ETHERIC WEATHER ENGINEERING
ON THE HIGH SEAS

with Trevor James Constable

The revolutionary weather control of Tomorrow is demonstrated as Trevor Constable takes you with him on shipboard to that mighty laboratory of maritime Nature, the North Pacific Ocean. Using simple geometric instruments, with no radiation or chemicals, Constable objectively demonstrates that the ether is indeed an incredibly subtle yet tremendously powerful PHYSICAL FORCE. Before your eyes, the ether undergoes a spectacular resurrection. Deluges descend in response to the pioneer's application of the ether's laws. Time lapse video tape provides visible, compelling proof of this reality, the master key to controlling and engineering the weather, and therefore ultimately, CLIMATE. Includes documentation of U.S. government weather maps and shipboard radar. Two and a half decades of quiet pioneering produced the revolution in physics and technology portended by the scenes on this videotape. Enlightening and entertaining for all.

UFOs have two main aspects according to the author. There are "critters"—living organisms which are normally invisible to human beings, and craft—structured, engineered vehicles propelled by etheric force. The author has photographed both types of UFOs directly from the invisible state with highspeed infrared film.

DESIGN ECOLOGY
Michael Riversong
An essential compendium of information on several aspects of environmental balancing. It begins with a summary of design principles developed in ancient China known as Feng Shui. These are related to daily life as we know it, with the first explanations ever offered for why some of these "old Chinese tricks" actually work. Section 2 is about our invisible environment, including electromagnetic fields and new information about Geobiology. Section 3 covers common household toxic chemicals in an easily understandable form. Ways to deal with these problems are summarized. Section 4 contains several new solutions to environmental problems, including the current state of Solar Energy, Lighting techniques, and experimental Field Modulation devices.

METAL POWER
The Soul Life of the Planets
Alison Davidson
According to ancient tradition, each of the precious metals is ruled by a certain planet in our solar system. In this tradition of correspondences, the metal is considered to embody that planet’s character and qualities on Earth. For example, gold is the royal metal of the Sun, silver is ruled by the Moon, copper expresses the sensuality of Venus... Metal Power explores these relationships in vivid detail, drawing on alchemical lore, astrology, myth, and modern technology to penetrate the mysteries of the metallic realms. While modern science ignores these relationships, this book forms part of a new ground-breaking tradition, demonstrating that these invisible connections do exist... that the elements of earth, including our own bodies are subject to the movements of the stars... #B0125, 99pp, illustrated, paperback, ... $8.95

THE METAL - PLANET RELATIONSHIP
A Study of Celestial Influence
Nick Kollerstrom
An extraordinary conjunction of two worlds, using the discipline of science to validate the ancient art of astrology. Through key “metallic moments” the author studies the dynamic relationship not only between planets and metals, but also between the psyches of eminent scientists and alchemists, and the key moments of their discoveries. Includes actual time-experiments, astral portraits of the seven metals and numerous astrological charts. A must read presentation describing mind-boggling evidence of the dynamic influences of the planets upon our earthly life. #B0253, 173pp, illustrated, paperback, ... $12.95

MORE PRECIOUS THAN GOLD
Ray Pendergraft
PASCALITE... a unique clay with amazing properties, gifted to Humanity by Nature. Known to the American Indians as EE-WAH-KEE — The Earth That Heals — Pascalite was named after Emile Pascal, a French trapper who first introduced it. Found only in Wyoming’s Big Horn Mountains, Pascalite exists as an eighteen-foot vein of dense, cream-colored, cheese-like material. It is super rich in organically assimilable minerals and trace elements. Pascalite is hand-mined underground and solar dried in the mountains, then powdered for internal and external use. Since its distribution as “Life Mud” in the 1930's, up to the present day, users of Pascalite have reported many dramatic health enhancing results from this enigmatic substance. Pascalite has been found to have many uses in promoting health in plants, animals, and humans.

Even Tesla Coil builders can benefit greatly from this handbook. #B00092,160pp, paperback, ... $17.95

MY SEARCH FOR RADIONIC TRUTHS
With Possibilities of Acceptance by Science & Medicine
R. Murray Denning
While only a young man, the author was told by doctors in England he had an 'incurable' disease. But he confounded the doctors after meeting healers who practised the art of radionics and he not only lived to a ripe old age but became a healer himself. The enthralling story of Murray’s 25 year search is a wonderful introduction into the subtle energy world of radionics. Here you will meet some of the most famous pioneers in this field, doctors such as Albert Abrams, Ruth Drown, Dinshah Ghadiali, who dared to innovate — and cure — much to the displeasure of the medical establishment. Other eminent scholars 'overlooked' by the medical and scientific community, such as Mary M. Leigh, Georges Lakhovsky, Darrell Butcher, George Crile, S.W. Tromp also make their appearance. Includes photos and descriptions of rare and unique equipment. Also a very useful synthesis of related fields such as dowsing, color therapy, numerology, yoga and alchemy. Excellent for beginner or advanced researcher alike. #B00090,120pp, paperback, ... $9.95
THE death knell has struck. Wave Radio is dead. How have 70 years of Military Research succeeded in producing a completely new and superior communications technology? Radio History gives a stranger walk than paranoid writers ever tell! While citizens were watching television, military research was directed to create an amazing radiation technology far in advance of any system known. Currently and routinely utilized, it has remained a well guarded “open secret” for decades. The proof patents and relevant research papers have just been retrieved.

★ Discover why is it obvious that neither military nor private developers have yet successfully duplicated Tesla technology.

★ Why is the name H. C. Vion, developer of auroral energy receivers, never mentioned in engineering circles? Who was Dr. Selim Lemstrom, and how did his early explorations in auroral energy research inspire Nikola Tesla toward his lofty achievements in Colorado?

★ Successfully tested by British Military during World War I, what became of the early beam weapons of Grindell-Matthews, Ulivi, Turpain, and others? Who was John Hettinger, and how were his early beam power systems modified through radar technology into ray beam weapons?

★ What was Project Argus? Project Teak? Project Orange? How was the Ionosphere successfully disturbed by a steady series of atomic detonations in 1962? Learn about the frightful characteristics of EMP phenomena, and how these were employed in a strange and deadly technology. What different kinds of EMP weaponry did military developers deploy throughout the 1960’s? Why was a High Command request to employ EMP weaponry in the recent Gulf War denied?

★ Discover why the Air Force directed the construction of a huge Ionospheric “backscatter” telemetry system across the Pacific just after World War II. Find out why the controlled production of Ionospheric disturbance was once important to military teams before the development of space travel. Learn why each of these mammoth global communications systems is no longer state of the art. How did the unexpected emergence of space technology speed the demise of earth based radio systems?

★ Not a weapon, not a psychotronics system, not a weather modifier, why is HAARP NOT the program which so many have claimed? Why can the IRI never achieve the objectives cited by a few authors? Learn about the real motivations so powerfully at work in Conspiracy Writers, and why they are not equipped to crack the secret of HAARP.

Why are the Eastlund Patents not relevant to HAARP, and why has Raytheon continued to collect every HAARP relevant patent for several years? What is the “merchandise” which HAARP promises to yield?

★ What was Project Sanguine originally designed to do? Find out why it is not an invincible system. Learn why the ELF heart of Naval Command is eventually to be dismantled.

★ How were X-Rays used to detect underground movements? How were Gamma Rays routinely used in communicating from submarines to command headquarters via military satellites?

Facts quell hysteria, but Truth is stranger than fiction. Want the answers? This complete technical history of military projects will show the development of every relevant project preceding and exceeding HAARP. Only the facts. No hysteria. Complete with communications and weapons patent citations, this book will forever change your view of world events and technology.

David V. Tansley, in collaboration with Malcolm Rae and Aubrey T. Westlake
Written by some of the foremost scholars in the field, this volume has become a definitive manual on the subject. It details the subtle energies and constitution of the human body. Emphasis is placed upon diagnosis of the spiritual, mental, and physical qualities of the individual via the ether fields (distance from the subject has no bearing); and the broadcasting of subtle energies (homeopathic, flower essence, color, and gemstone) back to the subject, thus returning a balanced and tuned system. Instructions cover the use of Malcolm Rae's homeopathic potency stimulators, including those which have an extended range. Illustrated with many charts and diagrams.

THE DIVINING HAND
The 550-Year-Old Mystery of Dowsing
Christopher Bird
"To dowse," says the author of this definitive study of the divining art, "is to search with the aid of a hand-held instrument such as a forked stick or a pendular bob on the end of a string - for anything: subterranean water flowing in a narrow underground fissure, a pool of oil or a vein of mineral ore, a buried sewer pipe or electrical cable, an airplane downed in a mountain wilderness, a disabled ship helplessly adrift in a gale, a lost wallet or dog, a missing person, or perhaps a buried treasure. Co-author of The Secret Life of Plants, Christopher Bird has filled this book with exciting, documented stories, most of them illustrated with photographs and diagrams. It provides a complete history of the art of dowsing around the world and discusses in detail the various existing theories attempting to explain this extraordinary phenomenon.

New Age Solutions for Restoring our Planet
Peter Tompkins and Christopher Bird.

BIOLOGICAL TRANSMUTATIONS
C.L. Kervran
From 1935 to 1955, in an investigation into effects on man of the conditions in which he lives and works, C. L. Kervran was able to study some clear cases of intoxication caused by carbon monoxide when no one was able to detect CO in the air the men were breathing. It was not until 1955 that he determined the cause. For four years he undertook systematic research which ended by confirming that nature is capable of transmuting elements. The problems of ecology, medicine and nutrition, and the alarming rise of radioactivity are too acute to be dealt with solely through academic channels. The understanding of the biological transmutations requires nothing more than the casting aside of all rigid thought while studying them. Transmutations are now recognized in medicine. They have opened the door to new treatments and therapeutics for reputedly " incurable" diseases. Agronomists are already practicing Kervran's findings on a large scale. Mr. Kervran, with his discovery of biological transmutation, has given this chaotic and scientific world the Alladin's Lamp by which we can save ourselves and our diseased earth.

PRODIGAL GENIUS
The Life of Nikola Tesla
John J. O'Neill
Pulitzer Prize winner John J. O'Neill presents a penetrating study of the life and mind of a scientific superman, Nikola Tesla. A brilliant eccentric, Tesla's life has the quality of the strangest romance. He made his first million before he was forty, yet gave up the royalties on his most profitable invention as a gesture of friendship, and died almost in poverty. Handsome, magnetic, and elegant, he was the "catch" of New York society, yet no woman could win him from his dedication to science. He refused to accept the Nobel Prize; and when others claimed credit for the revolutionary ideas his extraordinary mind threw forth, he did not contest them. O'Neill has written the definitive biography on Nikola Tesla. This is a must-have for anyone even mildly interested in Tesla's legacy.

PLANETARY INFLUENCES UPON PLANTS  
Ernst Michael Kranich

At the beginning of our century a significant change occurred in the investigation of life. The great achievements of the nineteenth century had taken place in the investigation of form; anatomy and comparative morphology had their golden age, of which little is noticeable at universities nowadays. But more recently the interest of biology has shifted from the external form of the organs to life processes and behavior. This book carefully traces the relationship of the “form language” of plants to the planets. Many examples and drawings are included illustrating the connections between the orbital paths of the planets and the shapes and movements found in a variety of plant life. Highly recommended.

Although this book focuses on the plantworld, it is possibly the finest introduction to the borderland sciences ever written! Exploring the world of plants and its relation to mankind as revealed by the latest discoveries of scientists, The Secret Life of Plants includes remarkable information about plants as lie detectors and plants as ecological sentinels; it describes their ability to adapt to human wishes, their response to music, their curative powers, and their ability to communicate with man. Authors Peter Tompkins and Christopher Bird suggest that the most far-reaching revolution of the twentieth century—one that could save or destroy the planet—may come from the bottom of your garden. This book is also a virtual “who’s who” in the field of the borderland sciences and details many remarkable and reproducible experiments.

THE BASIS OF POTENTIZATION RESEARCH
Theodor Schwenk
Presents the theoretical, spiritual-scientific basis of the working of potentized remedies and also summarizes and discusses many of the important experimental verifications of the effects of potentized substances. Potentization is the rhythmic dilution of a substance into its homeopathic/energetic form. These remedies are so "dilute" that they contain none of the original substance, yet the dramatic effects of these potentized dilutions have been well documented for several centuries. An important book for those who want to be informed about how homeopathic remedies work, and to discover the reality of the ethereal forces.

GOETHE'S SCIENTIFIC STUDIES
Edited and translated by Douglas Miller
Goethe's scientific work is less familiar to the reading public than his poetry, yet his understanding of natural phenomena displays the same sensitivity and brilliance as his depictions of human relationships. Goethe calls upon the scientist to develop his perceptions both inwardly and outwardly in pursuing the continuum of nature through a world which is interconnected and alive. His methodology is thought-provoking; his research in anatomy, botany, physics, chemistry, zoology, meteorology, and geology challenges modern assumptions just as it challenged the tenets of his own time. This volume brings the reader a new translation of over forty carefully chosen selections from Goethe's scientific writings; few of these have been available in English. A major section is devoted to Goethe's great work on optics the Theory of Color. The text is accompanied by several of Goethe's original illustrations, and the editor has provided an introduction and explanatory notes to guide the reader through the pleasures and complexities of Goethe's work in the sciences.

PROJECTIVE GEOMETRY
Olive Whicher
A non-mathematician's approach to projective geometry cultivates the power of inner visualization of the etheric forces. As a plane is composed of many lines and points, so is the point composed of many planes and lines, expressing the dual nature of this geometry over the one sided geometry of Euclid. This is a layperson's introduction to an important perspective necessary to Borderland Research into the creative formative forces of the universe. The mobile action of life cannot be accounted for via an x,y,z axis system, but can readily be understood by the various projections of point, line and plane. This is the significant information completely lacking from so-called "chaos theory", without which the fundamental forces of the universe will never be understood. Understanding projective geometry is the key to many fields of research, including Constable's etheric weather engineering and Dollard's Tesla research, without which progress will not be made. #B0175, 292pp, large paperback, ... $31.95

MAN OR MATTER
Ernst Lehrs
An overview of the elements, ethers, Goethe's metamorphoses of plants, chemical activities in planetary life, the science of color, etc. Lehrs reveals to the reader not only how science has been inescapably led to the illusions it holds today, but more importantly, how the reader may correct in himself these misconceptions brought into his world view through our modern education. A comprehension of the ethers as well as a full understanding of Goethe's counter-Newtonian color theory may be accomplished by the reading of this book. The importance of this line of thought must not be underestimated as the missing keys of science are in this remarkable tome. Don't leave this stone unturned! #B0141, 544 pp, paperback, ... $24.00

BOOKS BY GEORGE TRINKAUS

TESLA: THE LOST INVENTIONS
George Trinkaus
Here are the suppressed inventions of Nikola Tesla all in one place rendered in clear English and in 42 illustrations. Tesla was famous at the turn of the century for inventing the alternating current system still in use today. But his later inventions, documented in some 30 U.S. patents between 1890 and 1921, have never been utilized as Tesla intended despite their obvious potential for advancing in fundamental ways the technology of modern civilization. Among these lost inventions: the disk-turbine rotary engine, the tesla-coil electric energy magnifier, high-frequency lighting systems, the magnifying transmitter, wireless power, and the free-energy receiver.

RADIO TESLA
The Secret of Tesla’s Radio and Wireless Power
George Trinkaus
In clear English with a minimum of math, this booklet details the peculiar radio technology of Nikola Tesla. Early elemental radio devices like Tesla’s are fascinating and worthy of study because they remind us that powerful radio technologies can be so simple and accessible. Tesla’s transmitters produced high-voltage, sudden-pulse disturbances conducted through the earth at low frequencies. His radio is as taboo in official science as his wireless power, which works on the very same principals. Tesla said the radio physics of Hertz, still in vogue, was an “aberration,” a “fiction.” Modern radio took a lot from Tesla, but what did it ignore? Also: spark gaps reconsidered, grounding rediscovered, low frequency revived, lament on solid state, underground radio, the suppression of amateur radio, radio-free energy.

GRAVITY IS A PUSH
Walter C. Wright, Jr.
Einstein theorized that gravity is a kind of magnetism generated around any physical body in the form of a unified field. Author Wright takes this theory one step further to demonstrate with a wide variety of formulas, diagrams, and models that the force of gravity, rather than emanating from the earth, comes from outer space, and that objects are pushed towards the earth rather than attracted by it. Mr. Wright has been working on his theory that gravity is a push between heavenly bodies for more than ten years and in that time has generated a great deal of controversy as well as a large following who believes his theory. TESLA'S LONGITUDINAL ELECTRICITY

A laboratory demonstration video with Eric P. Dollard & Peter Lindemann

If you've ever wondered if there is more to a Tesla coil than just making big sparks then watch this video. Borderland presents a series of experiments providing you with factual data on the reality of Tesla’s theories. You will see experiments on: The One-Wire Electrical Transmission System; The Wireless Power Transmission System; Transmission of Direct Current Through Space; and, a novel form of electric light which attracts material objects but repels a human hand! Also presented is a longitudinal broadcast from Borderland Labs to a nearby beach, using the ocean as an antenna. These experiments can be reproduced by any competent researcher, there are no secrets here! Today’s conceptions of a Tesla Coil provide the researcher with little practical material. Eric Dollard reintroduces the “pancake” Tesla Coils in a series of experiments taken directly from Tesla’s work. No modern interpretations needed, we went to the source — and it worked! Construction details are given. If you want to do some exciting, exploratory work into Tesla’s theories then this video will certainly give you a good start.

TRANSVERSE & LONGITUDINAL ELECTRIC WAVES

A laboratory demonstration with Eric P. Dollard

Eric demonstrates the reality of longitudinal waves and their application to the natural transmission of electricity. Analog computers (networks of coils and capacitors) are presented opening up an entire new field of electrical researches into the wave forms discovered and used by Tesla in his wireless power transmissions. You will experience the physical functions of the various waves via direct measurement inside the computer network. The Longitudinal Magneto-Dielectric wave is shown to have a propagating velocity greater than the speed of light! The transverse electromagnetic wave, (in present use) is shown to be a retarded, unnatural form of energy transmission. A Multi-Pactor Orgone Detector is demonstrated indicating a relationship between dielectricity and orgone. A competent researcher can duplicate the experiments on this video from the information given. Amaze your science teacher!

THE RAY OF DISCOVERY  Written and Produced by Gerry Vassilatos

RAY I: NIKOLA TESLA

In ETHERIC PHYSICS we learn about the phenomenal discoveries which led to Tesla's great life-work. Revealed here is his conception of the ether and its relationship with our own innermost lives. We are also informed about the pathological resistance by the House of Morgan to his discoveries. Insight into the opposition of Morgan, whose daughter fell deeply in love with Tesla, reveals the formidable forces opposing all discoverers in the field of etheric energy. ECHOES OF RADIANT SPACE recounts the way in which Tesla tapped into the vast etheric reservoirs of dynamic energies. We are told how Tesla's large designs actually yielded far more energy than they took to run. We are, finally, driven into the astonishing revelation concerning Tesla's involvement with what later was called psychotronics. Many of his claims are actually forerunners of a new technology — yet to be revealed. #V0000, 1 1/2 hours VHS, ... $19.95

RAY III: MEDICAL RADIONICS

Three great scientists, deleted from the establishment's history program, are chronicled in this trilogy. They are names you should remember, giants in complementary scientific lore — George Starr-White, Albert Abrams, and Ruth Drown. THE DELICATE REFLEX tells the tale of Dr. George Starr-White, a truly gifted and original discoverer in the virtually unknown art of chromadiagnosis. His development of colorbeams (to elicit responses in the iris of the eye or the body muscles) marked the first recorded radionic diagnosis of disease. These diagnoses gave pin-point accurate results — in the 1880's! PULSES OF THE LIVING, deals with master radionics pioneer — Dr. Albert Abrams — and his remarkable methods for illustrating the etheric 'human energy' nature of health and disease. Unlike electricity, this 'human energy' could be stored in Leyden jars for up to 24 hours. These strange energies could be conducted, refracted, and tuned. His instrument, the Oscillocast, is also described. GATEWAY OF THE FUTURE describes the life and work of Dr. Ruth Drown. Dramatically, this wonderful woman's researches and the utter suppression of her work are defined for the viewer. Learn how Dr. Drown developed her radionic tuning instruments. Discover her famed atlas of rates, her method of treating patients with their own energies, and her mystifying 'radiovision' cameras — devices capable of photographing internal organs and tissue — even from a great distance. #V0029, 1 1/2 hours VHS, ... $19.95

RAY IV: TESLA'S NEW YORK

The biography of Nikola Tesla is set entirely in New York City. Despite this remarkable fact, no one has ever undertaken a video search of his haunts and whereabouts. To know the setting of Tesla's life is to know more of him and his inventive process. Many Tesla enthusiasts have read his biography repeatedly, each time growing familiar with the many locations mentioned. But where did he walk during the night? Where were the probable sites of his several laboratory locations? Are there connections to be found among these settings and his discoveries? Why did he strive to develop radiant electrical systems? What exactly was his relationship with Kathy Underwood Johnson? And Anne Morgan...did her famous "fatal obsession" with Tesla lead her to instigate a reprisal which later nearly killed him? For what later reasons did Tesla decide to broadcast special psychotronic energies from Wardenclyffe, vengefully using an unwitting Morgan as his patron? What exactly was the "Human Energy" which he so often mentioned after the Century's turn? Come for a long walk with Gerry Vassilatos through the City where Tesla's radiant thoughts may yet be felt! TESLA DOWNTOWN shows the early years, steeped in the beautifully ornate Victorian style: Grand Street, Houston, South Fifth, Delmonico's, Rutherford Square. PLANT TONES

MUSIC FROM THE WORLD OF PLANTS

Michael Theroux

Ever wonder what a plant might sound like if it could talk or sing? On this audio cassette you'll hear what could be the encrypted communications of the plant world. Using the biological reactions of several species of plants, Michael Theroux has translated them into audio sounds via recordings, which when mixed together produce a variety of never before heard "plant songs". Some of these "songs" are the excited responses of plants to being watered, while others were plants stimulated with music, conversation, or simply nothing at all! Some listeners may find these songs disturbing or even haunting as they evoke an intellect not generally associated with plants. These are truly sounds from another world, but some of you may find you understand what the plants are saying!

EARTH TONES

Gerry Vassilatos & Michael Theroux

EARTH TONES by Gerry Vassilatos and Michael Theroux is an audio experience which takes the listener on an incredible adventure through the curious sounds of the earth and into the very realm of vital Telluric energies. On side one, Gerry Vassilatos demonstrates that different substances buried in the earth have different tone signatures. The striking harmonic differences recorded between substances such as Iron, Copper, Zinc, Silver, Galena, Sphalerite, Amethyst, Pyrite, when placed in the ground, provides us with accessible vision into the otherwise unknown subterranean earth. On side two, Michael Theroux demonstrates — through the use of a dipolar ground rod system — that the earth is alive with vital currents of energy. "Pings and Pops" can be heard along with the remarkable recording of two earthquake events! After the initiatory experience of hearing these sounds, no one will be able to deny the existence of the vital energies unleashed from the earth.

MUNDUS SUBTERRANEUS

Michael Theroux

Combining a variety of instruments such as pianos, harmoniums, ethnic drums, and experimental instruments, Michael Theroux has created an array of compositions that reflect the sacred geometries of subterranean energies. The title, Mundus Subterraneus, was taken from a rare manuscript written by Athanasius Kircher in 1665 which deals with the alchemy of telluric currents. On several songs, you will experience the earthy sounds of the Terra Superimpodynamidae, an instrument utilizing modified shortwave receivers whose antennas are iron rods driven deep into the soil! To play the instrument one merely moves the hands about in the vicinity of the device. On the title cut, the complex tonal structures of this instrument serve as a melodic backdrop for the deep gongings of an actual earthquake event! On other compositions, Michael has incorporated radionic interval forms which relate directly to the vital processes of the earth itself. Within the motive medium of song these vital energy forms open us to the exploration of dissociating rhythm, melody, and harmony, and may even give one the feeling of timelessness.

The Ray-X Button™
Inexpensive relief from computer related fatigue
From VrilTek

Recent discoveries have provided a simple and cost effective means for eliminating the fatigue syndromes associated with exposure to computer monitors. These discoveries have led to the development of the Ray-X Button™. The Ray-X Button™ is constructed with a proprietary material which attracts, absorbs, and transforms monitor related emissions, rendering them innocuous to living systems. In simple experiments with plants, the Ray-X Button™ proved effective in the transformation of monitor emissions, leaving healthy plants, while test subjects without the Ray-X Button™ wilted and showed stunted growth (Borderlands, Vol. LII, No. 1, 1996). The Ray-X Button™ is THE cost effective way to eliminate monitor or television related fatigue, and produces results you can actually FEEL.

Read what satisfied users say:
My husband bought a Ray-X Button for my computer 2 months ago. I was skeptical about the benefits but put it on my monitor anyway. Then, just in the past two weeks I realized that I have been working up to six hours a day at my computer. Before the "button", I could only manage a couple of hours before burning out. I'm convinced the noticeable effects are from the Ray-X Button.
— N. Simpson, Houston, Texas

Computers have always made me feel sick. Three hours use resulted in 3 days of "jet lag" and horrible eye strain, despite my glare screen. Since installing my Ray-X Button, I have no more fatigue and no more eye strain — in fact I have more energy!
— Judith Hill, Portland, Oregon

Ba-gua Mirror

Feng shui — wind and water, the art of adapting the residence of the living to harmonize with the cosmic breath — this ancient Chinese art possessed various objects to remedy geomantic defects. The Ba-gua, or Feng shui mirror is one of these objects which can be used to deflect sha qi, or "breath of ill fortune". Placed over your front door, or inside the home at strategic locations, the Ba-gua will redirect negative energies away from living areas. The Ba-gua is constructed from wood with a small circular mirror in the center and is painted green and red with gold trigrams. Ba-gua Mirror, #E0031 ... $6.95
**Penergizer**

Commercially delivered water, through the process of chlorination, fluoridation, and pressurization, has lost most, if not all, of the natural living energies which the water originally contained. Johann Grander, an Austrian inventor and naturalist, has developed a method of re-vitalizing water to this original "living" condition. The method Grander has developed utilizes the concepts of magnetism, Hahneman's potentization, and Shauberger's Implosion, to restore water to its original state of vitality and health. This technique, which Grander has termed "Wasserbelebung" or Water Revitalization, is the central active factor involved in the function of the Penergizer. The Penergizer is a pocket-sized instrument which allows anyone to quickly and easily re-vitalize water. Great for travelers.

BioCircuits work on a simple principle. By linking key energy centers in your body, these special circuits enhance the flow of your natural energy. L. E. Eeman first devised the biocircuit early in the 1920’s to heal himself from “incurable” wartime injuries. After his miraculous recovery, Eeman devoted his life to exploring the remarkable properties of these simple tools. BioCircuits balance, energize and deeply relax the whole body. In just 15-30 minutes a day, they can energize you when tired or calm you when you’re overstimulated or stressed. BioCircuits can also induce deep, restful sleep. Copper BioCircuits™ come boxed with full written instructions & a special audio-tape with voice, music and brain synchronization signals. BioCircuits are sold for research purposes only. These Copper BioCircuits™ form the Eeman General Relaxation Circuit.

THE MORLEY MARTIN EXPERIMENTS
and the Experiments of Dr. Charles W. Littlefield & Wilhelm Reich

THOSE ASTOUNDING ICE AGES
Dolph Earl Hooker.
From whence came the great sheets of ice that covered much of the earth during the ice ages? The ice was deposited rapidly, freezing mammoths in mid-chew on their tropical plant dinners. This astounding book describes the "canopy theory" of planetary development, that is, a spherical shell of mineral and water rotated at a distance from earth's surface. Periodically minerals would fall, creating the stratification found in sedimentary rock and ice would fall, creating the geologically short-lived ice ages which disappeared as the ice melted.

VRIL COMPENDIUM I — WHITE RAY CONDUCTORS
An astounding assortment of arcane designs and remarkable inventions is presented in the first volume. Aerial batteries were designs which made practical use of the energies which celestial currents and rays brought to earth. Patents of Ward, Vion, Palenscar and others offer the reader a rare glimpse into the workings of VRIL from aerial sources. Earth currents and earth resonance are discussed extensively in this volume.

VRIL COMPENDIUM II — VRIL TELEGRAPHY
Telegraphy began with a truly radionic basis. Early telegraphic systems utilized the strange and mysterious correspondences acquired between specially treated magnetic needles and sympathetic pendulums (properly grounded and oriented). VRIL maps show that the telegraph system was literally generated along VRIL paths as railroad personnel followed their own intuitions while laying track.

VRIL COMPENDIUM III — VRIL LINKAGE
The manner in which VRIL radiances have been apprehended through "aqua videos", photographs, and photochemical means is thoroughly documented here in remarkable depth. Introducing telegraphic patents which made direct use of ancient geomantic means for communicating intent: non-electric pendulum telegraph systems, and VRIL impression recording systems.

VRIL COMPENDIUM IV — VRIL ARCHÆFORMS
A remarkable assortment of earth battery patents. A primer course in VRIL genesis of metal lodes and placer deposits is found here. How ancient architecture managed to accumulate, intercept, and modulate VRIL was specifically treated magnetic needles and sympathetic pendulums (properly grounded and oriented). VRIL maps show that the telegraph system was literally generated along VRIL paths as railroad personnel followed their own intuitions while laying track.

VRIL COMPENDIUM V — VRIL CONNECTION
The discovery of nerve-induction telephony by Antonio Meucci in 1849 marked the true birth of telephony. In these documents, patents, and articles we read of developments whereby deaf persons could hear directly through the nerveworks of the body. In these early attempts to approach true empathic transmission we see the basis of systems which Tesla would later advance to a wary scientific public.

VRIL COMPENDIUM VI — VRIL TELEPHONY
A presentation of nearly every pertinent VRIL transducer of which telephony was comprised. How the human aura and its VRIL threads dendritically merge with the natural VRIL is the central theme here. Every kind of transducer is shown. Presents systems which intensified the VRIL content of telephone lines with no need for electrical power!

VRIL COMPENDIUM VII — VRIL DENDRITIC GROUND SYSTEMS
A presentation on the earliest unknown wireless researchers: Mahlon Loomis, Nathan Stubblefield, & Dr. Amos Dolbear. This volume chronicles the discovery of natural VRIL power in the earth... usable power for communications of signal, word, & intent.

VRIL COMPENDIUM VIII — VRIL AND GROUND RADIO
by Gerry Vassilatos
The early history of wireless communications begins with the trans- aqueous systems of Steinheil (1838), Morse, Lindsay, Trowbridge, Highton (1852), Preece, Ratheneau and others. The Q-Ray™ Bracelet

The Q-Ray™ Bracelet is designed to achieve many of the same objectives as traditional Chinese acupuncture. Acupuncture was developed to balance the body’s Yin (negative ions) and the Yang (positive ions), the inseparable, complimentary energies that permanently circulate in the human body. When these energies become unbalanced, the body’s functioning is thought to be altered, which can at the least be very annoying and at the worst debilitating, depending on the size and nature of the energy imbalance. Oriental medicine, through acupuncture, is believed to regulate these two energies, discharging from the body the excess positive ions or static electricity and providing access to blocked negative ions. Since its creation in 1973, many people worldwide have claimed benefits from using the Q-Ray™ Bracelet. Please specify wrist size when ordering (Small — 6-7 inches; Medium — 7-7¾ inches; Large — Over 7¾ inches).
