The Main Entrance Doors needs a great concentration as per Vaastu Shastra. Main door is the face of the house and according to Hindu religion, "Simhadwaram" or Main entrance Door, is the house of Lord "Ganesha", Goddess "Mahalaxmi" and Goddess "Saraswati". So the main entrance door of the house must be perfectly positioned to activate all the positive energies.

According to Vaaastu Shastra, here are some tips that should always considered before designing the Main entrance doors

- The Main Entrance Door should always in the East or North direction.
- Avoid a door facing South West as it will bring the devil energy in the house and also invites in struggles and misfortunes.
- The door facing South East is brings in sickness, anger and court matters.
- The main door should always open inside the house and clockwise
- South facing door brings the energy which disturbs positive energy of the house and causes arguments or disagreements. While if this door is in fourth Pada is very good for occupant.
- West facing door is good for the youngsters as it gives active energy & energy of enjoyment.
- North West facing door is not so bad. It can bring health, wealth and prosperity if supported by other vastu shastra rules. Only thing to remember that the most key male person of the house may remain out of the house for a longer time if the door faces west and a female if the door faces North.

The Main Door should be taller and other doors should not be higher in size or in beauty to the Main Entrance Door

- There should not be obstructions in front of Main Door like rails, staircase, big trees etc. There should not be Temple, Lamppost opposite main door.
- The number of Doors and Windows in the house should be always in even numbers like 2,4,6,8,etc
- Doors should not be positioned in the center of the wall; they should always be off centered.
- If a house faces East, the entrance should be in the East, because Main Door falls in the Northern direction of the house. Such a door gives good results and is very auspicious

Normally main entrance doors facing East, North, and North East are supposed to be good doors. But again there are many other things like Cuts, Extensions, and Under Ground Water Tanks of the house which decide the wealth and health of the occupant. Hello Mr. Mahi;

Please see that, wheather the main entrance door is in **"fourth Pada"** in the South direction then it is very good, if not so, shift it in the South east area of the house, See there is nothing more than our existence of survival

Hello Rajaram Ji;

Yes you can, see that Entrance will come in 4th and 5th place in South direction. (means if you make Nine equal parts of South wall leaving 1 st and 2nd part from Southeast, you can have a Main entrance door in 4th and 5th part)

Hello Amit Ji:

You house has a SW entrance door, which is Vaastu defect. So what is the position of Northeast and water-source.

Remedy: 1. Put a "Panchmukhi Hanuman" Pic above the main door.

2. Place "OM Trishul and Swastik" on both the sides of Door.

2. Put a TV antenna on SW direction on above the slab.

3. Strengthen the Northeast direction.

4. Put a Pendulum watch on South wall in SW room.

5. Paint a main door with reddish color

Hi!

I am about to buy a house, but it's front door faces south east, I was once told by an astrologist that south facing front door would be beneficial to me. As there are stairs leading to front door, can I change the direction on the stairs to south and have a small gate at the bottom of the stairs so it becomes my front entrance.

Hello Lipsa Ji

From the details what you have said, there is problem in SE, NE and NW.

Whats the exact location of Main entrance door. SE is cut or extended. South east defect will create disagreements in family. Northwest defect may always keep in moving the family head. And your daughter may using the Northeast region for all her activities. Give the NW room to daughters, NE room [or ares] to your son. However check from a Good Astrologer about having a "PitruDosh" any of your family members.

Staircase at opposite means they are of the apartment, hence no defect.

Dear Sir,

We recently purchased a house. The flat is on the first floor and the main door is facing south west. Entering the Main door there is first dining room area and then the living room. We have big sliding window in the living room. This face the main door. The Pooja room faces west. The master room is situated on south. Kids room face North east and guest room North.

We also have a back door entering the kitchen facing East.

I read in article south west main door are very inauspicious. Kindly advice what we can do and the remedy. Also we cant paint the door different color it has to be uniform color with other flat houses.

Hi

I am planning to buy a flat where entrance (from inside of house) is facing North

So entrance in such a situation is better in North east of North west

Also What is not suitable from Vastu point of view – When we enter inside house it should not be towards South or When we go out of home it should not be towards South

Entrance of building (coming inside building) is facing east...

Please Let me know

Namaste guruji, my flat entrance door is west facing,but the position of entrance to flat is just immediate left as we climb up the stairs. therefore it is like that, we climb up the stairs which are to north of flat n immediate entry to flat, so is there any problem having like this kind of entry. i have heard that the entry is very wrong as we are walking over kuber's dhan and then making the entry. Plz suggest the solution.

Dear sir,

Greetings, what should be ideal way to look at direction? For eg. Should house entrance be facing North East direction from inside? Or it should be facing NE from outside? I get confuse in identifying direction. Currently my new place has North East entrance outside(Though Door opens inside). Is that ideal location? Please advise.

We are interested in a property that has a south west facing main door. My husband dib is 19 dec 1977 and my dob is 04jan1978. Is it favorable? If not, we are planning to use the door that is in the garage as the main door, since it is facing east. I'd that a good idea? If so, do we just close the southwest for permanently? Please let me know.

Sir, Me and My wife stay for rent in a two bed room house constructed as per vasthu , We stay in first floor of the double storey building, our house faces east and there is a road in front and south side of the house ,opposite to our house there is a newly constructed three storey house facing west which is not constructed according to vasthu vidhi . The first floor main door and attached left and right windows of that house is directly opposite to our main door. From the moment they started constructing the first floor we are undergoing certain difficulties like frequent sickness, financial problems,no peace in family .Now that building is fully constructed and house warming is done and waiting for stay . kindly give me the remedies for our problems.

Sir,

Our house is in a villa compound , there is one main concrete road going at the south side of our house (road is nearly 2 meters approx from the house) . There are houses on both left and right side of this concrete road with small streets (cross roads). Our house is located left side of the concrete road , and is east facing to the small street road in front of our house (1.5 to 2 mtrs distance from the house).

The newly constructed house is approx 6 to 7 mtrs (including the distance of small street road) from the our house .

Sir, I live in a street house without compound wall. It is ground plus two building 1500 sft each floor. It is East facing house built 15 years back. The frontage east side is 22 feet and the north east portion 10 ft/10 ft is a shop and the entrance of the shop is 10 ft and the balance of 12 ft is used as my main entrance on the south east. Upon entering from the 12 ft entrance is a garage 15ft / 12 ft. and the water sump is in this portion. The stair case is just behind the shop and it is in the north east direction. My entrance is in the South east on all floors on the east side 6 feet away from the south wall. To compensate the weight on the north east I have put a heavy mobile tower on the south west in the terrace. The water tank is also on the south west terrace. The sump is just outside my main entrance. 3 months back I closed the bore well on the south west side and also removed a toilet in The SW corner. I cannot do anything about the north east stairs and the south east entrance. Is there any solution to this without demolition.

Hello Sir, When we look for main door directions or entrance facing, what is more important, the main door from where we enter, (the entering direction) or the main door facing direction (from where we exit the door). For example, in our apartment, the entrance of my main door is west facing (when I enter the door, I face west), but when we come out of the house, we face North East. So is it good or bad? And if it is bad, then please advice for the solution. Thanks.

According to DOB: 18.05.1976 = East and 15.01.1981 = West is the favorable direction. South of South-east entrance is acceptable. And regarding the temple, If that temple is at the distance of double of the height of your house then OK, other wise it is problematic

Hello sir,

Namaskar !

I am living with my family (myself, husband, son & daughter) in a flat facing South and Main Entrance in SW

corner, Kitchen in North, Master Bedroom (with toilet) in SE, another bedroom in NE (where we all sleep), God in NE/East corner. Water source is in Kitchen (North) and Bathroom (in South) and Master-bedrooms (SE corner). We are living here since March' 2008 till date. But from last 3-4 years, we are facing lots of problems related to husband's health (also met with a accident and fracture 3 years before), career related problems, no growth, unstable life, no promotions, struggling for small small things, not getting new opportunities of jobs and many others. My husband's DOB is 07.04.1971 and mine is 05.05.1977. Reading to your advices, we have placed Panchmukhi Hanumans' photo, Ganesh's photo, OM-Swastik&Trishul at both side of main door. We are feeling some relief but not so much or sufficient to living peacefully. We are now decided to purchase a flat and also have selected one whose directions are as below:

- 1) Main entrance facing West but placing in the North side of the flat.
- 2) Kitchen in SE
- 3) Hall in NE
- 4) One bedroom in NW
- 5) One bedroom in East
- 6) Master bedroom with attached Toilet/bathroom in SW.

Sir, please advice us whether the above flat will be beneficial for us.. I would be very much thankful to you.

Many Thanks,
Mrs. Shefali.

Hello Gurujji,

I am planning to buy an apartment with 3BHK, 2 models are there i have attached the floor plan in the mail.

1st Plan: Apartment plot is West Facing, Main Door Entrance is East facing and towards NorthEast corner of the apartment , but i would like to know where the kitchen is located (NorthWest or North or Northeast) of the apartment and is Kitchen suitably good for the family. Please check the attached plan. I have read about few drawbacks on kitchen being in NW.

2nd Plan: Main Door Entrance is East facing and towards the SouthEast corner of the apartment and would like to know where is the kitchen located(south east or south west or south) in the plan. Is this Entrance good for the family. Please check it out and let me know which model to go for.

Awaiting for your valuable reply at the earliest. Thanks in advance.

Hello Sir, We are living in 2 storey building, EAST Facing plot, 30×40 ground floor for parking, borewell and water sump tank at NE direction gap between them and main gate entrance is from North East to East(11 feet gate). Stairs case in south portion of plot(south to north upwards) with main entrance door East facing in south portion of plot in 1st Floor.

Hall in entire Northern portion and master bedroom in south west.

Question:

- 1) As per vastu crossing sump tank and borewell while entering and go out of the house will it cause problems.
- 2) Having main door facing east but in south portion of the plot does it has any defect(its 24 feet from SE – starting staircase point out of 40 feet)
- 3) kitchen in southeast direction – stove and water sink(wash basin) are in East with 2 feet gap between them – does it has any defect.

Problem:

- 1) lost job after shifting to this house & loosing other job opportunities as well
- 2) Unable to pay debts & burden Increasing
- 3) Women's health frequent illness In the house

Kindly suggest remedies to fix if vastu dosha is in effect to cause such problems.

Dear sir ,

I have purchased a corner plot with house from the local builder ,My house is south facing corner plot , the main door is south facing , middle of the main door placed a small lord Ganesh due to south facing door and the main boundary gate is east facing (after 4ft from the south east corner) and design with small lord Ganesh middle of the iron gate) , from the main gate one road going towards the east and one towards south , in front of house 800sqft to 1000sqft open space but no open space available in east ,north and west , Goddess tulsi chaura also thr within the open space, the corner of the south and east water bore wall , and one open water storage in front of main entrance which i m not using now planning to close the same, my kitchen position is west and north corner two toilet is middle of the west ,master bedroom is south and west corner and second bed room is north and east corner , drawing room is facing south and dinning room is middle of north , due to unavailability of puja room i had prepared a wooden vibhan and placed the lord photo (inside second bed room) facing towards east , .then i was constructed two more floor (1 and 2 floor) as per the ground structure.

ground floor septic tank position is middle of north due to open space issues now i want to digging the spectic tank in southwest corner of the plot for 1st and 2 nd floor use.. and water tank top of the roof kindly suggest the vastu remedies and water tank position at top of the roof.

Also lots of tension and trouble facing with job, family , relatives kindly suggest for vastu remedies

just wanted to update you when my wife was pregnant i lost my job (my first son) and second pregnart also lost my job (my daughter) is it related to this house.

waiting for your response or email me on babu_276@hotmail.com

Hello,

I am moving to a new property on RENT. I cannot do any civil or structural changes in the house. Please suggest me remedies. The new property has South entry. The sink in the kitchen is on my left (North/North East) while I am facing East to cook. Mixer, Microwave & Fridge are on the Right (South). The two washrooms are in the same direction as the kitchen, both have west entry & we face east when bathing. The wardrobes in both the bedrooms are in the North. One bedroom has East Entry while the other has South Entry & both have windows in the west. When I pray in my Mandir, I face the East. Bang opposite to the Mandir is a door which opens in the balcony. The balcony is in the west & the other balcony attached to the master bedroom (South Entry Bedroom) also opens in the west. Please suggest me remedies for maintaining peace, prosperity & good health in this house as well. Since this is a rented house we cannot alter the structure but certain remedies can definitely be followed. Please help.

Thank You.

Sir, we have an East facing home/plot. Our main door is facing East too (position East-North) but there's a concrete wall structure outside right in front of it. It's kind of blocking the door (can't see the door when facing the house).

Planning on renovating it, what should we do?

Sir in our flat the main door (2 doors) is in North West, 1st Safety door (brown color) opens outwards (it opens anticlockwise from outside & clockwise from inside). 2nd main door (white color) opens inwards (it opens clockwise from outside & anticlockwise from inside). Our main door faces our Master Bedroom's door which is in North East (1 ft away from corner), the door opens anticlockwise inwards as clockwise was not possible due to the bed (4ft) & the room is 7/8 ft. The Kitchen door which is in South East portion has door exactly in the North West corner. Our living room (hall) which is in North East portion has door in South West corner of the room & is used by 3 unmarried adults (2 daughter's & 1 son), where exactly should we place our beds & Should we install a sliding door (bedroom) which will stand on north west wall when the room is opened then, where should it be installed inside/outside the room wall? Also are the Kitchen & Living room's door placed correctly? WE have cut in South East portion of the flat? Can we place photo frames of god's in the North wall (We've East facing balcony with sliding windows which is now converted & included with the Living room) of North East corner of this (previously balcony)room. What must

be the height of placing the photos on the wall? We consulted an astrologer who has said that we've vastu dosh in our flat hence we're facing many problems due to this. Our age is 35-40 we all are unmarried. We are facing financial & health problems too. Pl help us in rectifying our flat's vastu dosh. Kindly reply soon.

Dear Sir,

I am slightly confused about main entrance direction, in one post I see "Entrance facing South-east direction is ruled by "Shukra" {Venus}, so the owner of such houses will enjoy the life in fine way."

In another post I notice "The door facing South East is brings in sickness, anger and court matters"

Please advise, I am looking at a house, plot is south east facing and the entrance is also south east facing.

Best Regards.

Dear Sir,

I am confused about how to get direction for my house vs the Padas. If I am looking out of the house, the compass is showing 125 – 130 degrees South East. I am in ny area, USA so, if I add 15 degrees, I get to ~140 – 145 degrees true south east. But, I have a large garage entrance on the North east (30 degrees). But, I am not sure how to get padas for my house? Is it the plot that I need to make 9 parts to see which part I am in? or is it just the front of the house?my date of birth is 18 october 1967 and my spouse is 5th april 1972. The plot itself is a square with front facing east but, the house is built at an angle. My star is revathi and moola for my spouse

I have purchased an apartment with main door facing southwest. My date of birth 22.07.1950. Opposite to my main door is a fully stretched wall of opposite flat. Kitchen: south east. Master bed room North west, small bed room: south west Toilets: south west and North west of bed rooms. Balcony opposite to main door with 7' with three glass doors with grill. 21 feet hall separates kitchen and master bed room with 12' breadth. Is this vaastu compliant. My son's date of birth is 11.02.1990. Can I transfer the property in his name? Remedies if there are defects? Thanks.

Hello Sir

Pls help. I am so confused and stressed since a week. I am planning to rent a south facing house that would fall in 5th and 6th pada. I feel except this entrance every thing else is good as per vastu. There's a bedroom in north west, north east and south east. Kitchen is in north..while cooking we face west. Pls guide ne sir

Hi

Can you advise if an entrance double door that opens outwards is inauspicious?.

I live in a home that has a north facing double entrance door that opens outwards. What can I do to remedy this?

Regards

Hello Niren ji:

Yes, door that opens outwards is inauspicious. Make it to open inside

Hello Naveen ji:

According to DOB: 18.10.1966 = North is favorable direction

we are in process of buying a flat that is west facing but if a slighty turn then it is NW. kitchen is in NW and balcony is in north. and 1 bedroom is in SE and another is in NE. It is ok to go for this.

Dear Sir,

I have been following all of your answers to the questions asked by others and they are very helpful.

I live in United States of America(USA), and planning to buy a single family house. Main door of the house faces South-East, but the garage(which we use for enter & exit most of the time) faces proper East. Mostly kitchen would be West Facing, and I have a guest bath room that faces south-east. My Zodiac Sign is "Libra" and "Swathi" Nakshtra, please let me if this house suits to my family or not. And also kindly provide any vastu remedies that I may have to follow.

Thanks in advance.

Thanks & Regards

Bala
