10.please seed a long time if you can .!!!

11.verify time to time comments about your torrent movies to find friends.

please upload only quality dvdrip movies .

THOMSON mp3PRO Decoder Plug-in for Winamp - 1.3 www.mp3pro.com

=====

0) No compatible with dvd players and sound of video format .[avi.divx,wmv,xvid,mpeg4....]

Spectral Band Replication (SBR) enhancement technique is not compatible with normal dvd players. example : mp3pro 64 kb with winamp is 128 kb cd quality

, and with dvd players and normal mp3 players is the half quality - 64 kb fm quality.

is the same problem if you want to convert sound of any video in mp3pro .

players supporting mp3pro :

only 2 players read full mp3pro super quality with low bitrate :

1. winamp 5.x all versions.

2. musicmatch 10 all versions.

converter any format in mp3pro 64 kb 22050 hz:

1. nero 8.2.8.0 micro , lite or full.

the best and highest quality will obtain only with nero 8.

for using nero 8 to convert normal mp3 or another format in mp3pro :

1. open nero 8 in nero burning rom mode . no nero express mode , is not work .

2. click cancel in the popup windows appears.

3. click extras in the top menu and select encode files or use f 8 , the shortcut way.

4. add max. 100 mp3 files per session or another format click setting .

- select highest quality,constant bitrate, mp3pro , 64 kb - 22050 khz stereo or 24000 khz stereo. no ! DUAL MONO.

5. click browse select destination folder, click go and wait to finish .is very fast .

6 attention !!! do not mix high quality files with very low quality files.

example :

1. is ok to mix files 96 kbs-44100 khz with 112,128,160,192,256,320-44100-48000 khz

constant or variable bitrate.output is the same for all files = 64 - 44100 khz mp3pro.

2. is very bad to mix files below >64 kbs-32000-22050-16000 khz with 44100-48000

biltrate.

output is always half all file with the bad file .will obtains 32,24.16 or 8 kbs worst.

3. with this format : mp3pro 64 kbs-22050 khz you will be able to write and burn :
300 mp3pro or more with 1 cd. 2500 mp3pro or more with 1 dvd . 1 file mp3pro ~ 2 mb for 4 minutes sound.
