953 further secured the Sovereign's new status as Queen of Australia by conferring on her powers that the Constitution did not give her. The Queen could now preside at Federal Executive Councils in person and open the Commonwealth Parliament. Elizabeth II has performed both actions three times each.

At the Court at Buckingham Palace the 22nd day of July 1997. Now, therefore Her Majesty an pursuance of section 179 (1) (a) and (2) of the Social Security Administration Act of 1992 and all other powers enabling Her in that behalf, is please, by and with advise of Her privy Council, to order, and it is hereby ordered as follows: ”This Order may be cited as the Social Security (United States of America) Order 1997 and shall come into force on 1st September 1997.” Does this give a new meaning to Federal Judge William Wayne Justice stating in court that he takes his orders from England? This order goes on to redefine words in the Social Security Act and makes some changes in United States Law.”

What IS the United States BAR Association among Lawyers?

“BAR” stands for “British Accreditation Research”

The District of Columbia is an Independent City-State with its own Constitution that is NOT the United States' Constitution exactly like the other two Independent City States within the Cities they are located, The City of London within London in the UK and Vatican City within Rome. These three Polis=City-States have their own Independent Constitutions NOT subject to the Laws of the Cities and Nations they are in.

Want proof? Go here to research the Constitution of the District of Columbia for it by Law must be in Public Domain in Corporate/Monetary Codes:

R.R., thanks for the info. Looking forward to reading all of your links when I have time this weekend.

Who is the Dark Mother? And what is the Pink Ballet? Have you been inside the MOD castle?

[06/04/2010 at 1:06 PM](#)

The Dark Mother is the satanic counterpart of the divine mother, or earth mother. The dark mother smothers life instead of nurturing it. The Pick Ballet is the choreographed build up to child sacrifice. It can also refer to the dance of pretending to be normal and compassionate, which includes all the lies, dressing up, pretending and politics they go through to hide their true intents and natures.

Another loaded question...

Start here:

Quote:

“Rumours about the sex parties, the so-called “Pink Ballets” (les Ballets Roses), have been rampant in Belgium for about two decades. The names of prominent politicians and even the present Belgian King, Albert (who succeeded his brother in 1993 and used to have a reputation for being a playboy), had been mentioned in this connection, but nobody had been able to prove anything. Rumours about the “Pink Ballets” persisted, but many journalists denounced them as being the Belgian political equivalent of the Loch Ness monster. Though some claim to have seen its shadow, serious people do not believe it exists.”

Belgium has long had a LOT of Human-Trafficking gone on like the Marc Dutroux Case that spilled a lot and many cover-ups.

“Les Ballets Roses”/Pink Ballet is a Ritual that contains pedophile sex and human sacrifice like Baal and Moloch all as One.

http://www.isgp.eu/dutroux/Belgian_X_dossiers_of_the_Dutroux_affair.htm

You can download ALL this site on Covert Politique here:

<http://www.isgp.eu/>

Go there and study well... Most Researchers keep hitting on the U.K. and USA in Conspiracy and ZOG in Israel no doubt... BUT... Europe has a LOT that needs to be studied and seen as much or more like all the Implications of the EU and Lisbon Treaty that will soon affect You ALL.

Here’s a little video on Chateau Amerois:

http://en.wikipedia.org/wiki/Marc_Dutroux

http://www.isgp.eu/dutroux/Belgian_X_dossiers_the_accused.htm

In his writings (“Bloodlines of the Illuminati”, p. 205) and speeches, Fritz Springmeier mentions a secret castle located near the village of Muno in Belgium. This castle would, according to him, be a center of the occult and have a cathedral inside with a dome with 1,000 lights. This castle is referred to as the Mothers-of-Darkness castle. Monarch programming would be performed on children there. This castle is also sometimes referred to as the “Castle of Kings”. Its real name is “Château des Amerois” and it is located in Bouillon (Belgium), near the village of Muno. This castle and its domain, the Muno forest, belonged to Prince Philippe of Saxe-Cobourg-Gotha, Count of Flanders and father of King Albert I. He bought the property in 1869 to the Marquis van der Noot d’Assche. The castle of Romantic style was built in 1877 for Philippe of Saxe-Cobourg Gotha by the architect Gustave Saintenoy. It has 365 windows.

NOTE the old Family Name of Saxe-Coburg-Gotha... ring any bells???

Don’t forget the current EU President, Herman van Rompuy, is from BELGIUM seemingly out of nowhere... don’t think this little scum-boyyy hasn’t been part of the “Les Ballets Roses” at Chateau Amerois among the Euro “Elites”... he even writes “Haiku” pervy-poetry featured on “Elite” lil’ Ms. Arianna Huffington’s liberal diss-information news site:

(note that young spoiled Arianna was a Cult Member into Osho/Bhagwan Rajneesh when it was going real bad, not all his fault... RIP)

http://www.huffingtonpost.com/2010/04/16/eu-president-haiku-herman_n_540264.html

As to Herman van Rompuy:

http://en.wikipedia.org/wiki/Herman_Van_Rompuy

<http://www.hermanvanrompuy.be/>

“A Belgian politician of the Christian Democratic and Flemish party, he served as the 49th Prime Minister of Belgium from 30 December 2008 until his predecessor (Yves Leterme) succeeded him on 25 November 2009.

“On 19 November 2009 Van Rompuy was elected by the members of the European Council as the first permanent President of the European Council under the Treaty of Lisbon.”

I'll just state the lil' Herman van RUMPoy is one who is Prime Example of one who gave a Head to get Ahead to his “Elite” Masters in Belgium and the EU.

So my personal nickname for this peasant=pissant is:

“Wank Lord.”

Belgium was founded in 1830 and was/is an artificial NWO-Proto creation rife with corruption, though some Techno Bands I know there personally and actually like sonically such as “The Lords of Acid” is based there with Independent Techno Label, Mostiko...

I'll give You all a lil' Sample of Belgium Music, OK???

Enjoy mon Amis/Amies:

Here's the Lords of Acid's lil' Warning Song about Sexually Transmitted Diseases/STD's:

And about Relationships and Luv in Belgium:

All of the above are filled with the Masquerade & Euro Monarch... now You know.

As to the Dark Mother... very simple...

Babylon founder Tyrant Nimrod's incestuous Mommy-Lover, the Queen of Heaven, Semiramis; also called Ishtar in Babylon;

the Cult migrated to Egypt later as twins, Isis and Her Sister Nephthys who are Symbols in Canis Major right where the Belt of Orion points left to Sirius which IS a Binary Star System of brightest star(s) in the night, Sirius-A=Isis/Virgin that circles with its dark sister star, Sirius-B=Nephthys/Whore...

Later many names... Diana the Huntress, Aphrodite of Erotic Love, Cybele, and even whitewashed by the Vatican as Mother Mary for Mariolatry which is Queen of Heaven Worship that Jeremiah the Prophet condemned by God during the invasion of Nebuchadnezzar of Babylon for Israel and Judah's massive Evils over time... it's all the same Root in Babylon with Semiramis and Nimrod...

Look, the World's Oldest Profession is NOT Prostitution... but... RELIGION. And from the ancient Temples came Prostitution and the old Priests and Priestesses were the World's first Pimps and Madams. Also came Sports to train/indoctrinate for Military, and Usury=Fractional Debt where International Banking came from, to Politique and Military/Cops to enforce the Tyrants Rule... and the Entertainment Industry that was developed far more later in Pre-Hellenic Greece and the Dionysia in Spring with Theatre...

Go research and see... try here:

<http://therr9.wordpress.com/2009/09/27/worlds-oldest-profession-religion/>

This IS a deadly serious Game mon Amis/Amies; and Losers... DIE.

Thanks, R.R., for the reply and the material to research.

Do you mind if I ask you some more questions? You mentioned that you were a former insider with bloodline ties. There's a lot of circulation on the net about a bloodline of the "gods" or the "nephilim" having Rh negative blood type. Are you Rh negative?

And for further clarification on who the Dark Mother is, you have mentioned the Queen of Heaven/Ishtar, or her various other aliases, but do you believe there to be a specific flesh and blood woman on earth who is possessed with that particular entity, and if so, do you know in which country she lives and whether she is the ruler over all of the occult world, including the men?

Lastly — not meaning to bombard you with questions — I enjoyed reading your web page about the "sit down, stand up," sing the same song lines over and over again hypnotic routine in most religious organizations today, and I wholeheartedly agree. I see that you are very much against religion, but yet you have a link on your page to David Wilkerson, who heads the Times Square church in Manhattan and is the author of "The Cross and the Switchblade." Are you a Christian, or follower of Jesus?

Thanks for answering questions.

06/06/2010 at 2:31 PM

Merci for kind words.

I was online to finish a new article on my small site and saw this...

<http://therr9.wordpress.com/2010/06/06/159/>

It features an old 1980 movie (The Awakening) based on a novel by Bram Stoker who everyone knows wrote "Dracula."

What most don't know is that he was a Member of late 1800's Hermetic Order of the Golden Dawn like other writers Arthur Machen, William Butler Yeats and of course Aleister Crowley who later started his Argentium Astrum-A·A·A·/Silver Star=Sirius, and later the O·T·O· thing...

Nephilim... well they were Genetic Aberrations from the pairing of the Fallen Angelic Host that landed in the time of Jered on Mount Hermon that sits exactly 33.33° Longitude & Latitude in the Golan Heights... with Human Women... so there's the Key of the 33 numeric secret...

in Fact, that was the Object, Mt. Hermon, most sought by the Occult Sabbatean/Frankist Zionists as much or more than Jerusalem in the 1967 Six Days' War and likely WHY they attacked the Intel Ship the USS Liberty the most to hide that illegal Land Grab=Geopolitic in the Golan Heights that has things like huge Baalbek there.

The Fallen Ones are mentioned in the Book of Enoch and it went more than human mating as they infected DNA of animals too and this created many Genetic Aberrations and that is what people call dinosaurs/etc.

BUT they were created by infected DNA with the Fallen Host as much as Human pairings... and sorry to say, Carbon 14 Dating is NOT accurate and they've tested living mollusks to be dead for millions of years that method... but the Scientific Community hides that... most accurate was Potassium-Argon in dating and it shows the Earth is a lot less old than we were lied to about in Schools growing up.

Robert Anton Wilson's interesting book "The New Inquisition" talks about how the narrow Scientific Community is bigoted and prejudicial and many Sold Out to the Powers-that-Be, for many reasons like easy lives and fundings... they actually have a post-modern Inquisition to bar and banish Inquiry and REAL Scientists making valid and tangible hands-on Discoveries.

If You were to research what was actually said to Noah and his mission on the Ark, he was to bring in creatures who were ONLY after their own kind genetically; not spliced and infected DNA monsters that people call the "dinosaurs" and odd mammals too...

The reason I mention this is Genetic Science is quite new overall from the 1950's and these conspiracy researchers are talking about blood types like the Rh factor and missing the DNA/Chromosome aspects of this thing.

God cut the last Antediluvian Age off overall to get the spliced and corrupt DNA and its Eco damages finished...

BUT... it began again after the Deluge/Flood. Sure... and all over people are digging up giant skeletons... and serious Geologists who've been to many places Globally will attest to saline water corrosion at high elevations...

one Teacher I had in College was a World renowned Geologist who was a skeptical Atheist whose discoveries all over the Planet told him there was a Flood and he converted from that by Science, not Religion to a belief and relationship to his God.

It's not about seeking blood types... but Genetics as I stated.

After the Flood this kind of Nephilim game began again but not as wide a scale as before. But it's coming back again... and it's been showing up in places.

Researcher Steve Quayle has done a lot of years of serious Research into this:

<http://www.stevequayle.com/Giants/index2.html>

Recently a giant came out in Afghanistan and attacked Military there and Special Forces had to be called in to fight the character and the body was whisked away on special flight out to Underground Bases in USA where I think this DNA Game is happening again in part.

Semiramis where “Sumeria” as term came from... she is said to have come from the Sea to marry Cush and then give birth to Nimrod/Gilgamesh (?)... maybe she was Nephilim who got away from the Flood... who knows... she was Ishtar and on and on later...

Look, part of the “Elites” bloodlines goes back in time to genetic inbreeding and the path goes back to several aspects.

One is the Tribe of Dan who migrated north to the Golan Heights; and were the first fully apostate Tribe in Israel and they left in shipping mercantile with Syro-Phoenicians all over and left their name wherever they passed...

Like Homer’s Iliad and Odyssey the actual name of the Spartans were the “Daneans” and they had long hair like Samson and said they were related to Israel; and they brought the Greek homosexual pederasty game with them to Greece from Israel... then the Danube River and Arcadian Migration that’s featured on Nicholas Poussin’s “Shepherds of Arcadia” painting images where the Tomb in the middle has pastoral Shepherds/Daneans of Arcadia in Greece looking at an inscription on the Tomb in South France near Rennes le Chateau that says:

“Et In Arcadia Ego...”

(And In Arcadia I...)

So I’ll decode it for You... it’s actually an anagram puzzle that says this:

“I Tego Arcana Dei”

(Begone. I know the Secrets of God)

Other places that Dan went... Ireland as the Tuatha de Danaan, to Denmark/DANmark... and the Merovingian Dynasties have intermarriage with Dan as they intermarried into Royals along their path... the Root of the Black Nobility...

Dan is the only Tribe NOT mentioned in Revelation.... thus I think You now know a genetic root for the Anti-Christ on the Human side of the mother... their Symbols were things like the Serpent/Nachash in Hebrew and Eagles... like You see all over Europe...

As to the Mother of the Anti-Christ, she will be a Semiramis type and have the Danite mitochondrial DNA that ONLY the Mother has in any Genetics among Humans.

A curious 1998 movie “The Eighteenth Angel” came and showed a funny thing like a Daughter of Satan like one Exorcist movie did... that should have made some do some thinking like... suppose Daughter of Satan was born first, then had Incest with her Daddy to make a super Nephilim that would indeed be a “Beast” yet be a man too... only way less Human DNA and mostly Angelic DNA from the Fallen Cherub...

The Angelic Host are physical like us, but of a finer material and can do more than us Humans... sure...

The things we call Demons are disembodied Spirits of the dead Nephilim who got cut off from their physical bodies in physical death and wander the Earth seeking whom they can possess to have physicality again through Human bodies... Possession... the Guilty Fallen Angels are in Sheol/Hades/Gehenna/Hell for their misdeeds awaiting Judgement but their progeny the Giants/Nephilim/Anakim (Skywalker... Star Whores alright)/Etc. though dead have Spirits wandering disembodied the Earth like dry places seeking those they can possess with countless false Promises like Fame and Fortune and of course inbreeding among “Elites” to make a DNA script that ties to easy physical possession...

The Armageddon incident marks the end of the wandering Demons/Spirits as much as evil Humans and they’ll be cut off at last and it ends for 1000 years... until Satan is released a short season for the Final Battle and then he gets nailed like his 2 Beasts already in the Lake of Fire then Hell/Hades casts up the locked up Beings there for the White Throne Judgement... Hell/Hades can be best thought as County Jail where the Charged await Trial and then the Trial comes and Sentencing later... that’s the Real Deal in a nutshell...

Oui... I don’t care for Religion because Religion is NOT Relationship to God... in fact, Religion and Relationship have been diametrically opposed since time began...

Wilkerson... one of the few that didn’t sell out... I have others posted there in Links but I don’t always agree with them and NO, I am NOT a Church-Banger...

I would be called a post-modern Cathari or Waldenses or Albigensian... my Ancestors some survived the Albigensian Crusade and made it to Scotland and some were Templars... what do You think made William Wallace and Robert the Bruce who they were?

I’ll say one of my dearest relatives was a somewhat famous actress/model in the 60’s... no, she wasn’t a Beta~β Kitten though she worked beside a famous one in time.

One Group lied about by the Criminals who had to justify their Genocide the Albigensian Crusade in the 1200’s were the Cathari in South France and the one writer who most honestly portrayed them was 1600’s Dr. Thieleman J. van Braght who accurately showed who they were in his epic rare “Martyr’s Mirror” about Church History from the 1st Century to 1600’s in Europe far beyond “Foxe’s Book of Martyrs.”

They were NOT Dualist Gnostics like the Guilty tried to portray them as... like the Black Nobility of North France, the Vatican and Pope Innocent III, and the Jewish Sephardim Merchant/Bankers long before Ashkenazi Rothschild/Bauer and that rot made it to West Europe later...

Don't know if that helps... but people who are seeking are looking in wrong areas... they miss things like mitochondrial DNA footprints of the Female ONLY and as to 666's Mum... it wasn't Diana Spencer like some have tried to portray U.K. Royals as the A.C....

Tribe of Dan... Black Nobility... where did they migrate too and settle and intermarry with?

Peace.

Well, R.R., to be honest, now I'm wondering if you're not another disinfo agent. You didn't answer any of my questions directly, and the answers you gave, especially concerning the nephilim, contain a little truth but mostly disinfo. If you were really a former insider/bloodliner who has truly done a 180, you would know the real truth and would willingly tell it. My radar is on high alert with you now. Sorry, but just telling the truth.

I saw this post in passing this late hour. I don't know who You are... or what have You put there to research in this thread where You've found things. So I don't know where You've studied or who You are.

This was an unusual blog conversation thread dealing with shills that are Celebrities all over Alternative News.

I hadn't been to this GLP site until seeing this thread and it looked like other ones from what I saw; as to imitative and repetitive drivel.

I didn't go over it in much detail... it was just like many others out there is all... and they don't interest me because they all echo each other in a lot of paranoia, fear-mongering, fairy-tales, and nonsense; and I frankly wonder when the last time was most of those f**ktards had an Original Thought since You ask.

I gave no diss-information on the Nephilim from the DNA standpoint as the Human side would be the Female mitochondrial DNA that they carry and for that reason, the Jews too look at the Matriarch/Mother's lineage to determine who is Jewish by birth.

I don't know much about the Rh bloodline thing You mentioned. I don't engage in forums like that.

I don't spend my Life wanking to Conspiracy fear and all the nutters out there with all these New Agey ideas like 'Stargods' and 'Annunaki' s**t since You mention it.

In Fact, people who think Zechariah Sitchin is all that can go research sites I listed and see him making the Masonic Handshake with another New Agey skill...

His LIE is he's only one who knows the Sumerian Cuneiform alphabet; and the best valid Researcher was Sir Wallis Budge way back who knew Egyptian, Syro-Phonicean and Cuneiform well... and his books are the place to research, not this late propaganda out there.

I'm not a diss-information agent. I have no agendas and I don't advertise asking for money for anything. I'm not a skill either.

All I possess in Life, I earned by ethical work. I don't hit on people for money or handouts to parasite off them. I don't seek handouts.

And this is not my main interest in Life. You don't know me nor my Life. To Assume is to make A\$\$ of U and me.

You don't know me one ounce to make accusations and I don't know what You've been researching on the Nephilim unless it was some of the weird New Age stuff on the many odd forums out there.

I walked away from past Life and all old connections in 2005 at great cost.

As to the Nephilim and Giants, I respect Steve Quayle though I might not agree with all his ideas and former Military, Chuck Missler too, who hits on those things too...

I believe it as the Book of Enoch, Genesis 6, and the Sepher Yasher/Book of Jasher tell... and the Book of Jude and the Prophets.

I don't get into the New Age Aliens thing nor Outer Space stuff beyond valid points in the Sciences. No Ivory Tower fantasies like a lot of Physicists who have psychological wet-dreams like a lot of Conspiracy Researchers out there who are far on the Outside trying to look in and make Theories and Guesses at best too often; like Physics nutters who express their fantasies in math equations is all...

I don't know what You've been studying about Nephilim or Aliens... or whatever.

Perhaps if You're into all the 'Annunaki' and 'Reptilians' from Outer Space and fear them that they might shape-shift to seduce You to produce Nephilim or Greys, then go buy an Intergalactic-Prophylactic so You can have Safe-Sex with those Aliens.

I don't earn my Living selling Conspiracy s**t and DVD's and whatever else like weird books like Icke/Maxwell/Jones/Tsarion/GLP, and whoever else...

Think what You want of moi...

Opinions are just like Assholes...

EVERYBODY has one...

and EVERYBODY is one at times in Life.

M. KR... I will sign off on this thread since this individual is upset and does NOT know me who hasn't contributed much to the thread but makes accusations because I don't give my Life info away to people I do NOT know. I did all I could. Sorry if any offense taken.

I think I'll go watch the "Rocky Horror Picture Show" since this one reminds me of Professor Frankenfurter/Tim Curry.

I just saw this post in passing. I don't know who this "Jackson Curtis" is.

That was my first WordPress article and it was NOT copy/paste, and anyone I quoted gave a link to that. I wrote it. WordPress is very complex to do anything with for those who've worked its system.

I do NOT support the USA Gov't. either. The Gentleman who has this Blog & I have had contact and he knows personal information about my own Life. You do NOT.

I despise the USA Gov't. most particularly the Bush Clan & their sodomite cronies & Cheney who are embodiment of pure Ponerology Evil. And the moderator who knows me knows why I carry that serious hate 24/7.

As far as Obama, people will NEVER understand him trying to read either Martin Luther King nor Malcolm-X... I tell people to go read "PIMP: The Story of My Life" by Iceberg Slim/Robert Beck who wrote his autobiography to warn the young African-American Community not to end up as he did in the "Game" of the Inner Cities. Obama as Community Organizer was on Chicago's South Side in Folk Nation turf and if he hadn't been in the "Game" there, he'd have been a drive-by long ago. Despite his affected accent, he's Pimp/Playa' in street slang, besides being part of Chicago's Gay Bath-House sub-culture there. Anyone there living on the South Side would tell You what they know about Obama & his Daddy Frank Marshall Davis the Communist KGB Asset & Pimp/Playa' too like father/like son.

And I'm not a Shill nor a paid Blogger, and I have a Chicago slang for individuals like You who talk shit making Slander/Defamation of Character remarks about me:

Punk A\$\$ Bitch.

Anytime You or any of these other smartass individuals want to make slander/defamation of character remarks to talk about it to my face, feel free and we can do it in Court under Legal Remedy You like to mention in your comments, or the Streets anytime. But I already know what Your kind are in Reality...

I despise the USA Gov't. most particularly the Bush Clan & their sodomite cronies & Cheney who are embodiment of pure **Ponerology Evil**. And the moderator who knows me knows why I carry that serious hate 24/7.

=====

The above is true, and I'll just add this: RR is a pretty hard core dude, at least by my standards, w/considerable life experience and a more than fair amount of knowledge about topics revelant to this blog; definitely not a lightweight. I would urge all to spend some time reading through the comments he's posted on this thread and elsewhere on this blog. Interesting thread of comments... Shills of all sorts exist. They often hang out with “Elites” (like Occult/New Agers like Russell Pine=’Jordan Maxwell’ and his UK butt-buddy he’s in photos with on his site in total arrogance like very Satanic Royal Courtier “Sir” Laurence Gardner filth-boyyyy... wanna’ see Proof??? go here:

<http://www.jordanmaxwell.com/gallery.html>

You ALL ought to go there and see photos of “Maxwell”=Pine with Star Whores’ Georgey Lucas (WTF???) and many others of the alleged Conspiracy Truthers cliques with New Agey leanings and be real f**king careful who You think is OK); like David Icke being one of them of very Questionable Origins like his possible Relative William Jefferson ROCKEFELLER Clinton who now looks like his Daddy Winthrop Rockefeller like spitting image twins now:

<http://troyspace2.wordpress.com/2008/07/12/is-david-icke-the-scion-of-john-d-rockefeller-jr/>

Tsarion the Multi-Generational Occult boyyyy, and quite a few others);

These Shills DO attend the “Elites” Ritualistic Parties in the Masque exactly like “Eyes Wide Shut” hiding who they are and how they REALLY know what they know and are diss-information units who are exactly as 1600’s playwright Moliere described in “The Misanthrope” about filthy brown-nosing Courtiers in King Louis XIV’s times who gave a Head to get Ahead.

The Reason they cut each other down is two-fold...

They are Courtiers for Favour among the “Elites” they all serve, and they compete with each other ruthlessly for Royals’ Favour and they are Hegelian Dialectic in Action. Misanthropes ALL of them.

As former Insider with Bloodline Ties I walked away from long ago, I bear eye-witness to this Fact.

That one-liner You like:

“They use a Lake of Truth to hide an Ounce of Poison”

I made that up way back in the 70’s and saw it first in the “Charismatic” Christian movement growing back then long before the 80’s Moral Majority, Religious Right among GOP Repulsives, and PNAC crap with Shills like 33rd Degree

Mason Kenneth Copeland who physically looks like a nasty reptile and his Masonic scum Brothers like Oral (sex?) Roberts who got Copeland started in Religion-for-Profit (what kind of Mom names her Kid 'Oral' really???) who ALL dripped evil physically to see even on TV then... (physical demonic possession from Satanic Rituals exactly like physical possession is the Intent in VouDoun/Santeria and the Ruling Hand behind them, Palo=Branch Rituals in Haiti, the Caribbean, and the South in USA all over there.)

And at that time age 16 my 2 cousins (RIP) came back from Tours in Vietnam as Special Forces (SEAL & Green Beret) having been pulled into the CIA Phoenix Program and came back scarred for Life having been in places we were NOT at War like Laos & Cambodia wiping out rival Drug Cartels, assassinations of Drug Lords and whole villages in genocide Black-Ops.

They told me ALL and then I met and worked with many Special Forces Vets whose trust I earned in that time who told ALL that echoed it like countless body-bags of USA & NATO Soldiers stuffed with Dope like Opium, Morphine, Thai-Stick Opiated, Heroin, Weed and shipped back to their Countries to be intercepted, the Dope grabbed and sold on Streets and Big Pharma too before the bodies were turned over to their grieving Families.

They tossed all Gary Allen's books at me age 14-16 and out where I grew up in the West in Wyoming in part, the Cattle Mutilations were going full-tilt bonzo there and I'd grown up on ranches there; and to ride up to an area where those Cults ritually had left cut up cattle drained of all blood with surgically cut off body parts like genitals, and NO scavengers like vultures or coyotes would even go near their corpses out there was one very serious eye-opener for a teenager, and knowing we were likely being watched out there by whoever did that sick sociopathic shit to those poor animals was very creepy...

The names of Satanic Cult Members in Wyoming came up again and again out there; and DICK Cheney was one of them. (1974-1976) I rode the range with a sawed-off full choke 12 gauge magnum because of seeing that filth at that age and carried it with me 24/7 to my place by the bed just in case.

I knew from an early age the World I grew up in was f**ked up bad and the 60's mystique was not all bad as to the part of Counterculture that the Rulers could not control because it got too big for them and woke up countless Souls... that's WHY they shut it down...

The 60's Counterculture blew up in their faces then much like manmade HIV/AIDS got out of control and infected a big number of "Elites" in the West unexpectedly beyond where they released it for eugenic genocide in Africa...

And Truth Counterculture can now blow up in the Enemy's ugly inbred faces. But this time don't be ignorant like the 60's Kids were...

Wow, Noah, what a great story! I can't believe they would be so stupid to delete your post like that on such a high-traffic thread. Like I said, they have no wisdom.

And that is certainly interesting news to hear about Sickscent. I had my suspicions about him before, but this confirms it for me. Why I had my suspicions about him is simply based on the fact that he is so popular on there. They go a little overboard with the ass-kissing fan club. Same thing goes for Phennommennonn, or however you spell that witch's name. Some of the responses in her threads praising her are so fake and phony.

BTW, TxGal is back to using "Yeshuah" now.

48. **It's Obvious**

[05/31/2010 at 12:36 PM](#)

Don't know if you guys follow TxGal4Truth's threads on GLP, but it's obvious that whoever was playing her character in the past has been replaced and someone new has now taken her place. The writing style is completely different as to be blatantly obvious. I can spot writing cadence style a mile away. Certain words the original character used to always use, such as saying "Yeshuah" has now been replaced with "Jesus Christ." This is an obvious mistake that a so-called sacred namer would never make, as they consider the name Jesus Christ to be false. Also TxGal now says "you guys" instead of "y'all."

But it gets even more interesting than that. If you copy and paste things that TxGal types in "her" responses to make it look like it's her own words, it's copied and pasted from other websites, such as gotquestions.org. It's like whoever is playing her character is searching the internet to come up with Christian-sounding responses to questions she's asked in the thread.

It's so obvious that GLP is a psy-op with fictional characters created to portray certain agendas.

■ **smack**

[06/03/2010 at 2:12 PM](#)

I totally agree and furthermore, each character they support, or portray advocates a dead end path.

This salient fact is crucial to the fallen agenda. They offer lots of confusing, sympathetic paths, but they don't lead to freedom and liberty, just more stupid slavery.

Problem is, based on long experience, if you set up a forum and do not moderate it, it quickly gets taken over by pathological types that turn it into a sewer. You end up paying good money for serving something that you wouldn't spend any time involved with yourself.

Then, if you start moderating, you find that this generates bad feelings because everybody doesn't think the same way you do. Or, pathologicals come along just to spoil your efforts because that's what they do. Or, you find you can't do it all and must get helpers. The helpers, being imperfect human beings as we all are, fall into the same trap as you would by yourself: fights begin, filth starts flying, and it turns into a mess.

It's really a can of worms to run a forum.

smack

05/29/2010 at 2:33 AM

Yes, a good website is like a garden, you gotta prune and weed every damned day.

Here at our lower level of polarity, every good effort births an equally evil effort. That is the secret, unholy heart of our Yin and Yang boot camp of 3D illusion. Sorry about your lawsuit. Why don't you start a competing website and ban the skills, instead of the free thinkers? Or would they go after you again?

[Laura](#)

05/29/2010 at 8:53 PM

Yes, gardening is a good metaphor. The crazy thing is that the weeds think they are prize-winning roses, and even the good plants scream when you prune them! But, if you have to come down on somebody, you can generally tell what sort of person they are by their reaction. As Gurdjieff said,

“A decent man will behave decently even if he thinks that he has been treated unjustly or wrongly. But many people in such circumstances show a side of their nature which otherwise they would never show. And at times it is a necessary means for exposing a man’s nature. So long as you are good to a man he is good to you. But what will he be like if you scratch him a little?”

I have a website/forum, but we have been running it rather strictly with a particular aim in mind. I’ll discuss it with our moderators and see if they are willing to open it up to wider ranging discussions just to give normal people a place to congregate and behave decently. Lord knows, we’ve sure practiced long enough on the whackos that GLP and others have sent to disrupt our rather quietly academic discourse. We can spot ’em a mile away.

I don’t worry about the legal stuff anymore since going through an 18 month lawsuit has given me 1) a good knowledge of what is actionable and what is not; 2) a team of attorneys still on retainer.

Finally, the day that they stop persecuting me is the day I realize I’ve lost my way.

Laura

05/28/2010 at 11:15 PM

One thing I forgot to mention... the legal aspect. I was sued for several million in 2008 because of an opinion I expressed on my own forum. It cost over 150K to defend the suit, and I won, but I sure learned a lot about the legal issues of running a forum.

GLP is noticeably, to me anyway, self-imploding lately. I see more and more threads getting deleted over trivial posts, and a lot of the intelligent posters are abandoning ship because they see what's going on, or already have.

Even, from experiences in the chat room, more and more posters are questioning their censorship mode and comparing it to the MSM.

What we are left with are the same ole', same ole' tired, well-known Members whose threads nearly always get pinned and who always have the same agenda, whether it be anti-Muslim or anti-Obama, pro-Zionist, anything to steer us away from the real world-dominant culprits and Satanic elite, et cetera, like a broken record, such as TexGal4Truth, ScrumptheTexan, and Mathetes, Phenn, and on and on and on.

One, it doesn't show a lot of wisdom from the people behind the scenes to have the same Satanic skills endlessly dominate the board. As the Proverb goes... "Seldom set foot in your neighbor's house — too much of you, and he will hate you."

Two, overzealous, delete-thread-happy mods only serve to do the exact opposite for which they're hoping, which is to draw attention to that subject and cause it to go viral.

No wisdom. No wisdom at all. And I, for one, will be happy to watch them self-implode into an infamous relic of a bygone era.

Let me add a couple of aspects to what intheknow says so well. Just like society has always been polarized between slaves and rulers, so has Alien life and the so called “Interdimensional beings” hijacking and feeding off the valid creation. The Catholic church and the Illuminati are the two best examples. These two have corrupted religion, politics, environment, economy, and even science, with our money –an incredible feat!

Some negatively oriented beings are energized by killing. This is the true core of psychopathology and perpetual war. This vampirism is fundamentally impossible for normal people to understand as murder is naturally repulsive to normal people.

Adding these types of intelligent alien forces greatly expands our problem of trying to understand the sources of corruption, and fighting them effectively to achieve personal freedom and international peace. They are significantly stronger, richer, smarter and more invisible than us...

The #1 reason the illuminati are so effective is because they have the ancient technological support of the Anunnaki, Orions, and the Draconians. These are incredibly advanced, dedicated, strong and enslaving groups that create matrices of negative energy resulting in whole populations of sleepy, stupid lemmings.

There is now ample archeological evidence for these groups going back 10,000 years. And it is the negative energy produced from their propaganda, toxins, and false science and religion that physically block enlightenment from occurring in normal humans. Otherwise enlightenment would occur naturally just from experience and evolution.

So evolution must be stopped and they use increasingly greater violence to do so, hence the dizzying array of evil groups intheknow mentions. Few of the employees in these evil groups understand what they are contributing to and the karma they will share for it. The book “the Great Shift” talks more about this.

I know what you are saying, but my point is that those who are at the core of this pathological grouping simply aren’t capable of feeling fear – that’s been tested and proven numerous times. But, that there are a variety of pathologies involved is also true and some of them can feel fear. I think that one fear they do have is that they won’t have “food” and this is at the root of their secrecy. After all, if the predator cannot lurk in the shadows, he very likely won’t have any dinner. All one has to do is study predatory behavior in the wild to understand these types.

You might very much enjoy “Political Ponerology” which discusses the various types and how they interact dynamically.

<http://www.ponerology.com/>

It also gives enough info that, after a period of observation (and sometimes, right away), that you can pretty much figure out exactly what type you are dealing with. If you know that, you can then “test” it in an unobtrusive way, wait for the reaction, and “if it quacks like a duck, swims like a duck, walks like a duck...” and so on. Also, once you have nailed the type, you can pretty much figure out where they “rank” in their dark network.

This is what I find amusing — **w/ all the technological wizardry available to the NSA-CIA shills (spook clowns) at GLP, this is what they engage in — juvenile pranks w/ your tax dollars!** — legitimate Intel from those earnestly seeking answers to some of the mysteries surrounding the military-industrial-apparatus is replaced w/ high school level profanity. Lists are being compiled for DoD, USJFCom and Unified Intel Agencies who are supposed to be “*protecting our freedoms*” and ensuring our safety...**no doubt accomplished w/ their “off-the-shelf” black budgets...**

The absurdity of GLP and Jason Lucas is that w/ GPALS, GWEN towers, (2) way flat-screens, RFID chips and TENA (post coming soon) and they're still afraid of us – specifically our fingers... pathetic!

GLP could have an automatic kick out where all responses are sent to the nearest BATF agency, or local cops. The BATF sends glp a check every month to keep the leads coming in. GLP said they didn't ban me, but clearly their bk man comes up when I try to post. Then they said a third party has done this to me; not them...! Later they said they had to ban a large range, but why don't they ban the ranges on either side of me, then? Its bullshit. All responses, posts and hit counts from glp are unreliable. They simply realized I was in on their game, banned me, and don't want me angry at them.

GLP originated in 1999 when I personally exposed a man named Kent Steadman as a Tavistock/CIA asset involved in perpetrating doom scenarios and guaging the response. At the time the Sun was in a major peak of activity, and I had developed a technique to forecast solar x ray flares and to correlate it with the 'chemtrailing' phenomenon...His website forum was called cyberspace orbit, and nothing but disinformation. This GLP forum was birthed out of cyberspace orbit, the old jew was getting old and stupid so they got rid of him. There is no doubt whatsoever that GLP will never allow anything that damages their nefarious agenda to be posted. I think we should organize a coordinated attack, coming in under hundreds of IP addresses simultaneously, and post this information there repeatedly until no one is left there besides themselves.

GLP published my name and address more than once and that fucking childish asshole tried to emply I was a mass

murderer who happened to have the same name as I did. I was a very powerful and influential poster on GLP, the one who did the very most to undermine it's mission. They couldnt ban me without shutting the whole forum down because there are so many ways to bypass their 'security', which they did on occasion..I have been threatened openly with death on GLP repeatedly by MIC pr guys and government skills, as well as zionist operatives. Theres your clue, folks. It all comes back to this jew world order thing, and people like Jason are too greedy and shallow minded to ever think that this world they are trying to create will be one they themselves have to live in. It takes a real scumbag to sell his own decendants into slavery.

That's right folks, and more than likely this forum is here to find out what we really know that is damaging. To those of you who would like me to believe there are only a 100,000 people aware, let me make you aware I am not buying it.

I remember you very well, glad your ok. I have posted this link (intheknow7's story on glp) on GLP and few times and they didnt catch it. After they caught it they banned any link with intheknow7, insta-ban if you try. I use many proxies so I dont give a shit but shows you how deathly afraid they are of this information.

I have another idea, how about opening a username forabovetopsecret.com and posting a thread there about GLP being psyop with this information. ATS is apperently GLP nemesis so they should not mind, also it will gain popularity bcs ATSers and GLPers frequently surf both sites.

As far as this site (intheknow7) being a GLP asset to test what information is really out there, that could be easily true however this post by intheknow7 on GLP could easily shut down that dataminingfest of a site (glp)... If GLPers realize they are being duped with datamining and baiting I would be sure most people would stop going there. That looser trinity can go back flipping burgers. That's actually very interesting because the piece on Elaine Belisha makes some connections to Kent and cyberspace orbit. I had a few run-ins with the guy years ago and, based on his behavior toward me, figured out pretty quick that he was a serious "agent of disinformation." Gads, when you see your own stuff published in a twisted and distorted way, used to hype fear mongering, and you ask the person to make the corrections and they refuse, you know something is up.

I'd like to sue them for denying my right to free speech in an unregulated public forum. This should be illegal for any business operating over American bandwidth.

Laura

05/23/2010 at 12:58 AM

I don't think you can sue anybody for kicking you off a forum that they own and operate, even if it is "free and public." You also can't call it a business unless they are collecting money for your admission. Basically, what it is is like an "open house chess club" where there is a host and their house open to guests that are there for the "advertised" purpose. If they don't like you, they can ask you to leave.

GLP is a business, they do not have non-profit status, that I know of. The current laws allow them to operate outside the constitution, really, but we should close these laws by calling our legislatures and stating the facts: businesses and operations for profit, are using fraudulent means to deceive Americans and selling personal and societal information to foreign governments and the corporatocracy.

Everyone should letter this to their legislatures to get a clear law written for the web-age. Not that this would stop corrupt government or anything, but it would help.

I can share something. I saw a post go up on GLP with the headline "Elaine xxx is working with the NSA". The paragraph of text said that Elaine xxx and GLP were also working with Tavistock and other propaganda groups.

This post had about 2 pages of comments, which I was surprised at, but the interesting thing about the comments is that they were repeated twice! The second page was a exact repeat of the first page, as if all the comments were first faked and then duplicated. Very weird!

I checked back after an hour and the post was still in view, but the next day it was gone, and now 3 days later it is still gone after searching on “NSA” and “Elaine”.

I’m not sure what to make of this as the comment repetition suggests GLP posted this but then removed it, too. Totally odd!

Too funny, ITK.

Ok, in the video Trinity was demo’ing his new computer system, and he had pulled up a page from GLP. His computer was some kind of touch screen, and he pointed to one of ScrumptheTexan’s threads and, if I remember right, blew it up or something like that. I can’t remember what else he did with it, and I can’t find the video now.

I found it odd that, of all people, Trinity should choose to use him to showcase in his demo. After all, Scrump is a self-professing Christian, and Trinity, in his own words, is the offspring of a Shaman and a Druid Witch. I’m not saying I know 100% definitely that Scrump is on their side, but I just found that odd back then and was kind of like hmhhhmm.....

It is no accident that a druid witch on glp would highlight their favorite Christian, namely, Scrump the Texan, who has been on that sight for 20 years. The Illuminati (witches, satanists, banksters, et al) like Christianity after they dumbed it down from an enlightened mysticism into a child fucking faith based religion. This was accomplished through the Catholic Crutch hundreds of years ago. That church went on to destroy just about everything.

The game plan for the dark forces is simple: redirect all spiritual effort into dead end philosophies. They do the same thing with politics where they redirect all humanism into their perpetual war machine. They do the same thing with the economy where they redirect all business into feudal slavery. They do the same thing with medicine where they have successfully perverted curing people into maintenance programs that take all your money then kill you faster than cancer treatment. They pro actively pollute our water, air and food to subjugate us slowly. As Hitler noted, people will accept a big lie faster than a little one. This lie is so big, no one dares to doubt it! People are farmed like cattle.

Blogs like GLP help the conspiracy to monitor our angst about these programs so they can either step up their subjugation activities or slow them down. They are going to do evil every time we allow it. And quite a bit beyond that.

I've heard the last names Randolph and Brown are also Satanic bloodlines.

Speaking of Trinity, did anyone catch his new computer system video about maybe 2-4 months ago? It looked like a tall, skinny, shirtless man with extremely hairy armpits was in the video. But then I've seen that pic of a very small person with Mister Obvious, and some say that's him. I doubt it. I'm just wondering if that shirtless man was really Jason. Also, did anyone notice whose GLP member profile he used as a demonstration of his new computer? I was wondering if anyone else caught that. I think that the real issue of "bloodlines" is that they carry the genes for psychopathy.

[intheknow7](#)

05/24/2010 at 4:01 AM

Exactly! just as the Monarch Butterfly transmits genetic code to it's offspring, so do humans. GMT Nazi mind scientists discovered this and bloodline dynastic clans have been "in-breeding" for centuries — you can even see the physical resemblances...

this clip pokes fun at their incestuous lifestyle <http://www.youtube.com/watch?v=jyN1O-GwALI>

denny

05/24/2010 at 6:44 AM

Let me add that it is not just genes that control genes, there are also many "epigenetic" influences that control genes. Beyond these are several higher dimensions with actual "chemical genes" influencing the 3D genes in our chemistry. And beyond this are "light patterns" than can be reduced to genes in a lab, given enough heat and pressure.

Because genes have a higher and lower nature, they are very hard to control. This is why the dark side must preserve, and blend, and hide their evolving genes in the general population. This is very tricky!

For example: Pres. Clinton turned out to be yet another Rockefeller, from an illegitimate union, like most high level leaders are lately. The Mafia and Royalty, does this also.

[intheknow7](#)

Tx for that — many are not aware of how common **incest, inbreeding, intermarriage** is in Bloodline Dynastic families; the things our so-called leaders stand before us smugly denouncing, are the very practices they gleefully engage in. Isn't Tea Party Queen from a state infamous for rape and incest?

The whole 9-11 thing and the “war on terror” (which is really a war OF terror waged by the psychopathic elite against the normal humans, i.e. the majority) becomes comprehensible when you understand that you are dealing with psychopathology. That also means that NONE of the normal means of coping or righting the situation are going to work.

One of the most obvious “tells” that glp is crooked as hell is the way they assign rotations to the posts. In radio they give fast rotations to good songs and poor rotations to bad songs. Same with glp. I have seen good posts get 30-60 hits in prime time, while shill-shit gets pinned and racks up 3000 hits for the same time loop.

This just makes you want to cry cause you can see how good the other post was, and then you never see that person’s name again cause they are are offended. What a bunch of suckin’ liars.

One thing I did notice on GLP is that most paid members (I'd say 50% +) are shills. Either paid shills or "friends" of Jason Lucas / Elaine Belisha. I've been on GLP for many years (2003-4) and Im certain these friends are part a larger satanic ring. All these friends belong to the same satanic organizations, of this Im almost sure bcs I have caught them posting to each other in unsuspecting threads using "their" lingo (hidden in plain sight from other posters). I have seen paid members refer to each other in ways that only people who actually would know of one another would refer to or people that shared a certain credo. Its funny as heck watch them, but they are careful making it hard to spot. Either way its entertaining! LOL

What's amazing to me on glp is how gullible most people seem, to actually trust that that site is somehow exposing the complete truth. And what cracks me up is how certain members like to butt kiss the mods and Trinity. Most of them are working on the inside and pretending, but there's some that are completely clueless. I am so glad to find this. I just started posting on GLP and Twice, when I mentioned trafficking of women, girls and sacrifices, from my findings from research AS a feminist women's human rights advocate [an issue I've been advocating on for Years] Immediately,

the threads went completely down. It gets better, ready for this...because I've only told two people and they think I'm crazy, I am not. I came to God when I was twenty, but it was a shallow conversion, you see I had a lot of anger over severe child abuse. Anyway so I rebelled, I got into sinful life, several abusive relationships, got into politics, leftist radical/socialism, then got out of that due to betrayals to women's rights then got into radical feminism, fell out with many there due to selling out of women's rights,

especially over issues regarding pedophilia and women abusing children. You see my abuser was female—my mother. My brother too was abused.

Anyhow, so going full circle I finally had enough of the insanity and came back to the Bible and started reading. God started working, but then the nightmare began. I started researching OT and seeing things, then I would go to ancient history and what I would see tied Right into all the research I had done on trafficking/abuse/violence to women.

Was I crazy? Then, I start having dreams, God started dealing with numerous fragmented memories or pain I had stuffed, these dreams I would research and one incident I had, when I asked Jesus about iniquity in my family line and what it was exactly, let' just say, something very weird and paranormal happened. My husband who isn't a believer in Jesus even admitted to what I showed him that something weird was up.

I had Never, been a believer in the paranormal before, would have said it's just lies and so forth. Anyhow, so I start researching things in the dreams And putting it together with what I Did remember,

the memories, my birthplace, WASHINGTON D.C., TAKOMA PARK MD. All prior to six years old...then my mother left my father [a shiner and who knows what else, I never saw him after again] then moved us to the South—

what I didn't know, was the towns we lived in, well, first one, mascot was 'demons', second one, town had 'sun' in title and when I looked, sure enough, the Mason sun symbol, third town, had 'pan' in title,

Coincidence? Am I just crazy? Then, the men in my life, all the years of rebellion I lived, well because I didn't trust God [RA abuse, etc], I find, had links somehow to other beliefs/gods, from Kali to Allah to Egypt, etc. And so I'm like having to deal with the fact that for years I really wasn't saved and was under the control of darkness, that guilt,

but then too, how my life from childhood without My consent, was like, geared to this by forces I had no understanding of. Due to the abuses in my life I got into human rights at young age, interest in, especially women's human rights,

then I started seeing the links between the violence to women in the world AND links or threads in my life that are similar, like Juarez, and Maize and Mayan...it's connected, over 1000 women raped/slaughtered and have ritual marks cut into their skin. It's one of the issues I worked on,

I worked in maize fields when I was 12, had a dream about them too, when I put it together, I looked up Mayan, Aztec, and one of the sacrifices they did in B.C. was force children to dance in Maize fields then cutting off their heads.

This isn't the only connection I am finding...but Who do I talk to? Do I talk to anyone? Why am I seeing all this? On top of that I'm trying to get MY life right with God and with Jesus,

So like I am seeing all these threads, then wonder OK is this coming from evil or is God trying to show me or is it distraction from getting my things in order, etc., with God,

then I post on GLP, mention trafficking routes and government, and they immediately take them off. What are they hiding? It's NOT like this info isn't out there, if one puts it together,

then I look up Tavistock, then did a google on trafficking in UK, interesting things there, around 2005. Coincidence?

I don't think so...don't think so, at all.

btw, I'm looking for Answers, to a lot of pieces, in my early childhood, the things I do remember,

like, Venus on the wall, I was around 5, maybe 4, I know, sounds Crazy, but I did some moon-shadow experiments with a little doll [because my mother owned a 5 inch Venus de Milo Statute to rule out night terrors, moon reflection, etc],

the problem is, no way would moon reflection turn a small figure into a Giant. No way, and not the luminous white of it either...nor the wrought iron gate on the wall that I realized not to long ago, Couldn't have been the apartment we lived in, our place was on second/third floor from what I remember [burbs around D.C., year 65-70] Unless a moon can reflect a gate on ground up three floors—

I remember waking up blinking my eyes terrified trying to get that Venus to go away—it didn't, there are other memories too and like Weird things, just weird. I am not trying to add memories or drag false ones up, trying to reasonable deduct,

but there are dreams, when I did research on a couple of things in some dreams and I had Never even Heard of Monarch or anything of the like..those few things, came up, one of them, a dream I had,

a man after raping me telling me 'come see my Opera',

I looked up opera and child rape, came up with Monarch. Now, tell me,

am I insane, no, I'm not, but I don't think I was in any CIA experiment-but Something happened. BTW, all my father's side of family Work for government, low levels, from what I know, that and he worked, for a college, in MD,

which as none other than a observatory on roof. I've been trying to find answers by myself, it's NOT like you can tell people this, they think you've lost your mind.

Im sorry to tell you that your ramblings make little sense to me, maybe its bcs I ramble too.

You say your mother sexually abused you? I heard of that happening but I always thought it was a very rare circumstance... Hope your recovery is going well and that you heal 100%.

Also you bring up your husband, but aren't die hard femminist all lesbians? And what about your paranormal experience cojuld it be that is was entirely normal (explainable) but just weird?

Good luck...

Jane

05/07/2010 at 5:31 AM

"Also you bring up your husband, but aren't die hard femminist all lesbians?"

That is such a misconception and I really don't know why that is...propaganda? There are numerous schools of feminist philosophy and feminism has had Christian roots as well as non-Christian. There is yes, a lesbian feminism but actually, for informative purposes here, those two branch out into two camps,

one is not anti-woman and the other is anti-woman, the latter being a very misogynist form in it's own right. Add transgender to it and it becomes even MORE misogynist, and I am not referring here to only the submissive/internalized misogyny but a total erasure of anything deemed as feminine or of the 'womb'.

Now, before you can classify that in it's school there is several sub branches in that, one Marxist de-gender and not all Marxists were of that philosophy, Stalin in fact was more mutterland/maternal for the nation State, just as Hitler was,

there is post-Marxist that I think is the strongest today in those extreme branches and they have more in common with the atheist liberal hedonism AND materialist sex dialects, what I refer to as the 'borg' society where there is no gender, but of course pedophilia is just fine in those societies [Firestone was one of the leaders of this philosophy].

ETC

so, to label all 'feminists' as lesbian or as pro-abortion or traditional, not to be offensive but going to be truthful, is really just ignorance of feminism and gender issues and is actually sadly what is believed due to the other 'social engineers' because if you can subjugate half of the human race for whatever reason,

you subjugate the Entire human race. On the other hand, oppression of females is the outlet to protect males from male on male oppression/violence and therefore, the extreme anti-feminist patriarchy are actually, homosexual in nature. This is why, like the Bible says, first comes the womb-woman hate by Men, patriarchy, then the reaction to that is Women turning against nature while Men lust after Men, and then the women eating their young, etc...it's a digression, so to lump it all up as feminism = lesbianism and not confront the patriarchal roots/that are misogynist and actually, yes, homosexual, is really missing half of the problem of human relationships.

So, yea, and if I was to classify what type of feminist, I would say Christian eco-radical [radical meaning turning over every rock looking for truth] woman centered feminist. That has elements of several schools but many of the philosophies I strongly reject, on both right and left sides.

And yes, mothers, women do abuse, including sexually, while America has a lot of waking up in this fact, Australia and Canada do have support groups, not just for female survivors but Male survivors,

and hierarchy and patriarchy/Misogyny yes, contribute to the dynamics of both, male and female abuse. It's about Power and the abuse of, and Yes, if the social engineers [and Satan was a misogynist btw, Genesis] can demonize women and use patriarchy,

they can mass control the entire society. So, actually, silencing feminism, does far more to Support, the social engineers, Baphomet, etc

than ever, to confront or destroy the porgrams.

83. Doglike Deductions

05/05/2010 at 1:57 AM

Personally, I think folks are being snookered in a big way. I've even seen posts that claim Elaine Belisha doesn't exist...which is hysterically funny considering how many times she and/or Hiam have been to court in GA.

<http://www.gwinnettcourts.com/#partycasesearch/pnamelast:belisha/qfields:8199/pcsform:1/>

There is NO proof whatsoever that Elaine sold Godlike Productions to anyone. People are going on her word...which in my experience is completely and utterly worthless! If that woman says the sky is blue, you need to stick your head out the window and look.

Her claim that c2media/lop.com bought GLP is ridiculous if you stop and think about it. If the script kiddies had bought it, they would have turned it into a portal and started hijacking browsers, because that's what they do. However, the GLP forum scripts have never changed...they're still as buggy as the day she compiled them. I think she claimed to sell to c2media shortly after LOP was publicly exposed because she knows they can't come forward.....too many people want to sue them too. LOL

GLP is a piddly public forum where anyone can say anything...barely one notch up from Usenet. What would the Mossad/CIA be using her for...comic relief? All she did was change servers...and maybe put the site in her daughter's name. IMHO Elaine Belisha is just a net savvy Wiccan / Faux Indian who's into BDSM and public attention. What is she doing/producing that could be considered a threat to anyone but herself? She plays pat the sheeple for fun and profit. What's new and exciting about that?

I think Marilyn is running GLP, Elaine is running alien-earth orgy, and they are both milking the sites for all they are worth. Is it a coincidence that Elaine started the whole "GLP has been sold" RUMOR shortly after some of her creditors started making noises about seizing the site? She and Hiam got into a big financial mess awhile ago with some on-line auction sites...then they broke up and Hiam pretty much left her holding the bag since the sites were registered in her name.

I don't think she went "underground" because she was threatened by government agents, aliens, 4D STS organic portals, etc ... I think she ran and hid because her creditors started looking for assets to seize. Of course such an ordinary, mundane reason for her actions doesn't fit her whole "there's a huge government conspiracy against us" persona.

84. **Once upon a time...**

05/04/2010 at 8:31 AM

If the government is associated with Godlike Productions, then they have sent them money. It is usually possible with, a little digging, to uncover all checks from government as they are public information. The amount of the check would tell us something also. I think we should look any communications between the two. Tavistock does propaganda for many governments, but any government actions should be available. Please post them here if you have any.

■ **DoS**

05/04/2010 at 9:59 AM

but how?

■ **Once upon a time...**

05/04/2010 at 2:31 PM

Departments within the government would write checks that would probably have to be viewed at the department that made the acquisition. Usually someone has to watch over you while you view these records. They don't make it easy.... They don't like snoopers..... Maybe a freedom of Information act would be required.

<http://www.justice.gov/oip/>

It is illegal for government be restrict freedom of speech. Private entities may, however, under current law, up to a point.

But we probably need new laws stating that all public blogging forums must allow for freedom of speech, especially if they are accepting tax payer monies from the government through the back door.

It is actually false advertising, fraud and false representation to pretend to be a free service when you are a phishing operation for private interests, who are likely manipulating the voting apparatus of a supposedly free nation. This might be seen as a valid lawsuit if it was brought forth by the ACLU or some other respected entity.

<http://www.aclu.org/>

Once you get a valid law suit going you can ask the judge, under normal discovery rules, to turn over all documents pertaining to potential government involvement in freedom of speech violations, as this is against the law.

Banning people can be a violation of free speech, especially if they paid to be on a free speaking website with no published guidelines. Even if the server is in London, they are still doing paid business over here under American laws.

Pawning themselves off as a free website when they are actually a phishing and propaganda outlet is extremely fraudulent.

It might be seen as " entrapment" in the same way as secretly recording a telephone call is illegal. Same thing here. These complex borderline issues need to be brought to specific types of lawyers to see if existing legislation can stop it, or if new tighter laws need to be crafted and passed.

We should talk to our legislatures about this too and make it clear we will not accept propaganda and phishing instead of news and views. We demand to know who we are talking to and what their business is. Most companies have an "about us" tab on their sites and a mission statement. Not GLP! They don't have anything, so don't have anything to do with them.

05/05/2010 at 4:36 AM

If it was gov sponsored, it is unlikely that there would be a paper trail. Those kinds of things are run through fronts. For example, there's several New Age types out there who have been funded by a "millionaire philanthropist" who just happens to be the "front" for funding these gov run and staffed ops. The only way you can

track that sort of thing is by tracking connections. Eventually, you find one or more of such a spiderweb who has closer connections in some respect.

05/23/2010 at 1:22 AM

Yup. All you have to do is read "Protocol 12" and modernize the applications. It also helps if you don't assume it was written by any particular ethnic group, but rather that it exposes the thinking of psychopaths with designs on the planet. Yeah, maybe a lot of them are Zionists, but not all of them for sure! I prefer to think of it as "Protocols of the Pathocrats".

[intheknow7](#)

05/26/2010 at 1:56 PM

sorry for late reply, but you touched on something I feel strongly about — namely arguing endlessly about authorship of the Protocols, when the focus should be on whether the goals have been enacted! Let's say we didn't know it was penned by Zionists...it still demonstrates there's a clear and undeniable plot to subjugate earth's inhabitants and set up a perpetual hereditary monarchy...

Tx Laura

[Laura](#)

05/26/2010 at 5:49 PM

Exactly. The issue gets diverted to authorship and that's not the point. Anybody with two firing neurons can read it and see that it is a step-by-step plan that HAS BEEN FOLLOWED! So, if that is the case, then we can assume that the objectives are as stated.

Douglas Reed, in his book, "Controversy of Zion" also points out how exactly the protocols match the "facts on the ground."

Polish psychologist, Andrew Lobaczewski, in his book "Political Ponerology", points out that the Protocols exhibit the thinking of a particular kind of psychopath. He also mentions that this type of psychopathy occurs at a higher rate among Jews than among other ethnic groups.

So, as they say, if it walks like a duck, quacks like a duck, swims like a duck...

Last time I was on glp, a thread was warning people that one of the regular posters was gone since 6 weeks ago, after he posted he was going to confront the USGS about Earthquake reporting "errors". He apparently had done his own tests on his own equipment.

Well, where is this guy now? Doesn't this raise concerns? Is glp a means of drawing renegades out into the open where spooks can get a shot at them? A lot of people test their theories on glp before taking action on them. Bad fucking idea. glp is probably part of the ever growing surveillance grid.

It's not beyond imagining that it was a sockpuppet trying to create a drama. Remember the "Dr. Grant Gartrell" business, and the asteroid that was supposed to hit the earth? That's what got me going on the whole thing — investigating that nonsense. It was purely and simply a psy-op experiment. That's also what clued me in that the owners of the board — Elaine Belisha at the time — were well and truly behind it, which led to the research that

revealed some pretty shady connections. Not very long after that, it was sold. And like I said, I don't think it was a hostile takeover – it was just passing an asset on to some “experts” because Belisha was exposed.

Anyone

05/03/2010 at 11:47 AM

Well, exactly, once the site's ownership is hidden in a shell game, plus poorly associated with clandestine activities like Tavistock, then nothing can be trusted on that site anymore.

Any post on glp can be: bait, spin, propaganda, lead on, subterfuge, a poll, a virus, a spyware program, a bot program, a code, you name it. And all the posts are serving dictatorial forces in the long run.

Come to think of it, I have had serious slow downs after being on that site.....

So my simple observation is: GLP is compromised and no one should use it for anything except a quick look at the news.

I admire your bravery and efforts against such a great beast, monsters and psychopaths! As we approach some seven billion people on this planet it becomes clear that the numbers of those interested in such information and knowledge fall short of a 100,000 people. More shocking is the fact that less than the half of those express any real signs of true awakensness. Tragically, few individuals process the character of mind to stand up against the now strong institutions of governments and religions for fear of their own livelihood. How lucky for the sake of the spirit of man that a small group of people live in this world who do get their hands dirty to find out what the hell is really going down on this planet and greater universe.

I remember reading about GLP and Elaine Belisha, Haim Belisha, Jeffrey Bashtuk and the whole smoke and mirrors of it all. What was disturbing was that a number of the addresses listed for registered agent, 4-5 of them, were within a mile or two from the house I lived in at the time! One of them I had even visited (shop) though not knowing its association. This was years after, but bizarre nonetheless. I took some photos and visited locations. Porsche HQ complex happened to be one of em. I was told by security guard that since 9/11 it was illegal to take pictures and not allowed on premises so left. This was at night.

When I looked into Belisha link discovered southwest ozarks as another registered address, again disturbing as this was maybe 9-miles from where I grew up! It was about that time I stopped searching on the thread. Shortly after though I read of cattle mutilations in this same area, 9-miles the other way, during the 90's, again during the time living there though I never heard about it at the time. Fort Leonard Wood area.

Read that Branson is reportedly a “hot-spot” of all types of mind-control and sic sex-trafficking.

Great job both of you in the search for and publishing of truth!

Niles, back in the late sixties I was working as a professional musician. We were booked into the Ft Leonard Wood officer's club for a week. It was the weirdest, creepiest gig I ever had – and I had some lulus. Once those guys got some liquor in them, the masks came off and their hostility came out.

Having grown up in the OK/AR/MO region, I can point out several areas of high strangeness. Camp Gruber, outside of Muskogee, OK, is another such place. We used to spend time fishing on Greenleaf Lake, right next door... until something happened at Gruber which killed all life in that pristine lake. This is also the site where the concealed Ryder Rental truck was photographed just before the OKC Federal Building bomb.

Having been the target of YEARS of defamation on GLP, I was rather glad to see that someone else was seeing what I was. Yeah, I know, it's easy for me to say they are posting endless lies about me, but what is my proof. Well, I have that proof and it has been posted, but then it gets deleted and/or shouted down by dozens of "Anonymous Cowards."

It all began when I published a two-part expose on the then owner of GLP, Elaine Belisha, showing which revealed some really creepy connections to the rich, right wingers. There were disturbing connections to weird sex, B&D, pedophilia, etc. Within a day or so, I received threats by email, and within a week, there were "warning shots" fired over my physical bow in the way of my car being tampered with, my fence cut, being threateningly followed by thugs while out shopping with my children. I was told to remove the piece or suffer the consequences... that I wasn't "too far away". They had made their point. I removed the articles and things quieted down. GLP was "sold" and apparently, other management took over, but I think it was just from one front to another.

If you are interested in the articles, I can send them privately.

They encourage visitors to speak their minds, but when you do they ban you. It does seem like a phishing and research operation. There are also a lot of "I'm using this drug, what do you think about it" type of lead ons. and "how many people are not paying income tax this year" etc. They are clearly trying to get people in "caught".

This is sooo awesome.I was just thinking about these jerks last week.

A few years back when I found GLP someone had posted a nice page that linked the IP addresses and other info important damaging info on the site.Therewas a Langley address too.It was gone in minutes,but,from then out it was clear who these freaks are.

I think Jason was in Austin,Tx at the time ,not sure though.Home to another famous change agent Alex Jones.

Love this site,Thanks a million.

Tx much...it's hard to tell sometimes whether they got sloppy or they dont' care — a chainsaw couldn't cut through the arrogance, most think they're “gods”. Keep coming back, things about to get interesting...

Yes, in tracking who owns what and who is affiliated with who, you will find peculiar connections, suspicious relationships and of course the opposing data will always be buried. Holding companies, investors, and business intelligence backgrounds certainly come in handy and are invisible to the mind that is not aware. What better way to conceal deception than to legally register it as a company. Time and time again it happens...

you're so right...they are masters of deception, but their arrogance ALWAYS betrays them...

Hmm, I know I've read a lot of this information before, but your writing is superb, and the way you tie it all together is fantastic. You are so very cutting edge without being a freak about hammering your point home. I guess a little too good, 'eh?

Thanks much — yes, alot of this stuff is out there, but most fail to connect the dots for various reasons, namely — who has the time or even cares? I take no credit for my writing ability...as a child, I was a terror-on-wheels / spoiled brat, who had to be dragged kicking/screaming (Woody Allen glasses fogging up) to the dining rm table for disciplined study, where I was given additional tasks beyond those assigned *thanks Mom* As far as being able to tie things together...that's pure military...

Godlikeproductions is Psy-Ops

I found this revealing expose at "Anti CoIntelPro and Disinformation" at the url: <http://anti-cointelpro.blogspot.com/>.

As some of us are beginning to be aware, there is a HUGE amount of this Cointelpro on the internet. The problem for the majority of people is in being able to discern which is indeed Cointelpro and where they may find something at least attempting to speak truth.

The article:

Godlikeproductions is Psy-Ops

This report was apparently written in 2004. Godlikeproductions has since "changed hands." That is, the owners/operators apparently responded to the publication of this information by "going undercover." Some of the links may have been scrubbed. But, at the time we obtained this, all of the links were valid and all of the information is accurate.

Remember the "[Aussie Bloke hoax](#)" that was running wild in the Spring of 2004? It all began on godlikeproductions. And so, we decided to take a closer look.

The first thing we found was that the [Whois](#) information regarding godlikeproductions.com is as follows:

*Registrant: Belisha, Elaine (GODLIKEPRODUCTIONS-DOM)
Godlike Productions
P.O. Box 725 West Point, GA 31833 US*

The domain was registered on July 25, 2000.

Nothing is terribly interesting about that, now is there? But we continued to search. We find Elaine on a google search, [FILER'S FILES](#), cached, since the page is no longer available:

NORCROSS: Elaine Belisha reports her 14 year old daughter, Marilyn Chen, saw a translucent, boomerang-shaped aircraft on Sunday, Sept. 13, 1998 at 8:00 PM. "I asked her to draw a picture, thinking it might be a stealth bomber, but it has a much larger wingspan relative to the size than a stealth." The UFO appeared and disappeared almost magically even though it was at close range at dusk. Thanks to E. Belisha, 2019 Lia Hills Drive Norcross, GA.

We then find Elaine [HERE](#)::

CRM is not a subset of e-commerce, but of business. One of the most valuable questions I was ever asked was, "How does this help me run my business?" CRM is segmented and complex due to proprietary legacy data, for one. Whether the software includes micro-managing your sales force or data mining for marketing targets, it's all about streamlining profits.

Crystal Reports are tricky to load. I made mine in visual interdev and they work. I have the source code at the office though. I don't have it on my home computer (or interdev). It involves creating two active-x server

objects: 1) a report object that points to the report, and 2) a viewer object that points to the report object. I'll post the code monday, if you can wait that long.

There are other computer tech discussion entries under Elaine's name, all of which suggest that Elaine is a very computer savvy lady.

Then, we find Elaine on Kent Steadman's [CyberSpaceOrbit](#) and on [RumorMills](#) in a very unflattering light:

GODLIKE ATTACKS ME, RMN AND THE OLD MARINE WIFE

Posted By: Rayelan Date: Sunday, 18 April 2004, 5:05 p.m.

[...]

I wonder how many people have actually met Oswald LeWinter??? He's the poster on Godlike who started all of this... of course he doesn't even use his real name... he hides behind 100s of aliases... it must be real fun for him to do this. I wonder how many people realize they have fallen for disinformation coming from an old CIA/Mossad operative... one of the best... so you shouldn't kick yourself too hard if you swallowed his crap line hook line and sinker!

but again... let's look at the person they assigned to "take down" Rayelan and Rumor Mill News... the sent the best!

Having been married to the #3 man in the CIA... I still have a few strings I can pull to get information. I called one of these "strings" to inquire about whose payroll Oswald is on. I was told that he is hated by today's CIA and if he ever comes back to this country he will end up in prison or worse. I was told that he is on the Mossad payroll. ON THE MOSSAD PAYROLL!! WOW!!!! THAT IN ITSELF IS AN EYE-OPENER -- Think about it... THE MOSSAD IS TRYING TO SHUT DOWN RMN. Why??? Are we getting too close to their involvement in 9.11 - OKC -- Waco -- and their blackmail of George W. Bush... with the threat of biological or nuclear attack on a US city! (article being written on this)

Even if the above impassioned rant is a bit incoherent, the reference to MOSSAD will become more interesting as we go along.

All in all, the pickings on Elaine Belisha were pretty slim! I was beginning to think that the woman didn't even exist before the UFO report on September 13, 1998. However, we are resourceful if nothing else. We found Elaine here: [Guestbook of Michelle Guerin](#) where she filled in the form with the following information:

Email: Elaine Belisha

Web Page: www.hifiexchange.com

How I found your page: mail

Comments about the web site: Great page, Michelle! LOVE it

What can we deduce from this tiny bit of information?

Well, first of all we note that Elaine must be a friend of Michelle Guerin because she says she was informed about the creation of the page, probably by Michelle herself. Her personal comment also seems to confirm this.

But what is even more interesting is that Elaine gives a website address: hifiexchange.com

A [whois](#) search on hifiexchange.com gives the following result:

Registrant: Keyword Traffic

PMB # 483

1733 H Street, Suite 330 Blaine, WA 98230-5106 US

800 633 8435x05

The domain was registered on July 31, 2003.

When we try to go to hifiexchange.com, we are redirected to a sort of "auction" page which tells us that we arrived at that page because "You searched the web for Home Theater Speakers."

Well, we didn't exactly do that. So we decided to search google for "home theater speakers." For at least the first four pages of search returns, there was no appearance of "hifiexchange.com."

BUT, we notice a little image in the upper corner of a funny little blue guy and the word "TopDotz" (tm)

We search for whois on topdotz and find:

*Registrant: Keyword Traffic
PMB # 483
1733 H Street, Suite 330 Blaine, WA 98230-5106 US
800 633 8435x05
Domain Name: TOPDOTZ.COM*

The domain was registered on September 22, 2000.

I want to mention, at this point, that there are no names of real people on the "Keyword Traffic" domain registrations.

Nevertheless, we visit topdotz.com and discover that it is a search engine displaying a logo that says: DotzUp!

Well, by now, we can't resist and we go and search whois for dotzup.

*Domain Name: DOTZUP.COM
Administrative Contact: Master, Web dotz@icehouse.net
4235 S. Cheney-Spokane Rd STE 10 Spokane, WA 99224-9661 US
1 509 443 1948*

The domain was registered on August 11, 2000
Again, there are no names.

So, we want to know if there is any connection between the new owners of hifiexchange.com and Elaine Belisha and we proceed. Leaving DotzUp, we go back and continue searching for "hifiexchange.com" we find a curious website that says:

Here is the INFOPAK.... NOTE: The compilation of this infopak is due in large part to the efforts of many others, far too many to mention here, with the exception of Wizdomme, SteelBtrfl, and DsSiteMstr to whom is owed many thanks for their efforts on behalf of the BDSM community. A request can be sent to SteelBtrfl to be placed on her mailing list.

Here the reader will find the milieu in which Elaine Belisha seems to live and thrive. The website has such entertaining sections as:

About half way down, we find Elaine Belisha's personal website - hifiexchange.com - listed as "INDIVIDUAL WEBSITES" of those who are associated with this group of extremely strange individuals.

Okaaaaaaayyyy....

This is getting interesting.

Well, we wondered if Elaine's old website - now owned by Network Traffic - was in the web archive. Sure enough! The old hifiexchange.com! On this interesting page we read the following:

Welcome! My job titles include MOM, Goddess, alien abductee and Webmaster. Unfortunately, I don't get paid for doing any of these things. I have an admirable collection of unpublished science fiction novels, with rejection slips included. I am fond of bad puns and dirty jokes. I love receiving e-mail on any subject, especially alien abduction experiences (and skeptics & debunkers are welcome, too). I am especially interested in the Philadelphia Experiment and the Montauk Project.

The next items are about her children one of whom we already met in the UFO sighting report:

This is my oldest daughter, Marilyn. She's primarily interested in the internet, and spends hours on it daily. She loves role playing games and something called Magic, The Gathering. She's fourteen years old. At school she is in the gifted program but she always gets confused about "push" or "pull" signs when opening doors. Visit marilyn's Web page....oooooo scary....Marilyn's Darkness For some cool poetry by Allen, Marilyn's bud, Visit Allen's Page of Various Useless Stuff

It seems that the above was written about the time of the UFO sighting if her daughter was 14 at the time of writing. Elaine has another daughter about whom she writes:

This is my youngest daughter, Sara. She is fond of dominating cats into submission. She loves them and pets them and squeezes them to death. Her goldfish committed suicide by leaping out of the aquarium into a cup of coffee. She's really not sadistic, just er... eccentric.

Charming family, eh? Elaine's a veritable June Cleaver, now isn't she? B & D being passed on to the children...

Well, it gets better. We find oldest daughter Marilyn keeps an [online journal](#) with such beguilingly innocent entries as:

You seek Magick! First of All I LOVE alien SEX FIEND!

and

I havnt been fucked like that since grade school.

If you check her [model portfolio](#), you will find cute bondage photos. Wonder where she learned all that?

If you check her links page, you will find that she links to mama's site: godlikeproductions, among others listed as "friends."

Then, if you search google groups for "ebelisha" you will find a few posts on the newsgroups from daughter Marilyn:

From: ~Marilyn (ebelisha@mindspring.com)

Subject: Re: New Satanic Site!!!!

Newsgroups: alt.satanism, alt.individualism, talk.religion.misc, alt.atheist, alt.magick

Date: 1997/08/13 "!"

*Check out ~Marilyn's Darkness~ <http://angelfire.com/ga/Marillyn/index.html>
Tis a great page! Meet satan, and Dark poetry! Also,theres a poem of the week contest. ~Marilyn*

Obviously, Marilyn was only 13 years old when she was posting the above on the 13th day of August - which fact obviously entertained her as we can see by virtue of the exclamation point put next to the date.

One can also find "ebelisha" at the godlikeproductions FAQ which says:

Moderators help keep Godlike Productions uppdated with the most current news. If you have a question about being a moderator, you should direct it to ebelisha@godlikeproductions.com.

Getting back to hifiexchange.com - the one listed by Elaine Belisha as her home page - we finally find it [HERE](#) in the web archive. The address is given as: 5926 BUFORD HIGHWAY, ATLANTA, GEORGIA

Okay. What to do next? Well, check the [Georgia corporation listings](#).

Under the business name: HIFI Exchange we find:

*HIFI EXCHANGE, INC. A DOMESTIC PROFIT COMPANY
ADDRESS: 5926 BUFORD HWY NORCROSS , GA 300712405
CEO: HAIM BELISHA
CFO: HAIM BELISHA*

SEC: HAIM BELISHA

REGISTERED AGENT & OFFICE: JEFFREY ALAN BASHUK

990 HAMMOND DR. STE. 990 ATLANTA , GA 30328

Date of last annual registration 03/10/1999 Dissolution 11/09/2002

So, it looks like the Belisha's sold their business and their domain name to the Network Traffic folks. Remember that Keyword Traffic only registered the domain name on July 31, 2003. No big deal, right? Well, perhaps, or perhaps not.

As it happend, Haim Belisha popped up on a second run at the Georgia Corporation site:

AUDIO CREATIONS, INC. A DOMESTIC PROFIT COMPANY

ADDRESS: #176, 9700 MEDLOCK BRIDG RD DULTUH , GA 30097

CEO: HAIM BELISHA

CFO:

REGISTERED AGENT & OFFICE: JEFFREY BASHUK #990, 990 HAMMOND DRIVE ATLANTA , GA 30328

Date of last annual registration 05/09/2001 05/18/2002

Note here: We find Jeffrey Bashuk or Jeffrey Alan Bashuk as registered agent for over 50 different corporations on the [Georgia Secretary of State site](#) ranging from THE DECATUR CHURCH OF RELIGIOUS SCIENCE, INC. to NORTHLAKE ALLIANCE OF GAYS/LESBIANS & STRAIGHTS, INC. The obvious reason for this is that Mr. Bashuk must be in the business of acting as a Registered Agent. This, however, may be more interesting than we initially suppose.

Moving along: another interesting item that popped up was that when doing the domain search on hifiexchange.com another similar domain popped up: HOMEHIFIEXCHANGE.COM So naturally, we decided to just take a peek. It was a bit of a surprise to discover that this company was also domiciled in ATLANTA, GA! Well, who'da thunk it? What a coincidence! Here is the [whois](#) data:

Organization:, ExchangeBlvd.com, LLC,

Is there anything interesting about this "ExchangeBlvd.com, LLC?"

Doing a [Georgia corporation search](#) on the company, we find:

THE CAMERA EXCHANGE, LLC A GEORGIA LIMITED LIABILITY COMPANY

Mr. Tedesco is almost as busy as Jeffrey Bashuk.

The next item that popped up was an article about Larry Tedesco in the Atlanta Business Chronicle:

*EXCLUSIVE REPORTS From the April 26, 2002 print edition
Auction site bidding on expansion*

by Mary Jane Credeur Staff Writer

The organizers behind ExchangeBlvd.com Inc., which operates an online golf club auction site, are

hoping to duplicate their specialty auction concept for musical instruments and photography equipment.

Atlanta-based ExchangeBlvd.com recently raised another \$1.5 million round from previous investors to cover the cost of launching InstrumentExchange.com and, later this year, PhotographyExchange.com.

"We want to be a specialty shop for equipment that you can't find in just any old run-of-the-mill store," said **CEO Larry Tedesco**.

The 6-year-old company has brought in roughly \$4 million in investments over its lifetime, much of which came from **Arkansas investment bank Stephens Inc.**, which is owned by the family of PGA legend and former Augusta National Chairman Jack Stephens.

With sales last year topping \$9 million, Tedesco believes it's time to expand the profitable auction site to include other high-end goods. ExchangeBlvd.com expects to pull in revenues of \$2.5 million on projected sales of \$15 million this year, Tedesco said. [...]

Since the site went live six years ago with only a few dozen users, the company has attracted 200,000 regular users and has gained the backing of the PGA of America and Golf Magazine. The company also began publishing a "blue book" reference guide of used golf club values based on the nearly 100,000 golf equipment transactions it handles each year.

We finally find Larry together with Brad on a [yahoo biz site](#):

Exchange Blvd provides item-specific online auction marketplaces. Sites include GolfClubExchange.com and InstrumentExchange.com (musical instruments).

Coming back to Haim Belisha, undoubtedly the husband of Elaine Belisha, another curious item popped up:

Leslie Hore-Belisha was born in Devonport in 1893. Educated at Clifton College and Oxford University he served as a major in the British Army during the First World War.

Hore-Belisha, a member of the Liberal Party, worked as a journalist and lawyer before entering the House of Commons for Devonport in 1923. [...]

In 1937 Neville Chamberlain appointed Hore-Belisha as Secretary of State for War. This was a controversial decision as the former holder of the post, Alfred Duff Cooper, was popular with the British armed forces. [...]

*Hore-Belisha upset the Army Council by replacing three senior members with younger and more flexible men. He also upset Neville Chamberlain by **suggesting the introduction of military conscription during his negotiations with Adolf Hitler in 1938. His attempts to persuade Chamberlain to rapidly increase spending on the armed forces was also unsuccessful.***

*In the House of Commons the Conservative Party MP Archibald Ramsay was the main critic of having Jews in the government. In 1938 he began a campaign to have Hore-Belisha sacked as Secretary of War. In one speech on 27th April he **warned that Hore-Belisha "will lead us to war with our blood-brothers of the Nordic race in order to make way for a Bolshevised Europe."** [...]*

Neville Chamberlain eventually decided to remove Hore-Belisha as Secretary of State

for War and appoint him as Minister of Information. Lord Halifax objected, claiming that it was "inappropriate to have a Jew in charge of publicity." In January 1940 Hore-Belisha was sacked as Secretary of State for War.

In 1945 Winston Churchill appointed Hore-Belisha as Minister of National Insurance. However, he lost office when the Labour Party won the 1945 General Election. Leslie Hore-Belisha, who lost his seat in the election, died in 1957.

One wonders, of course, if the above Leslie Hore-Belisha was related in any way to Haim Belisha?

In any event, getting back to Elaine's friend, Michelle Guerin we find that on her website, she has posted a story about her life as a "Montaukee." We also find an article written by Michelle on the subject of Alien/Human Hybrids.

We also find that Elaine has written a comment to an article posted on Kent Steadman's site.

6/19/2002 6:00 PM

Re: SLEUTH ALERT: Worldwide Periodical Time Shift?

So all we have to go on are a number of mechanical watches (which DO and SHOULD lose time, because no watch is perfect). How did you know these watches measured time accurately before this magical date? A decent way you can measure the rate of watches losing time is to record the difference of your standard time reference (STR to save me typing) to your time. If the difference between your watches over a few days, and the STR increases then either there is something going on with time or your watch is deteriorating. If the difference between these watches and the STR is relatively constant over time, everything should be normal. And the sun moving? You should consider errors made in your measuring and the dodginess of the astro-software you use -- and don't forget the fact that the sun naturally changes its path across the sky across seasons. HTH.

Elaine Belisha

and here, in response to an article about Fulcanelli:

Re: Fucanelli's Doom: Judgement Day: The Trial by Fire on 9/22/2002

It is amusing how the "white" man valued the beliefs of my people so little until now, when they realize their f#@%ed, they run to us for the answer. The fact is, these "people" are an infection, a disease, perhaps like a cancer, eating away at the natural order of things. Be careful what you think, if you believe it, it will happen, within your own frame of reference. That is to say, you are creating your own reality and your reality sucks. Stop

Elaine Belisha

We notice that both ladies like Kent Steadman and both ladies are into Montauk and alien abductions. So, we have a look at Kent Steadman just for the heck of it:

Registrant: Kent Steadman (CYBERSPACEORBIT2-DOM)
425 South 156th Street, #119A Seattle, WA 98148 US
Domain Name: CYBERSPACEORBIT.COM
Record created on 01-Sep-1999.

This jogs our memory and we recall that Network Traffic which now owns hifiexchange.com is also in Washington state.
Probably a coincidence.

But then there is that strange coincidence where homehifiexchange.com suddenly came to be in Atlanta, where the OLD hifiexchange used to be... while the old hifiexchange went off to Washington State and we see some strange little threads hanging out here and there just waiting to be pulled.

So, I went back to Network Traffic which has the nifty little trademarked icon... and searched the US Trademark site.

Nothing.

No corporation filings in Washington State either.

Whoever they are, these folks are invisible.

Remember Larry Tedesco and homehifiexchange.com about which company we are told:

The 6-year-old company has brought in roughly \$4 million in investments over its lifetime, much of which came from Arkansas investment bank Stephens Inc., which is owned by the family of PGA legend and former Augusta National Chairman Jack Stephens.

With sales last year topping \$9 million, Tedesco believes it's time to expand the profitable auction site to include other high-end goods. ExchangeBlvd.com expects to pull in revenues of \$2.5 million on projected sales of \$15 million this year, Tedesco said. [...]

***Since the site went live six years ago with only a few dozen users**, the company has attracted 200,000 regular users and has gained the backing of the PGA of America and Golf Magazine. The company also began publishing a "blue book" reference guide of used golf club values based on the nearly 100,000 golf equipment transactions it handles each year.*

Now remember that when we searched the domain registration of hifiexchange, we found that the domain was registered by Keyword Traffic on July 31, 2003. So if it was a 6 year old company in 2002, then that means that Haim Belisha is either closely involved, or acted as a front since he and Elaine Belisha owned hifiexchange prior to that time.

Just to get a handle on who these people are, go [HERE](#) and read carefully. Among other things you will find:

*1979 Mochtar Riady and Stephens Inc set up Stephens Finance Ltd. In Hong Kong. Lance is **indicted on charges of violating federal banking laws**. Clifford's partner, Robert Altman, represents Lance who eventually achieves a hung jury. During this same period, Stephens is, according to Peter Truell and Larry Gurwin in "False Profits," playing "**a crucial role in BCCI's penetration of the US market.**"*

*1984 Mochtar Riady buys a stake in the Worthen holding company whose assets include the **Stephens-controlled Worthen Bank**. Price: \$16 million. Other Worthen **co-owners will***

eventually include BCCI investor Abdullah Taha Bakhish. Deal handled by C. Joseph Giroir II. Giroir is the Rose law firm chair who hired **Hillary Clinton**. Giroir will continue to be a deal-maker for the Riadys.

1985 Arkansas state pension funds -- deposited in Worthen by **Governor Bill Clinton** -- suddenly lose 15% of their value because of the failure of high risk, short-term investments and the brokerage firm that bought them. The \$52 million loss is covered by a Worthen check written by Jack Stephens in the middle of the night, an insurance policy, and the subsequent purchase over the next few months of 40% of the bank by Mochtar Riady. **Clinton and Worthen escape a major scandal.** Mochtar's son James comes back to Arkansas to manage Worthen as president. Worthen is investigated by the Office of the Comptroller of the Currency for improper loans to companies owned by the Riadys and Stephenses.

1986 **George W. Bush and partners** receive more than \$2 million of Harken Energy stock in exchange for a failing oil well operation, which has lost \$400,000 in the prior six months. After **Bush joins Harken**, the largest stock position and a seat on its board is acquired by Harvard Management Company. **The Harken board gives Bush \$600,000 worth of the company's publicly traded stock, plus a seat on the board plus a consultancy that pays him up to \$120,000 a year.** When Harken runs short of cash it hooks up with Jackson Stephens, who arranges a \$25 million stock purchase by Union Bank of Switzerland. **Sheik Abdullah Bakhsh, who joins the board as a part of the deal, is connected to BCCI.**

1988 Stephens' wife Mary Ann runs George Bush's campaign in Arkansas. He is a member of Team 100 -- individuals who have given \$100,000 to the Republican party.

A few days before the supposedly surprise arrest of five BCCI officials, some of the world's most powerful drug dealers quietly withdraw millions of dollars from the bank. Some government investigators believe the dealers were tipped off by sources within the Reagan administration. [...]

1991 Stephens Inc gives \$100,000 to a Bush dinner committee. With Stephens, Mochtar Riady buys BCCI's former Hong Kong subsidiary from its liquidators. A former top aide to White House Chief of Staff **John Sununu goes to work for a prominent figure in the BCCI**

scandal less than a month after leaving the Bush administration. Edward Rogers Jr. signs a \$600,000 contract to give legal advice to **Sheik Kamal Adham, an ex-Saudi intelligence officer who is being investigated for his role in BCCI's takeover of First American Bankshares.**

The Miami acting US Attorney is reportedly rebuffed by the Justice Department in his efforts to indict BCCI and some of its principal officers on tax fraud charges. Justice Department later denies this occurred. [...]

We wonder again, just who owns hifiexchange.com NOW? And geez, Elaine Belisha, founder of Godlikeproductions.com sure hangs out with interesting people, eh?

But let's go back to that funny remark Elaine Belisha made on Kent Steadman's site:

"It is amusing how the "white" man valued the beliefs of my people so little until now, when they realize thier f#@\$ed,they run to us for the answer."

This connects us back to Will Scott Anderson of the Aussie Bloke Hoax:

Scott Anderson is the current spokesperson for a false group operating out of Deltona Florida using the name of Indian Creek Band of Chickamauga Cherokee. Anderson has in fact been known for the solicitation of donations from the public on behalf of a Convicted Sex Criminal who is a Registered Sex Offender in the State of Missouri, along with several other incidents of exploitation affecting American Indian People.

With all the sex-capades going on in the background of Elaine Belisha's life, put together with her remark that seems to indicate that she is claiming to be Native American, we can't help but make a connection here, however tenuous.

If all of this doesn't look like covert ops run by the Bush-MOSSAD Administration in cahoots with their Saudi pals, I don't know what does.

In short: Godlikeproductions is Psy-Ops.

What a great research job! I was wondering about that site since I got "banned" from it for no known reason. I was discussing the Kyle Huff case and suddenly got blocked. Seemed ridiculous, but I'll stay away from now on.
Thanks.

great article

Most users of GLP have no idea how many threads and posts are deleted every day.

I was permanently banned several times, the main topics for banning:

- 1) bringing up their past as spyware vendors
 - 2) Oddly, the ban anyone who uses the words: Mossad, Jesuit,
- and I was banned 8 times in the last two day for just giving a list of possible antichrists. You know, the future

world government leader. Strange yes but they allow every matter of strangeness but not this topic: I'll post those people here, I will do some further research and find which ones caused the ban.

- 1) Prince William/Harry
- 2) Arnold Schwarzenegger
- 3)The pope, any pope, or all popes
- 4) Bush?
- 5) a Rothschild - the Israeli flag is the mark of Rothschild
- 6) some false jewish messiah
- 7) a muslim - the dajjal?

I had some other possibilites. I think they are connected to the Rothschilds thru Riady. The Rothschilds are the Vatican's bankers. They are at the top of the zionist pyramid to enslave the world.

I copleately agree GLP is total psyops, and I would like to come together with other researches as well as hackers to take this site offline permanently or at least inform every visitor of that site.

Ban me GLP? THIS IS WAR. I will aseemble all your enemies togehter and we will expose you.

Also Haim Belisha is a Jewish name

its probably what she was referring to by talking about the "white man" comment

I was recently banned from GLP as well for posting an internet article on some person named Trinity on a post related to "spooks". This Trinity character appears to be a mainstay of the GLP website. Just one more idiot to me, by the way.

I am not sure the purpose of the GLP website. It reminds me of an internet comic book. If GLP is what the three letter agencies are up too, then this country is worse off than I thought.

Most of the posts are garbage, some are interesting, some are funny. All are a waste of valuable time.

As Gerald Celente would say - here are the words that encapsulate those in power -Harvard, Yale, Princeton, Bombs, Bullets and Bankers.

Would it be of interest to learn that possibly what goes on now in and around C2media might be nefarious software wrote for mobile devices, there's a hot spot for coding cellphone app's in basically the same city as C2media, I have way more information just on assumptions, but I do know the company I speak of was working million's of dollars worth of contracts with one certain Cellphone company. I didn't know this last bit of information several years ago when I was getting banned from GLP for pointing out I lived in the same County in Florida as the Military base mentioned in this article. I was getting banned for pointing out the underground survival shelter Lucas ripped people off with donations for and never got to use, even to this day we haven't had one storm to hide from(haha). Now I've been banned yet again this week for remembering GLP, coming back to only find a 4 year old retelling of the telescope donations that exceeded 10,000\$ and 4 years later there's no such thing. So if anyone is still perusing this obvious conspiracy one should look at companies that offer software creation in Okaloosa County Florida.I can't think of any better way to encode backdoors in software, especially when C2Media exists in the same County as the Military base listed in this blog, and also in that same county in about the least likely spot in America you will also find a computer programming company that abandoned their Model and went full force into Cellphone apps a few years ago. I would say a lot more, but I like breathing fresh air everyday.
