## HIV CARE NETWORKS

The mission of the HIV Care Network is to ensure coordination of comprehensive health and social services and to develop necessary resources for people infected and affected by HIV/AIDS in each borough. The HIV Care Networks were established through the Ryan White Care Act, to focus on geographic areas hardest hit by HIV/AIDS. The Network membership is open call each coordinator to find out about meeting dates and locations.

# Health Information Tool for Empowerment (HITE)

The Health Information Tool for Empowerment (HITE) is an online directory of health and social services specifically for uninsured and under-insured New Yorkers. With the click of a mouse. [www.hitesite.org](http://www.hitesite.org) HITE allows professionals to link their underserved clients with a broad array of health and support services. The site allows the user to select the type of service needed enter a zip code and the site will bring all the services available. HITE is available in the following areas of New York State:

## New York City

- Brooklyn
- Manhattan
- Bronx

## South Central New York

- Broome County
- Chenango County
- Cortland County
- Delaware County
- Otsego County
- Tioga County
- Tompkins County

HITE was developed by the Greater New York Hospital Foundation, and made possible with funding from the Robert Wood Johnson Foundation, W.K. Kellogg Foundation, the Langeloth Foundation.

---

[TELL THEM](#) | [GET CHECKED](#) | [STD INFO](#) | [RESOURCES](#) | [TESTING](#)[ABOUT THIS SITE](#)[CONTACT US](#)

In New York, there's an easy way to tell your sex partners you have a sexually transmitted disease (STD). Send them a free inSPOT e-card, ANONYMOUSLY or from your email address, [right here](#).

No information will be reported to any government or private agency. Please respect the community and don't use these cards to spam.

[More About This Site ->](#)  
[Community Guidelines ->](#)

Tell your hookups, ex's, boyfriends, girlfriends, and partners they may have been exposed to an STD.

**TELL THEM**

If you've received an InSpot card, find out where to get screened and if necessary, treated, for an STD.

**GET CHECKED**

This site was created by  
I.S.I.S., Inc., a non-profit  
group, with funding from the  
NYC DOHMH Bureau of STD  
Control.  
Design by Primatiai

## New York City Department of Health and Mental Hygiene Health Care Access and Improvement

The Division of Health Care Access and Improvement includes a wide variety of programs that provide services to tens of thousands of New Yorkers.

- The Office of Forensic and Behavioral Mental Health Services is responsible for planning, development, evaluation and oversight of forensic mental health services, which include jail based mental health and discharge planning services. The focus of this office is to ensure that all inmates who leave the criminal justice system will have access to the necessary community based mental health services. Upon release clients may seek services at Community SPAN Offices.
- The Bureau of Oral Health, Programs and Policy operates an integrated network of community-based and health center dental clinics, providing comprehensive dental treatment for children and adolescents up to age 21 who are at high risk for dental diseases, and/or who may not otherwise receive professional dental services.
- The Bureau of Transitional Health Care Coordination provides discharge planning services and referrals to meet the medical and social service needs of inmates, reentrants and their families. A primary goal of the Bureau of Transitional Health Care Coordination is to link inmates, reentrants and their families to health information, public health insurance and health and social services in the community.
- The Bureau of Health Insurance Services monitors the performance of the City's Medicaid Managed Care Plans, develops, implements and evaluates education on public health and mental hygiene issues for health care providers in the public and private sectors, and enrolls uninsured New Yorkers into public health insurance programs.

Saturday 8:30AM–4:00PM

MIC-Women's Health Services provides comprehensive reproductive health services through a network of eight Centers and their back-up hospitals. Prenatal and family planning services are delivered by fully qualified physicians or midwives. You will have a physician or midwife designated as your provider. The providers cover labor and delivery at the hospital, so you will probably see a doctor or midwife you already know when you are ready to deliver. Physicians and midwives provide after hours phone coverage to answer your questions.

If you are pregnant, MIC staff will help you qualify for the Prenatal Care Assistance Program (PCAP)/Medicaid by preparing and submitting your application. PCAP will cover the cost of your prenatal, labor and delivery, and post-partum care. PCAP will also cover your family planning services for 24 months after you post-partum visit. MIC offers a sliding fee scale for its family planning services (depending on your income, you may pay nothing). MIC accepts payment from certain Medicaid managed care plans.

For additional information, call (646) 619-6400.

## NYC Health and Hospitals Corporation

### Child Health Clinics

The Child Health Clinics offer comprehensive primary and preventive care to children ages 0 to 18, and are part of hospital networks that offer a wide range of services for children and families. The Clinics serve all comers regardless of ability to pay, and facilitate enrollment in Medicaid and Child Health Plus. For additional information call the Office of Child Health at (212) 442-4951.

# Hepatitis C Screening Locations

## Who Should Get Tested?

Hepatitis C spreads only through blood, not through food or casual contact. The people who most need to be tested are those who:

- Ever injected street drugs, even just once or a long time ago
- Had a blood transfusion, received blood products, or had an organ transplant before July 1992
- Ever been on kidney dialysis
- Had unprotected sex with many partners, or with a partner who had Hep C or injected drugs
- Received tattoos from someone other than a licensed professional
- Tested positive for HIV
- Where born in a country with a high Hep C rate, such as Egypt or the Soviet Union

# Crystal Meth

Use of methamphetamine (also known as *meth*, *crystal*, *Tina*, *crank*, *crissy*, *speed*, and *tweek*) is increasing in New York City. Recent studies indicate that meth use may increase unsafe sex and raise HIV and STD infection rates among men who have sex with men. In addition to the physical and psychological damage it causes, meth use often leads to compulsive sexual behaviors that increase the spread of HIV and other sexually transmitted infections. Because meth is highly addictive and may significantly alter sexual behavior, it has the potential to become a more serious and widespread problem, especially with regard to increased spread of HIV. Meth use also poses additional dangers to people already infected with HIV. Meth use often results in an intense downward spiral of addiction, which is very difficult to treat.

## **NYCMA** NEW YORK CRYSTAL METH ANONYMOUS

### Counseling and Support Groups

NYC Crystal Meth Anonymous is a fellowship of people for whom crystal meth has become a serious problem. The only requirement for membership is a desire to stay clean and lead a sober life. There are no dues or membership lists—each group is expected to be self-supporting through its own contributions. The members of crystal meth anonymous meet regularly to share support and fellowship, and create a safe environment to stay drug free. The NYCMA advocates complete abstinence from crystal meth, alcohol, inhalants, as well as all other mind-altering substances.

Crystal Meth can have a serious impact on your health. For more information or help, call the following agencies. Some offer individual and group counseling.

- New York City Department of Health and Mental Hygiene: [www.nyc.gov/health](http://www.nyc.gov/health) or call 311
- For help with substance abuse or mental health problems: call 1-800-LIFENET (1-800-543-3638) or 311
