

Car Rental Security Contacts

www.carrentalsecurity.com

This list is divided into three sections. The first is the Corporate Headquarters (HQ) information for each agency. In some cases there may also be listed a "Car Control" function normally responsible for overdue vehicles, vehicle impounds/towing, etc. Some may list toll-free after-hours numbers and/or Customer Service / Roadside Assistance numbers. After-hours information may be limited depending upon the agency. Vehicle registration information is also listed where provided. Keep in mind that most agencies have "floating" or "controlled" fleets so vehicles with out of state plates may have been rented locally. The second part of the list is a summary state-by-state listing of those security contacts located in the field. The last listing is a detailed list of all security contacts (HQ and Field) by rental agency name and then in alphabetical order. See www.carrentalsecurity.com for the most current list. Please note the footnote disclaimer.

Current as of 03/25/2008
